To Novi Community School District Parents and Community Members:

As we look towards the summer, we are currently planning to have summer school and summer CARE.

If we provide these options, we will focus on both providing a high quality experience and creating a safe environment. We will provide masks for students and teachers. We will conduct daily health screenings. We will provide hand sanitizer throughout the building. We will ensure that we clean classroom and student spaces each day. Education and safety will be high priorities.

These practices will be in place for both summer school and summer CARE.

What will happen if the state does not allow districts to offer these services?

In our district, all students interested in summer school will be provided a virtual or online option.

Summer CARE does not have an online option unfortunately.

Our school nurse continues to be part of a health network that monitors and informs what the state will do. With her insight and with additional insight gained from other state educational associations, we will make decisions that prioritize and protect our students health and educational opportunities.

We will keep you informed as quickly as possible, so that you can make plans.

Thank you for continuing to support your children. We appreciate the help that you are providing as we guide our children through this truly unusual time.

Gratefully and Appreciatively,
Steve M. Matthews, Ed.D.
Superintendent

Students who are passionate, empowered, and prepared for their world and their future.
