

ACCEPTABLE USE OF TECHNOLOGY

Internet and computer network and non-network access is available to authorized students, teachers, and other staff in the Albemarle County Public Schools. Albemarle County Public Schools' primary goal for technology use in education is to promote educational excellence by facilitating resource sharing, innovation, and telecommunications as outlined in this policy and applicable regulations. However, some world-wide resources available on the Internet are not of educational value in a school setting.

Students and/or their parents or other legal guardians shall, prior to beginning grades K, 3, 6 and 9 or otherwise entering a school, receive and sign an acknowledgment of this Policy and return same to the appropriate individual school. The school shall maintain an accurate record of who has returned the signed acknowledgment and shall respond accordingly.

Use of the Albemarle County Public Schools' Internet and computer facilities is a privilege, not a right. Inappropriate use will result in an immediate termination of access and other privileges relating to use and may also result in disciplinary action (up to and including suspension or expulsion, formal reprimand, or dismissal) as well as potential civil or criminal liability and prosecution.

Use or transmission of any material in violation of any United States or state law is strictly prohibited. Also prohibited are the uses or transmission of the following: material protected by federal or state intellectual property laws; copyrighted material (except in accordance with School Board policy EGAAA); licensed material; threatening, harassing, or obscene material; and/or pornographic material. In addition, it shall be prohibited to access, attempt to access, use, or attempt to use the Internet or other computer network or non-network facilities for any other unauthorized purposes, including but not limited to commercial activities, introduction of viruses, and manipulation or corruption of systems, files, and other related resources.

Administration, faculty, or staff may request that the systems administrator deny, revoke, or suspend specific user access in the event of violation of this policy.

Adopted: August 26, 1996
Amended: February 22, 1999; April 22, 2004

ACCEPTABLE USE OF TECHNOLOGY

Use of the Internet

Through the Internet, students and staff in the Albemarle County Public Schools have access to a variety of resources, including but not limited to:

1. World-wide electronic mail.
2. Library catalogs from around the world, including the Library of Congress.
3. Electronic databases and encyclopedias.
4. The World-Wide Web, a collection of Internet Resources.

Liability

1. The Albemarle County Public Schools will not guarantee the availability of access to the Internet and will not be responsible for any information that may be lost, damaged, or unavailable due to technical or other difficulties.
2. The accuracy and quality of information obtained cannot be guaranteed, nor can information sent or received be assured to be private.
3. Albemarle County Public Schools retains control, custody, and supervision of all electronic resources owned or leased by it. Any information generated, stored or sent through electronic resources is the same as any written documentation and may be subject to Freedom of Information Act inquiries, etc. The School Division reserves the right to monitor all use of electronic resources by employees and other users. There shall be no expectation of privacy of information on any equipment owned or leased by or operated within Albemarle County Public Schools.
4. In accordance with § 22.1-70.2 of the Code of Virginia, Albemarle County Public Schools has implemented a technology for the division's computers having Internet access to filter or block Internet access through such computers to child pornography as set out in § 18.2-374.1:1 of the Code of Virginia and obscenity as defined in § 18.2-372 of the Code of Virginia.

Responsibilities of School Staff and Standards for Technology Use

1. Staff members assigning or permitting Internet use will seek to prevent access by students to material that the school division deems to be harmful to juveniles, and as defined in § 18.2-390 of the Code of Virginia.
2. Staff members assigning student Internet use will recommend safe search strategies and resources which meet the curricular needs of the assignment and the developmental level of the student.
3. Staff members assigning or permitting Internet use will provide or arrange for instruction in acceptable use of the Internet based on information or materials provided by the Office of Instruction. Topics to be addressed include:
 - a. Content of this Policy and Regulations
 - b. Generally accepted rules of network etiquette and safety
 - c. Copyright guidelines

- d. Respect for use of time and resources
 - e. Evaluating sites for appropriateness and validity
 - f. Discriminating among types of information sources and assessing the appropriateness of using the Internet as a resource for a specific learning activity.
4. All Albemarle County employees have the opportunity to publish Internet home pages, facilitated by the school or department Web Page Coordinator (or administrator's designee). Home pages must adhere to all applicable Albemarle County Public Schools guidelines.
 5. With appropriate notification and/or permission, student projects and other material relating to individual students may be published on the school division web server. In all cases, content must be appropriate and relevant to the mission and the business of the school division. Consent is obtained when a parent signs a hard copy of the Web Publishing Permission Form included in these Regulations. In no case shall information about a student such as home phone number, personal e-mail address, etc. be published.
 6. The use of the Internet to facilitate the purchase of school supplies, instructional resource materials or other products intended for use by students or staff must follow Albemarle County purchasing guidelines and all applicable policies.
 7. Students may not use staff members' e-mail accounts. Class accounts may be used by students under the direct supervision of the person to whom the account was issued. Teachers must apply for a class account by submitting an AUTHSCHLS form to their principal for approval.
 8. Audits of account information are routinely conducted. Accounts deemed dormant are investigated and may be removed.
 9. School Division employees may not abuse their access to technology systems. Abuse may consist of either excessive or unacceptable use. Generally, a use is unacceptable if it conflicts with the School Division's or individual School's or Department's purpose, goal, or mission or with an employee's authorized job duties or responsibilities. Incidental personal use of School Division technology systems must not interfere with the employee's job performance, must not violate any of the rules contained in this policy or any other policy and must not damage any hardware, software or communications system.
 10. Staff shall report any incident of harassment or any other unauthorized or inappropriate use of technology encountered over School Division computer resources to the building or department administrator who will report it to the Assistant Director, Office of Technology as appropriate.
 11. Staff and students shall not use access to technology systems for private financial gain, including the conduct of commercial activity for any business in which there is a personal interest, or for advertising or solicitation purposes.
 12. Staff shall not use School Division technology systems for personal, non-School Division purposes to solicit, proselytize, advocate or communicate the views of an individual or of non-school sponsored organizations except through means that have been provided specifically for such purposes (e.g., County Bulletin Board). However, the School Division recognizes that employees have the right to speak out on matters of public concern, and this provision shall not be construed to restrict or prohibit the legal rights of employees to engage in speech that is protected under federal or state laws.
 13. School Division employees who, based upon job responsibilities, have access to monitor the technology use of students or staff must follow guidelines established by the site

- administrator (school principal or administrative director). These guidelines shall be placed on file with the Office of Technology.
14. Any Office of Technology employee monitoring the technology use of students or staff must follow established site-based or District-level guidelines, a copy of which is included in these regulations.
 15. Global Distribution Lists exist to facilitate communication, in the conduct of school or Division business, with specified groups of staff. Use of Global Distribution Lists is limited to the business of the School Division. Sending mass e-mails to School Division employees or outside parties for non-school purposes is prohibited.
 16. Public Folders are created to provide multiple users an efficient means of communicating information, with either specified groups of School Division employees or with all School Division employees, in order to conduct the business of the School Division. Public folders will be created if and only if they serve the purpose of facilitating such communications. Public Folders should be used only for the purposes for which they were created. They are not a forum for the expression of personal opinions and should not conflict with the School Division's purpose, goal, or mission or with an employee's authorized job duties or responsibilities. The County Bulletin Board has been established to provide a single, non-work related avenue for employees to communicate non-work related business such as advertising, promoting non-School Division sponsored events, etc. The content of items posted on the County Bulletin Board must remain within acceptable limits for employee conduct.
 17. E-mail accounts are established only upon the receipt by the Office of Technology of a valid AUTHSCHLS form. E-mail accounts should be requested if and only if an employee must have access in order to fulfill the requirements of his or her job. Employees with e-mail accounts are responsible for maintaining their accounts in a manner that promotes the conservation of School Division resources. E-mail system backups are maintained for short periods of time for the purpose of disaster recovery only. Individual users are responsible for their own backups. E-mail communications may be subject to Freedom of Information Act inquiries.
 18. E-mail attachments should be used only when necessary. File attachments should be in a format that can be opened by the recipient and of a type appropriate to the content being transmitted. Files that are platform dependent or require the user to have software that is not commonly available are often unusable and waste Division resources.
 19. The creation of, change to, or deletion of employee e-mail accounts is accomplished by the submission of an AUTHSCHLS form to the Office of Technology. Forms should be accurately completed, signed by the appropriate supervisor, and submitted in a timely manner.
 20. All technology-related purchases or product demonstrations, including consultant and development services, must comply with the guidelines presented in the Division's Comprehensive Technology Plan.

Student teachers are not eligible for e-mail accounts as their work within the School Division is conducted under the direct supervision of the cooperating teacher/counselor. However, an AUTHSCHLS form, listing a university or private e-mail address, should be submitted to the Office of Technology. Their names will then appear in the Division's Global e-mail Address Book, and may be added to school distribution lists. Administrative interns are employees of the School Division and, as such, do receive e-mail accounts.

Responsibilities of Users and Standards for Technology Use

General Guidelines for Students

1. Students will comply with the Good Computer User Agreement they have signed.
2. Students will only access the Internet using school computer resources under appropriate supervision of a staff member.

General Guidelines for Staff

1. Employees of the School Board must follow and enforce this policy and regulation.
2. Users will use school computer resources in a responsible, ethical and legal manner. All division and school codes of conduct apply. Unethical or illegal activities include, but are not limited to: knowingly spreading viruses, violating copyright laws, using unauthorized software, impersonating another user, unauthorized entry, and/or destruction of computer systems and files.

General Guidelines for All Users

1. Users shall not use, create, distribute, import or otherwise deal with illegal, offensive, obscene, libelous language, pictures, or other similar material on any computer, network or the Internet.
2. Users shall not respond to harassment encountered on any technology system and shall report any such activity to the appropriate supervisor or administrator immediately.

Network and Workstation Guidelines for All Users

1. Users will access only files and data created and maintained by them, that are publicly available within the school network, or to which they have been given authorized access. This includes but is not limited to files residing on individual workstations, servers or other storage devices.
2. User files are not private. The School Division reserves the right to review the content of all computer accounts and files. Network administrators may review files and communications to keep the network working properly and to ensure that users are using the system responsibly.
3. Users will use the network without disrupting its use by others. Network users are expected to respect all forms of password protection and use responsible file management techniques (saving, deleting, naming, etc.).
4. Maintaining the security of School Division computers, networks and other technology

systems is of great importance and requires the cooperation and diligence of all users. Any user who identifies a security problem must notify the site administrator (principal or director) who must then notify the School Division Help Desk. The user shall not demonstrate the problem to others. Any user who attempts or causes a breach of the system security shall have his/her privileges revoked and may be subject to any additional disciplinary and/or legal action.

5. Users may not share passwords with others. Employee passwords, necessary for access to e-mail and systems that contain confidential information, must be changed at least quarterly to protect the security of the network. Periodic password changes may be enforced by the systems administrator. It is recommended that for personal security all users choose a password unique to their Albemarle County account(s).
6. Any user who desires to access School Division network resources or services on a personally owned computer or other device while on county property must obtain permission from the Office of Technology prior to accessing School Division network resources or services.

Internet Guidelines

Guidelines for Students

1. Students may access personal e-mail accounts and other forms of electronic communication with specific, written parental permission as provided on the Good Computer User Agreement, to the extent that access does not interfere with the educational process as determined by school staff. Student access to personal e-mail at school is intended for educational purposes and is not guaranteed to be private. No student may use Albemarle County Public Schools software or equipment to access any service for the purpose of conducting a purchase or participating in any other commercial activity.
2. Best practices for online safety require that students shall only use their first name and last initial unless participating in a moderated learning activity which requires full names. Home phone numbers, addresses, or other personal information shall not be revealed without parental and teacher permission.

Guidelines for Staff

1. Users may not share confidential information on students or employees with users who are not authorized to have such information. Employees are expected to use appropriate judgment and caution in communications concerning students and staff to ensure that personally identifiable information remains confidential. Employees should not use electronic mail for confidential matters or privileged communications, such as student education records, unless appropriate measures are taken to ensure confidentiality and to maintain the appropriate privilege. Employees shall adhere to all school, School Division, state and federal laws, policies and standards including the Family Education Rights and Privacy Act (FERPA).
2. Account access to systems containing confidential data will only be granted to individuals who meet the conditions of School Board Policy JO – Student Records, School Board Policy

GBL - Personal Records and other School Board policies, local, state and federal laws as applicable to the particular system. The use of such accounts must comply with all applicable laws and policies.

Guidelines for All Users

1. Users may not participate in any form of on-line mass e-mails, "chain letters" or thelike.
2. Users will follow general rules of communication etiquette.
3. Users may not create, open or forward any e-mail attachments that are known or suspected to contain viruses.

Consequences of Unacceptable Use

The use of computer resources is a privilege, not a right. Misuse of Internet access or a violation of this regulation may result in the account or the user's access privilege being denied, revoked, or suspended. Misuse may also subject the user to disciplinary action up to and including suspension, expulsion, formal reprimand, or dismissal as well as potential civil or criminal liability and prosecution. Any illegal activities will be reported to the appropriate agencies.

Internet Web Site Management Rules and Guidelines

All use of Albemarle County Schools Web server and resources shall promote educational excellence by facilitating resource sharing, innovation and communication for the enhancement of the School Division's mission.

Items published on the Albemarle County Schools Internet server shall be in accordance with applicable web site management rules and guidelines. The Web Page Coordinator within each school or department shall be responsible for ensuring that all pages published within the school or department's directory comply with this policy and applicable rules and guidelines. Each principal or director will assign the Web Page Coordinator duties to a staff member or staff members as appropriate. The Web Page Coordinator activities are managed by the Division Web Analyst.

Schools and departments must develop and use templates that meet the requirements for Division web pages and use navigational strategies common to those used by effective web sites. The templates should provide a common, professional "look and feel" to the Division's web site and sub-sites as appropriate. For example, the Division template would apply to all pages linked from the site home page. As another "site" begins, so may another template. These templates must be approved by the Division Web Analyst.

All School or Department home pages must include the following basic, current information:

- ?? Name of school or department
- ?? Name of principal or director
- ?? Address
- ?? Phone number

- ?? Fax number
- ?? Link to staff directory page containing names, current assignments, and school e-mail addresses for all professional staff (staff may substitute personal e-mail address if desired)
- ?? Link to Division's home page
- ?? Link to Division's Internet Privacy Statement
- ?? Name and e-mail address of Web Page Coordinator (in case there are errors)

All web pages posted to the Division's web site must:

- ?? contain only content appropriate and relevant to the business of the school division
- ?? provide no more than limited personal information on "About the Teacher" pages, similar to introductory remarks that would be appropriate comments at a "Back to School Night" or similar function
- ?? promote educational excellence by facilitating resource sharing and/or innovation
- ?? comply with school and division "Web Site Management Rules and Guidelines"
- ?? be technically sound and work properly
- ?? protect the rights and privacy of students and staff. School and department web sites should include a faculty/staff directory with individual names, e-mail addresses and current assignments listed. In addition, the following statement should appear on school directory pages:

Notice: E-mail communication is not guaranteed to be immediate. If you have a message that requires immediate attention or must be communicated to your child in a timely manner, please phone the school office.

- ?? adhere to all applicable Albemarle County guidelines and School Board policies. The web site may not be used to transmit or otherwise deal with illegal, offensive, obscene, libelous language, pictures, or other similar material, any material protected by federal or state intellectual property laws; copyrighted or licensed material, for which permissions have not been obtained; private, commercial links or materials; threatening or harassing language or material; and/or pornographic material.
- ?? include name and e-mail address of web page owner (in case there are errors)
- ?? include link to parent page
- ?? include link to school's or department's home page
- ?? include date of last update
- ?? include appropriate title header that associates the page with the school or department

Web Page Coordinators should refer to the Yale Web Style Guide, currently located at <http://info.med.yale.edu/caim/manual/contents.html> for information regarding web page design and style or contact the Division Web Analyst for guidance.

Pages should be grammatically correct without spelling errors.

The author of the web page should review all pages for typographical errors, grammatical errors, content errors and similar problems before posting them to the web server.

Graphics should be used with a thoughtful purpose.

Graphics should provide useful, visual clues about the information provided and not distract from the purpose of the web page. Consideration should be given for the many different browsers that will be displaying the page. It is recommended that web page designs accommodate the common screen resolution of 800 X 600 pixels.

Information should be as current and accurate as possible.

In addition, all links to Internet resources should be checked regularly as appropriate and revised as necessary by the author of the web page. Any page that includes external links must include the following warning, informing the user that they are leaving www.k12albemarle.org.

<p>WARNING! This page contains hyperlinks to one or more external web sites. Accuracy and quality of information obtained from either internal or external sources cannot be guaranteed.</p>

Each page must include the date of last revision. Each page should include an appropriate title. Standard web site management and page creation tools must be utilized. Additional technical standards may be obtained from the Office of Technology.

Guidelines for Monitoring Student or Staff use of Technology

Albemarle County Public Schools does not routinely monitor an individual's usage of the Division's technology resources. However, as stated in the Acceptable Use Policy (School Board policy IIBE), there is no guarantee of privacy granted to the user of these resources. The normal operation and maintenance of the Division's technical infrastructure and services requires that general usage and activity is monitored, data and electronic communications are routinely backed up, and programs or other devices are employed to maintain the functionality, integrity, or security of the network infrastructure.

Albemarle County Public Schools reserves the right to monitor any activity, communication, or file creation or storage that utilizes Division resources. An individual user's account or activity may be monitored, without notice, under specific conditions, including but not limited to the following:

- 1) The user has posted the material to the Division's web server.
- 2) Routine monitoring reveals excessive traffic (file downloads/uploads, e-mail generation, etc.) or violations of the Acceptable Use Policy (School Board policy IIBE) associated with a particular account.
- 3) It is determined that the activity associated with a particular account threatens the functionality or security of the Division's technical infrastructure.
- 4) There is a legal requirement to do so.
- 5) An employee's supervisor, or a student's principal or designee requests such monitoring to ensure compliance with the Acceptable Use Policy (School Board policy IIBE). All requests must be approved by the Executive Director of Administrative Services.

Monitoring of any individual user's account must conform to written procedures established by the Assistant Director, Office of Technology.
