

What Can I Create?

AN OUTDOOR STRETCH DAY ACTIVITY

(Adapted from a lesson developed by Nuhop Outdoor Education)

Do you want to build something beautiful in nature using the materials you can find your yard or local park? These are some things to consider:

- What type of materials can you find?
- How many textures can you find?
- What shapes can you make?
- Where will you build your work? On the ground? In a tree? In water?
- Will you experiment with balancing and building off of different shapes?
- How long will this work last? Will it fall down or blow away?

Here are some pictures to inspire you!

Next, watch the video directions from a teacher at Nuhop Outdoor Education:<https://youtu.be/XDAowaT6HR4>

Here is what she created:
