**Q4. What is the primary reason why you have not taken behind-the-wheel?**

Will do it soon. Have my permit.

I'm only 15 years old

I am in the process, taking drivers ed, have not decided if I will be taking behind the wheel with albemarle county or private company yet.

Was just too nervous and decided to wait another year.

Q5. What are the strengths of the driver education program?

Location

when you are done you take the drivers test and can immediately know that you have your license or not. you avoid the DMV and their long lines.

You learn how to drive and it's a way to get good at it

Well run, affordable

Good intructors.

it worked for the parents and the child. However my kid failed the written test twice delaying his license by a substantial period..

Helped me with driving

i liked my instructor

Taught me to be more alert, helped me get better at turning and recognizing signs.

It provided individualized instruction and strict adherence to road laws.

Teachers

The Albemarle driving range is very well-suited to the purpose needed of it, and the driving instructors are excellent. The location of it amidst the schools is incredibly convenient, and it is well set up.

Q6. What are some opportunities for improvement in the driver education program?

Increase availability

have more cars. teach how to manually drive (stick shift) as well as automatic.

More slots open at various times

Don't make it so hard to pass. . One wrong sign answer fail you? Gimme a break.

Have more behind the wheel time

The instructor that I had was rather rude and condescending.

Please make it easier to contact the instructor. We had to rely on messages passed to her and then wait for her to call u back. We would have liked to be able to contact her by email and then hear back within 24 hours.

Not working with people who know nothing if you know a lot more
