

MAGNIFICAT

TO: Parents/Guardians
FROM: School Health Clinic
DATE: May 20, 2020
SUBJECT: Meningococcal Vaccine

Dear Parents/Guardians,

Beginning with the 2016-2017 school year, the Ohio Department of Health School Immunization Requirements were revised to include two (2) doses of Meningococcal (MCV4) vaccine to be administered before a student enters the 12th grade.

The second (2nd) dose of MCV4 must be administered on or after the 16th birthday with at least eight (8) weeks between the first (1ST) and second (2nd) dose. If the first dose of MCV4 was administered on or after the 16th birthday, a second dose is not required. If a pupil is in the 12th grade and is 15 years of age or younger, only one (1) dose is required.

Therefore, your current 11th grader will need to show proof of having received the Meningococcal (MCV4) vaccine(s) before they can return to school in the fall of 2020. I am finding that most students are receiving this vaccine sometime in their JUNIOR year. If you daughter has received the second dose already PLEASE send the immunization record from your doctor to the Magnificat School Health clinic or have them fill in the bottom portion of this letter.

You are receiving this letter now to provide you with ample time to have your child immunized before senior year begins. Please contact your physician or health department to schedule an appointment.

Please provide the date that your child received the vaccine(s).

_____ Received Meningococcal (MCV4) vaccine
STUDENT FIRST & LAST NAME

on _____ and _____
DATE OF FIRST DOSE DATE OF SECOND DOSE (IF NECESSARY)
