

Hello First Grade Families,

We hope your family had a nice weekend! Thank you for encouraging your student to continue their learning at home.

If you feel there are too many first grade learning activities, please have your student choose the ones they are enjoying best. If it works for your family, try to have your student get in some reading (could be reading about science), writing & math daily. We truly appreciate all the support you are giving!

For this week, we included literacy, math, and science learning activities. Please know that the same presentation is posted in the Literacy, Math, and Other folders so you can go to one of those folders, click on *Daily Activities 5/26-5/29*, select a day, and the learning activities for all those subject areas will be in that presentation.

Your student can also use digital programs like Dreambox, RAZ kids, and MyOn!

Please let your student's teacher know (if you haven't already) if your student will return to Tiffany Park Elementary for the 2020-2021 school year, if you are moving or if you are undecided at this point, as we are beginning to plan for classes for the new school year.

If you want to share what your student is enjoying with activities and learning at home or have questions or comments, please contact us at:

denise.gomes@rentonschools.us, bryce.thompson@rentonschools.us,
courtney.harrel@rentonschools.us, kassandra.maloney@rentonschools.us

Have a great week!

Tiffany Park Elementary First Grade Teachers
