

2nd Grade Literacy Activities for the Week of May 25-29

In reading, we'll be discussing what to pay attention to in nonfiction books using the book *How and Why Do Animals Adapt?* by Bobbie Kalman. If you need more books to read try the [Abdo Digital Bookshelf](#) or [MyOn](#). In phonics, students will work on troublemaker words. In writing, students will work on revising.

On days where there is not a reading or writing lesson, we've suggested an amount of independent practice time that would be appropriate for most 2nd graders. Please adjust these to your child's learning needs.
