FY2002 - FY2012

[Bar chart showing enrollment numbers from FY2002 to FY2012]
Revenue Percentages FY2002-FY2012

- As a percentage, local revenues have increased over the last 10 years and state funding has decreased.
- State revenues 10 years ago were slightly less than 32% of the division's budget.
- State revenues in 2012 were less than 27.52% of the division's budget.
Revenue Percentages FY2002-FY2012

  - State: 2.216%
  - Federal: 70.270%
Percentage of Type of Expense Over Time (Actual Dollars)

- Overall the division has expended the same proportion of funds for staffing costs and other costs
Overall benefit costs have been increased due to rising health insurance costs.

While these costs are consuming a greater portion of overall expenses, the health costs have been significantly less than either the private sector has experienced or other public sector organizations.
Benefit Costs Over Time (Actual Dollars)

- 2002: 31.66% VRS/GLI, 31.62% HEALTH/DENTAL, 29.55% FICA, 3.82% EARLY RETIREMENT, 1.82% OTHER, 1.62% OTHER BENEFITS
- 2007: 37.23% VRS/GLI, 37.05% HEALTH/DENTAL, 20.69% FICA, 5.15% EARLY RETIREMENT, 1.88% OTHER, 1.82% OTHER BENEFITS
- 2012: 38.75% VRS/GLI, 29.51% HEALTH/DENTAL, 20.88% FICA, 8.72% EARLY RETIREMENT, 1.82% OTHER, 1.82% OTHER BENEFITS
Teacher Scale Across 10 Years  (Actual Dollars)

- This chart displays teacher salary scales (not individuals) across a 10 year period
- As an example, this indicates exactly what teachers were paid at step 0, 15, and 30 over 10 years
This chart displays teacher salary scales (not individuals) across a 10 year period in constant dollars.

Relative to the Consumer Price Index CPI prior to 2004 the pay at these points on teacher scales did not increase substantially.

Following 2004 and moving the benchmark from median to bottom of the top quartile, the scale has increased.

As an example, this indicates in constant 2012 dollars what teachers were paid at step 0, 15, and 30 over 10 years.
**Teacher Scale Across 10 Years**
*(Constant Dollars)*

*Based on Consumer Price Index Data from the U.S Department of Labor - Bureau of Labor Statistics*
This chart shows the actual increase in salary provided to a teacher with a bachelors degree. This chart shows annual increases associated with step and scale changes across 10 years.

In 1997, the division moved to a scale which compensated teachers for up to 30 years, a hold harmless scale was adopted temporarily for those teachers who may have been negatively impacted. This scale is not shown.

As an example, a teacher starting their career at T0 in 2002 was paid ~$30,855, 10 years later their salary is more than $49,000.
Individual Teacher Salary Across 10 Years
(Actual Dollars)
This chart uses the exact same data as the previous chart, however it adjusts dollars using the CPI. Relative to CPI, salaries have increased in real terms over the past 10 years.

In 2004 the competitive market was updated to the bottom of the top quartile vs. the median. This change resulted in coordinated efforts to increase teacher compensation since that period.

As an example, a teacher starting their career at T0 in 2002 was paid ~$39,500 in 2012 dollars, 10 years later their salary is more than $49,000 in 2012 dollars.

By Type of Expense

- This chart provides a breakout based upon the type of expense, regardless of department or location.

- Personnel expenses include salaries, part-time wages, substitute wages, stipends, overtime, and other direct payments for work performed. Benefits are also included in this grouping as well and is inclusive of FICA, Virginia Retirement System payments (VRS), health insurance, dental insurance, etc.

- Operational expenses include all materials and supplies necessary to operate the school division including fuel, materials for students and staff, payments for services to outside organizations, insurance, electricity, custodial supplies for cleaning & repairing facilities, payments for outside training of staff, etc.

- Capital expenses are for the purchase of materials that are typically not consumable such as computers, vehicles, copiers, furniture, machinery, etc.

- Transfers are a combination of payments to other internal organizations or payments to other internal funds within the County. These expenses include payments to local government for the Comprehensive Services Act (CSA), a 50% share of the expense for School Resource Officers (SRO), payments for social service workers in the schools (DSS), and payments for the Bright Stars program. Other transfers include payments to the bus replacement fund, the computer equipment replacement fund, and the new textbook replacement fund.

- The focus of the next slide will be upon the largest type of expense within the school division; the cost of personnel.

Overall compensation is composed of both personnel costs and benefits associated with employment.

Personnel expenses are composed of expenses incurred purely for payment of wages. These wages include payments for full-time positions, part-time positions, substitutes, stipends, overtime, etc. It does not include any payments for outside contractors, these expenses are grouped as operational expenses.

Benefit costs are typically associated with the hiring of staff or payment of wages in one form or another. As an example, a full-time employee may incur benefits costs of FICA, VRS, state group life insurance (GLI), health insurance, dental insurance, workers compensation insurance, and unemployment insurance.

This series of slides will focus on where the school division's personnel expenses are incurred.

- Of the total operation expenses expected to be incurred in the division, departments manage the largest portion. The school portion represents those funds under the specific control of the individual school and its staff.

- In the past significant operational funds are provided to schools from departments; however, in this budget the monies have been budgeted in the appropriate fund. An example of this is intervention/prevention funds, these are provided to schools based upon student need and are spent in direct support of the students by the schools.

- Many departments have operational funds that are paid for external services on a cost effective basis. An example of this is PREP, with over $3M being paid for these regional services

- The next slide will focus solely upon the operational funds of departments, not schools
