BET: Mike Mason

BOE Administration:

Toni Jones, Superintendent
Dan Watson, Director of Facilities
Ralph Mayo, GHS Headmaster
Tom Bobkowski, Director of Security

Architect: David Stein

Call to Order – 5:00 pm

1. GHS Entry Rendering

Final review of Educational Specification before going to BOE for approval. As a whole, the group was pleased with the rendering and additions made by the architect.

Discussion centered on the pole behind the safety desk, and if the desk may be shifted slightly. The answer was "yes" and that during design those details could be worked out.

The safety and security aspect was discussed in relation to placement of cameras and other electronic equipment.

The design to separate the foyer from the visitor entry with a clear panel added separation between students and visitors, and was seen as a positive addition to the rendering.

Overall, the committee was positive about the Educational Specification going to the BOE for approval.

3. Adjournment

Meeting ended at 5:45 pm

Respectfully submitted,
Dr. Toni Jones
