

VOCATIONAL AND CAREER EDUCATION

This is a general activity. Please make sure you are checking your BPS e-mail and Microsoft TEAMS for updates from your teachers. They will be sending you other activities that are specifically designed for your class.

Brockton High School is extremely fortunate to offer FREE OSHA Training for all students enrolled in one or more Vocational and Career Education courses at Brockton High School. One of the most valuable career and employment ready credentials you can obtain while in high school is a widely-recognized OSHA Certification. BHS wants to make sure you have the opportunity to obtain these certifications while participating in Distance Learning this Term. It is a self-paced, 10-hour online course. Upon satisfactory completion of this training, you will be eligible to receive an OSHA Certification in that training area. A wallet size completion card issued by OSHA will help you demonstrate your accomplishment. This card is highly valued by all employers.

We have three courses available – Interviewing Skills, StartSafe StaySafe Workplace, and Cyber Safety Awareness. Click on the links below to learn more about each course.
