

# Graduation Update

May 22, 2020

This afternoon we were excited to hear Los Angeles County Supervisor Kathryn Barger announce the easing of some restrictions related to the celebration of our graduates. The press release can be found [HERE](#).

While the lessening of these restrictions is not to the extent needed to host a traditional graduation ceremony, our school leadership teams are now working diligently to plan car parades to honor our graduates. You will receive information related to your school's plans in the coming week.

Our commitment to host traditional graduation ceremonies has not changed with this latest update. We will continue to monitor the ever-changing nature of this health crisis and communicate with you as information becomes available. As previously shared, we will give reasonable advance notice of the scheduled ceremony.
