SMART tag

The **SMART** choice
in Secured Student Transportation

The safety and security of your children riding on a school bus is the highest priority.

SMART tag
provides valuable information
to Drivers, Administrators, and Parents
through Cloud Connected Technology.

Driver App   Admin Portal   Campus Portal   Parent Portal

SMART tag enables school districts and parents to know when and where students get on and off school buses.

Features of **SMART tag's**
Driver App on the school bus

- Student Management helps ensure
  - Students get on the right bus
  - Students get off at the correct stop
  - Students do not get left on the bus
- Live GPS location of the buses
- Electronic safety inspection reporting
- Electronic communications

Before driving off the Transportation Department lot in the morning, every school bus is inspected

When the bus arrives to pick up your child, he or she will use their SMART Tag ID to load, or drivers can manually load them, on the tablet computer.

SMART tag constantly displays how many students are on the bus and how many students are getting off at each stop.

Also, it shows whether the student is boarding the right bus or the wrong bus.
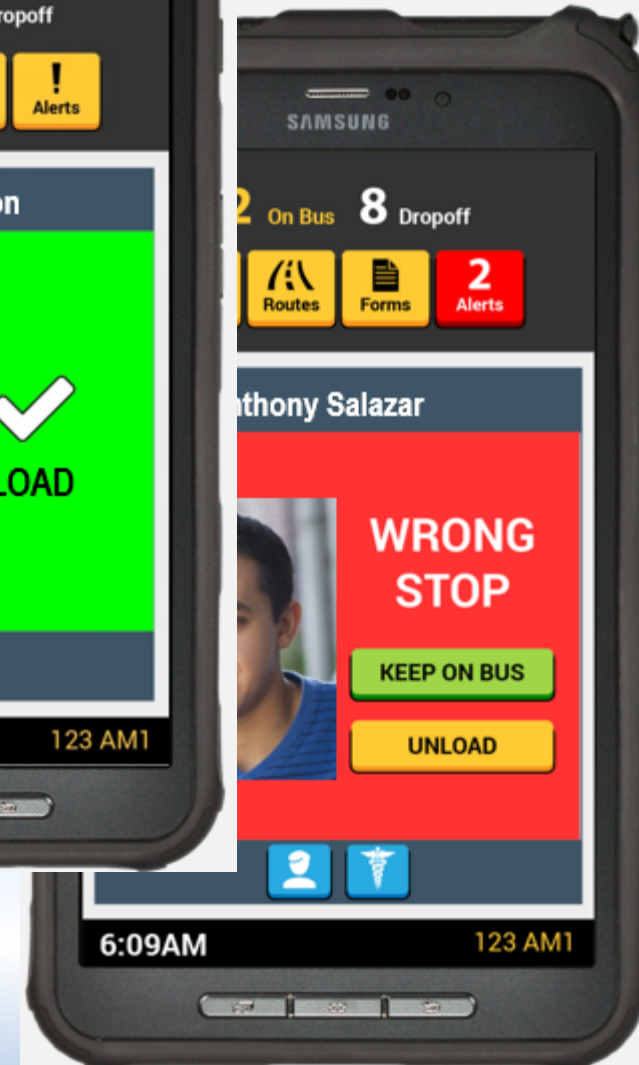

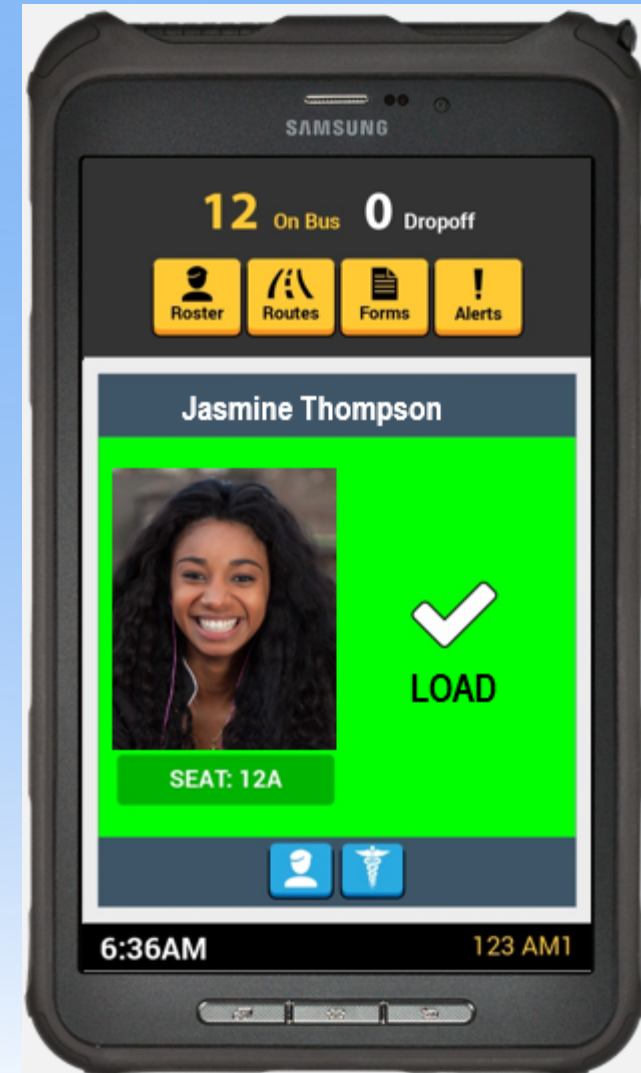

When students arrive at home or their drop off in the afternoon, **SMART tag's** Parent/Guardian Release feature ensures students are released to authorized parents or guardians.
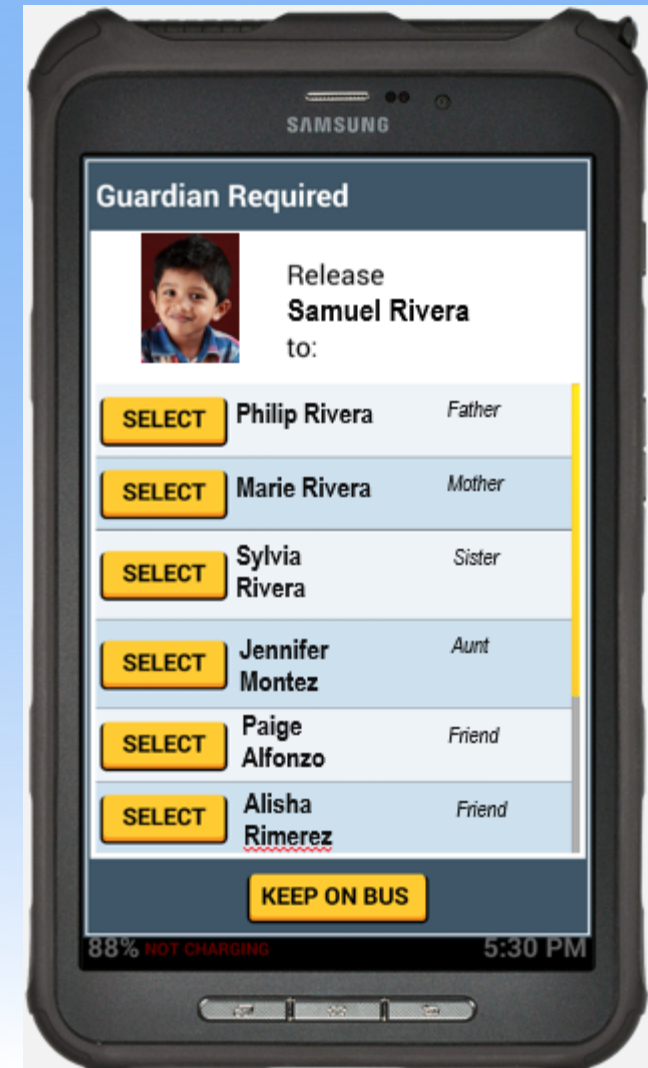

SMART tag also allows drivers to send an emergency email by simply tapping on a button

The Emergency email provides recipients with:

- The type of emergency
- The bus number
- Two maps showing the location of the bus
- An Activity Link to the buses current activity

Subject: Emergency Alert - Fight (Bus #710)

Activity Link
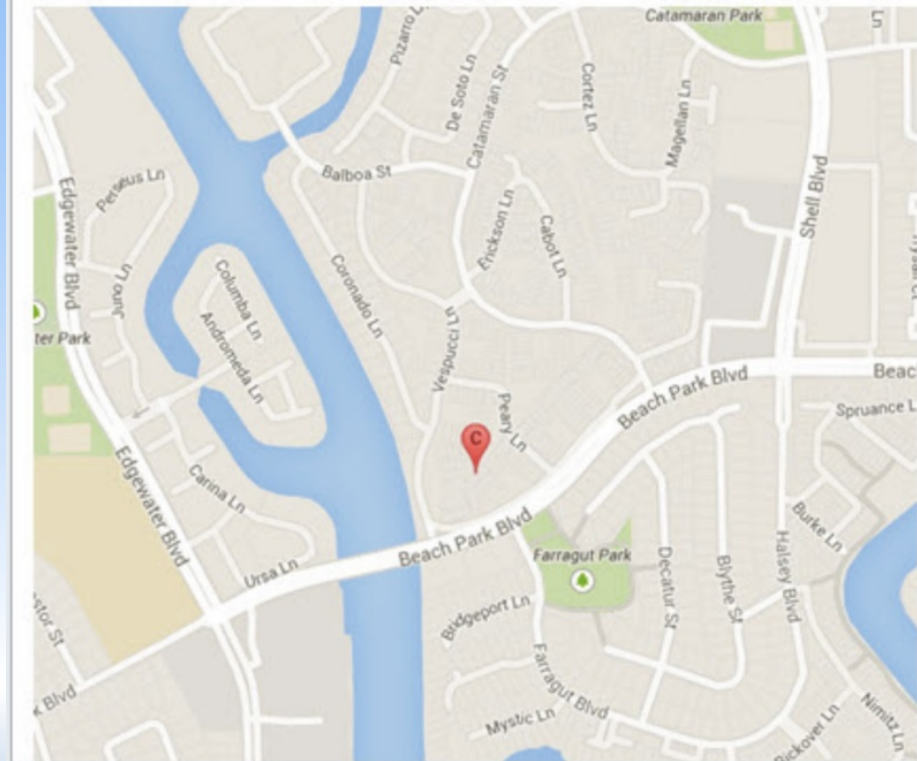

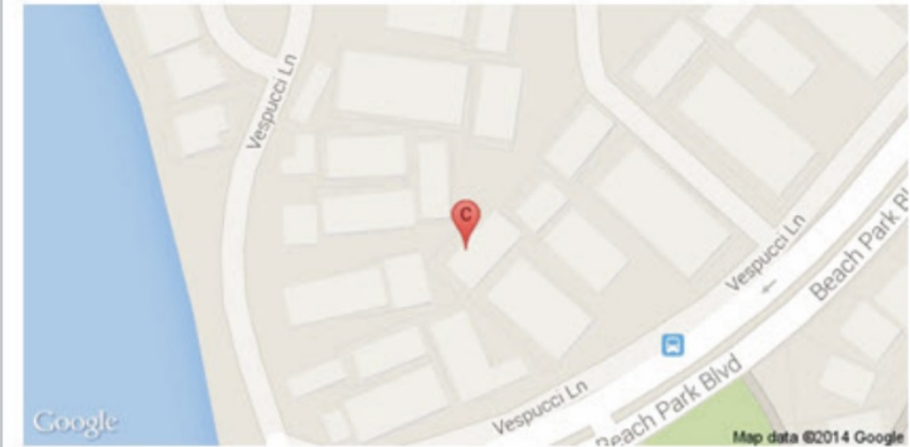

Here are a couple of the features of **SMART tag's** Parent Portal

Login to **SMART tag's** Parent Portal

parent.smart-tag.net
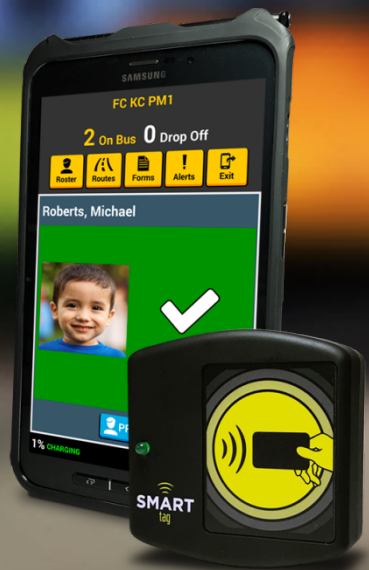

Signing up on **SMART tag's** Parent Portal is safe and easy.

Parents need the following to register

- Campus
- Student ID #
- DOB

Parent Portal Student Search

SMART Alert Contact Information

Registration Complete

Parents can also sign up for **SMART Alert** to receive a text message with an approximate time that their child will arrive in the afternoon.

SMART Alerts

Parents can quickly see their child's riding history for the last seven days or choose any date for the current school year.

If visiting from a smartphone/mobile device, select the 'Add to Home Screen' option to create a shortcut on your mobile device.
