

COVID-19: SAFETY RULES

1. A two-meter area needs to be maintained between each person, unless a barrier is in use.

2. Occupancy limits posted outside facilities must be followed. No parents are permitted in the building.

3. In common areas, such as hallways and stairs, people must walk on the right and follow one-way flow signage, including use of indicated entrance and exit doors. Doors within the school will be left open as much as possible.

4. Meals will be eaten in classrooms. Break, arrival, and departure times will be staggered to reduce physical interaction.

5. Staff or students who are unwell must remain at home. If any staff or student fall ill while at school, they will be isolated, given a mask, and sent home immediately.

6. Students will work individually or in small groups physically, and will be kept in the same room with the same student group as much as possible.

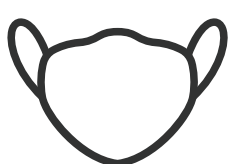

7. All students and staff need to complete an initial health report before their return to campus. Daily checks will be conducted on a verbal basis by their teachers or administrators.

8. Staff and students will be required to wash hands as frequently as possible, and at a minimum upon arrival and prior to leaving school, before eating, after using the toilet, after sneezing or coughing, whenever hands are physically dirty, and when moving between different learning environments.

9. Students are required to remain on-campus during breaks and lunch, and staff are encouraged to do so as well.

10. While masks are not required unless a person falls ill, students may wear one while on campus. Their use must not be stigmatized.

11. Private transportation to and from school is encouraged as much as possible.
