Formal Transmittal of the Comprehensive Annual Financial Report (CAFR)

To the Citizens and Board of Trustees of the Carrollton-Farmers Branch Independent School District:

The CAFR of the Carrollton-Farmers Branch Independent School District (the District) for the fiscal year ended August 31, 2008, is hereby submitted. The report includes the unqualified opinion of our independent auditors, Hankins, Eastup, Deaton, Tonn & Seay, P.C. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report includes all funds of the District. The CAFR for the year ended August 31, 2008, is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued in June 1999. The CAFR also adheres to guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA) and the Association of School Business Officials International (ASBO).

The CAFR is presented in four sections: Introductory, Financial, Statistical and Federal Awards Section. The Introductory Section includes this transmittal letter, the District's organizational chart and a list of principal officers. The Financial Section includes the basic financial statements and the combining and individual fund financial statements and schedules, as well as the auditor's report on the financial statements and schedules and Management Discussion and Analysis (MD&A). The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with provisions of the Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Information related to this single audit, including the supplemental schedule of expenditures of federal awards, findings and questioned costs, and the independent auditors' reports on internal control and compliance with applicable laws and regulations, is included in the Federal Awards Section of this report.

Generally Accepted Accounting Principles (GAAP) also requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). MD&A is intended to give the reader an easy-to-understand overview of the school district's financial position and results of operations for the year. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

The remainder of this transmittal highlights the governance structure, the mission, the accomplishments and initiatives, the economic conditions and outlook, and the financial activities of the District.

Copies of this report will be provided to the city libraries, Moody's Investment Service, Fitch Investor Service, Standard and Poors and any other interested parties.

Profile of the District

GENERAL EDUCATION

As its mission states, together with families and community we commit all district resources to guide the learning of each student to graduate as: a responsible individual; a passionate life-long learner; a complex thinker; and effective communicator. Based on the philosophy that every child can learn, the District provides educational opportunities for students regardless of their needs and their abilities.

Towards that end, the District provides a fully comprehensive instructional program in grades K-12 with an expanding pre-kindergarten program. The District is committed to quality learning environments for all students offering a diversified curriculum that advocates the tailoring of instruction to individual student needs.

The Carrollton-Farmers Branch Independent School District embraces character values and ethics as fundamental to both educating and equipping our students to be productive, contributing members of society.

In addition to the regular curriculum, the District provides a comprehensive Career and Technology Education (CTE) program, including seven main areas: Agriculture Science and Technology Education, Health Occupations Education, Marketing and Business Education, Trade and Industrial Education, Family and Consumer Science Education, Technology Education and Technology Applications. In addition to numerous CTE courses, CFB ISD offers five Academies. They offer a concentrated four-year curriculum in the areas of 1) biomedical professions, 2) international business, 3) law and criminal justice, 4) math, engineering, science and technology, and 5) media arts and technology. Students participate in field trips, earn dual credit for college, receive certification in certain areas, and are placed in internships, clinical rotations, and co-operative education training placements in businesses related to their career interest. Students apply during their 8th grade year and are selected according to the criteria of grades, attendance records, TAKS scores, essays and teacher recommendations. Approximately fifty percent of students in grades 9-12 are enrolled in one or more CTE courses.

The fine arts program includes drama, speech, debate, choir, band, orchestra, theatre, elementary music, elementary art, secondary art, dance, and drill team. Over 22,000 students are involved district-wide in the fine arts program at various levels.

The Carrollton-Farmers Branch Independent School District demonstrates its commitment to educational excellence through the comprehensive programs developed for gifted and talented students in kindergarten through twelfth grade. Having a child-centered education program as its primary goal, the Carrollton-Farmers Branch ISD offers a two-tiered multifaceted program. These services are offered through the Academic Creative Education (ACE) program and the Leading Exceptional Academic Producers (LEAP) program. The structure of the District's programs form an inverted pyramid model beginning as a broad base designed to discover and nurture the intellectual talents of the young child and gradually move into specific specialized course offerings. Classroom teachers who work with gifted students are required to receive at least thirty hours of gifted education training.

Bus transportation is available to those children who live more than two miles from the school that they would normally attend. Additionally, students who attend more than one school to participate in career and technology or bilingual programs receive transportation between schools during school hours. Special education students are eligible for transportation services when need is established.

DESCRIPTION OF THE ENTITY

The Carrollton-Farmers Branch ISD is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven-member Board of Trustees elected to staggered three-year terms by the District's residents autonomously governs the District. The Carrollton-Farmers Branch ISD Board of Education ("Board") is the level of government, which has oversight responsibility and control over all activities related to public school education within the District. The District receives funding from local, state and federal government sources and must comply with all the requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined in generally accepted accounting principles. The public elects board members who have decision-making authority, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The Texas Education Agency and Southern Association of Colleges and Schools provide the District's K-12 education accreditation. Enrollment in the District's 4 high, 6 middle, and 27 elementary, and alternative or special program centers is estimated to be 26,397 for the 2007-2008 budget year.

The District encompasses 53.42 square miles in northwest Dallas County with a smaller portion in southeast Denton County. The District provides instructional services to children who live in portions of Carrollton, Farmers Branch, Addison, Coppell, Dallas and Irving. Demographic information for the largest of these cities is included below.

The District offers a comprehensive instructional program from pre-kindergarten through grade 12. The Texas Education Agency accredits all schools in the District. Along with the regular curriculum, the District offers programs for gifted and talented students, advanced placement courses, career and technology education, services for children with disabilities from birth through 22 years of age, and bilingual education programs. The District has one of the leading technology programs in the state. All campuses are connected to a wide-area network and have direct Internet access. The broad range of elective courses and extracurricular activities includes athletics, fine arts, internship work experience, and special-interest activities. Other programs include drug awareness, research skills, environmental topics, and advanced technology and after-school enrichment. During the summer, students participate in a variety of summer recreation programs and summer school academic and enrichment courses. A large community education program provides academic and enrichment opportunities of adults and youngsters.

The District has an extensive Internet website with individual home pages for all departments and campuses. At www.cfbisd.edu families can locate a wealth of information, including a school locator package that identifies the schools which serve residential addresses.

FINANCIAL POLICIES

Internal Controls — The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

Budgetary Controls In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board of Trustees. Every school district in Texas is required, by law, to prepare and file a budget with the Texas Education Agency. Activities of the General Fund, Food Service Fund, and Debt Service Fund are included in the District's formally adopted budget. Budgets for Special Revenue funds (other than the Food Service Fund) and the Capital Projects Fund are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the functional category level within each fund. These functional categories are defined by the Texas Education Agency and identify the purpose of transactions. A listing of these categories as well as related financial information is included. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end. However, encumbrances generally are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues meeting its responsibility for sound financial management. As with the financial section and the Management's Discussion and Analysis information, all amounts presented in this document are rounded dollar amounts.

Risk Management The District continues to protect its assets through a comprehensive insurance program. The District provides basic medical and makes available optional dental for all full-time employees. Employees may purchase dependent coverage and/or enhanced individual coverage. The medical coverage is via a self-funded program provided by the District and accounted for as an internal service fund.

District contributions for employees are expenditures in the fund where the payroll expenditures are charged. These contributions, as well as employee contributions for dependents and enhanced coverage, are revenues in the Internal Service Fund. Internal Service Fund balances are generally eliminated for purposes of the government-wide financial statement presentation to prevent duplication of related flow of dollars to and from the various funds. Claims paid and miscellaneous operating costs are expenses of the Fund.

Health Insurance contribution rates to the plan are reviewed annually and actuarially adjusted as appropriate to health and administrative costs.

The District became self-funded for workers' compensation as of September 1, 1993. As with the Health Fund, the District closely reviews the contribution rates to ensure adequate provisions are made to the fund. The total charge made by the Workers' Compensation Fund to the General Fund is based on an actuarial method and will be adjusted over time so that the revenues and expenses are approximately equal. These costs are reported as inter-fund transactions and are treated as operating revenues in the Internal Service Fund and as operating expenditures of the General Fund. Claims paid and operating costs are expenses of this Fund. Again, Internal Service Fund balances are generally eliminated for purposes of the government-wide financial statement presentation to prevent duplication of related flow of dollars to and from the various funds.

The liabilities associated with these funds include incurred but not reported claims. The liabilities reported in this financial report are based on the requirements of Governmental Accounting Standards Board Statement Number 10.

Cash Management Cash temporarily idle during the year was invested in fully insured or secured certificates of deposit, agencies, and in the State Treasury Investment Pool (Tex-Pool). The District recognizes that it forgoes a certain amount of yield by operating with such a conservative investment philosophy. Although changes in Texas law allow investments in a broader range of investment vehicles, the District has determined that safety and simplicity outweigh the benefits of alternative investments. Collateral on secured investments is held by third parties with most being held by the Federal Reserve Bank of Dallas.

INDEPENDENT AUDIT

The Texas Education Code requires an annual audit of all public schools. This audit must be on an organization-wide basis and include all fund types and account groups that are the accounting responsibility of the District. The audit is performed by an independent certified public accountant firm selected by the District's Board of Trustees. The auditor's report has been included in this report.

ORGANIZATION OF THE DISTRICT

The Board of Trustees of the Carrollton-Farmers Branch ISD (the Board) is a seven-member body. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general compliance laws and rules applicable to the District are followed in the expenditure of the District's funds, and approves the annual budget resolution and tax adoption.

MAJOR INIATIVES

Capital Projects Since 1990, in four separate elections, the voters of the Carrollton-Farmers Branch Independent School District have authorized over \$600 million in general obligation bonds. The most

recent election in 2003 was for \$300.165 million alone and passed by more than 78 percent of the votes. The District has already sold \$229.3 million of the bonds. The remaining bonds will be sold and the projects completed over the next three to five years.

Our citizens have always put the education of children first because there is a realization that children are the leaders of tomorrow. With the exploding usage of technology, vast growth in student enrollment and the need to update aging facilities, all previous bond referendums in the District have been approved by the citizens who reside within the District boundaries.

In addition to new construction, there are major renovation projects ongoing within the District. The technology initiatives include improvements to the network infrastructure, computer hardware and software. The District completed a fiber optic network to provide connectivity for over 1,600 computers. The focus of this initiative is to integrate technology into the learning environment through technology rich classrooms. The District has established a baseline ratio of one computer for every three students at the elementary level, one to two and one half students at the middle schools and one computer for every two students in each of our high schools. All classroom teachers have a computer workstation complete with Internet access.

Curriculum and Instruction The Curriculum and Instruction division of CFB ISD has two anchors that guide the instructional work for the district: the six components of a Standards Based Instructional System and the Principles of Learning, Teaching, and Curriculum. The six components of a Standards Based Instructional System include the following: clear, high standards; fair assessments; curriculum framework; instructional materials, aligned instruction, and safety nets.

The principles of learning include the following.

- Effort produces achievement.
- Learning is about making connections.
- We learn with and through others.
- Learning takes time.
- Motivation matters.

The principles of teaching include the following.

- The teacher matters.
- Focused teaching promotes accelerated learning.
- Clear expectations and continuous feedback activate learning.
- Good teaching builds on students' strengths and respects individuals' differences.
- Good teaching involves modeling what students should learn.

The principles of curriculum include the following.

- The curriculum should focus on powerful knowledge.
- All students should experience a "Thinking Curriculum."
- The best results come from having an aligned instructional system.

These components are aligned with the action strategies in the Campus Improvement Plans and the District Improvement Plan. Professional development opportunities on researched based best practices are ongoing and include instructional coaching, readers'/writers' workshop model classroom observation, SMART Goals, Content Literacy, Marzano's nine strategies, etc.

The work with Content Literacy emphasizes strategies to assist students in becoming independent learners. The Community of Learners' work continues to be spearheaded by curriculum coordinators working with cadres of master teachers to assist teachers in interpreting and teaching the Texas Essential Knowledge and Skills, the state's educational standards.

Information Useful in Assessing the District's Economic Condition

ECONOMIC CONDITIONS AND OUTLOOK

Carrollton-Farmers Branch Independent School District is located in north central Texas on the northern edge of Dallas. The District overlaps a small area of the City of Dallas, and includes most of the City of Carrollton and about 70 percent of the City of Farmers Branch as well as portions of the Cities of Irving, Addison and Coppell.

<u>MONEY</u> magazine has named Carrollton, Texas as one of the Best Place's to Live in America (August 2008). Carrollton was ranked #15. The local economy remains vibrant and strong, despite recent downturns. The diversity of the businesses located here and the range of housing available combined with the transportation grid and proximity to Dallas-Fort Worth and Alliance airports provide a degree of protection from the economic cycles that is not available to most school districts.

The Dallas-Fort Worth area is an important center of trade, finance and other major services. It is also a critical point in the national transportation complex. The District is located in a primary warehousing and distribution center area. Due in part to the transportation infrastructure, cost of doing business and workplace, the Metroplex draws many new corporations and individuals to the area each year. Major businesses, such as Exxon-Mobil, have moved their corporate headquarters here. In addition the area attracts a vast array of high tech e-commerce and telecommunications businesses such as Verizon, AT&T, Trinet, Wal-Mart/Sam's and Boeing.

Dallas is a leader in high tech equipment manufacturing and support services. Dallas is among the largest technology employment centers in the U. S. The Dallas/Fort Worth area has 271,000 high-tech workers.

Biotechnology applies technological advances to living things, and the University of Texas Southwestern Medical Center of Dallas recently teamed up with the Dallas Plan to create a "biotech corridor" along Harry Hines Blvd. in Dallas. The project has already received \$82.7 million in grants from the National Institute of Health, and that is estimated to be enough money to create the first six biotechnology firms which will concentrate in molecular biology, genetic research, and a number of other biotech fields.

The City of Dallas is the third largest city in Texas and the ninth largest city in the United States. Dallas is the home to the regional office of the U. S. Department of Commerce, the District office of the U. S. Customs Service and a regional U. S. Export Assistance Center. Dallas/Fort Worth has more than 160 international organizations that offer business, cultural and educational programming.

Dallas is a major hub for air and ground transportation. Dallas' central U. S. location is equally close to North America's five largest business centers: New York, Chicago, Los Angeles, Mexico City and Toronto. Dallas/Fort Worth (DFW) International Airport is the world's third busiest airport.

The Dallas/Fort Worth Consolidated Metropolitan Statistical Area (the Metroplex) is becoming one of the nation's major medical centers. Over 50 hospitals are located in the Metroplex. There are two major educational and research institutions and ten nursing schools located in Dallas. Numerous major hospitals are in the City of Dallas with over 12,500 beds and over 5,500 physicians, practicing a total of 72 specialties.

The District's largest taxpayer is only 1.28% of the taxable value of the District. This lack of dependence on a single employer or business segment means that the loss of even a large business will not have a significant negative impact on the education of children, or imperil the future payment of obligations.

The location of the District along Interstate 35, Interstate 635, Bush Tollway and the Dallas North Tollway together with its proximity to the Dallas-Fort Worth International Airport (approximately eight miles from the District), has provided a major impetus for growth. The upgrading of the road system within the

metroplex continues to be a plus for the District. A combination of interstate highways, state highways, and toll roads insures that residents can easily commute to jobs anywhere in the metroplex and serves as a magnet for the location of new businesses coming into the area.

The Valwood Improvement Authority was created in 1974 as the Farmers Branch-Carrollton Flood Control District, thus extending the development of industrial land along the Trinity River flood plain as the largest planned industrial/business park in Dallas County. Wholly contained within the Cities of Carrollton and Farmers Branch, the Authority has major freeway access, rail and motor line services.

Valley Ranch, a mixed-use development of 2,400 acres, is located south of Beltline Road and north of the LBJ Freeway and is the home of the Dallas Cowboys. Approximately 1,800 acres of the development are located within the District and approximately 1,200 of those acres are devoted to residential property.

Las Colinas, a mixed-use development of some 12,000 acres, lies immediately east of the Dallas-Fort Worth International Airport. This master-planned community contains quality residential areas, business parks, shopping centers, green-belt areas, several country clubs, an equestrian center, office parks, luxury hotels, a complete recording and sound studio for motion picture production, hospital facilities, and a community college. Some 4,300 acres of Las Colinas lie within the District.

La Villita, a unique community in Las Colinas, has moved off the drawing board and into the early stages of construction. Construction has begun on the first phase of the 200 acre site. The project will contain multifamily, small office buildings, single-family and town home development. The project will include 300 single-family homes and up to 2,000 apartments, town homes and live/work units. Retail, restaurants and service-oriented businesses will follow the residential growth. La Villita's master plan also calls for office development, which is envisioned as professional offices and small build-to-suites. The District opened an elementary school in La Villita in 2008 and has secured a site for a middle school. La Villita's site is rich in water features, particularly the 30 acre Lake Royal and its two canals. Small parks and plazas will be scattered throughout the community, giving residents places to gather. There will also be a system of hiking and biking trails, both paved and natural-surface along the Elm Fork of the Trinity River.

A major redevelopment project was initiated in Addison in 2007 where 2,400 older apartments are being torn down. This 99 acre project will replace those apartments with a complete new urban environment and will be known as Vitruvian Park. This development will include a 12 acre waterfront park with open spaces, an amphitheater, a neighborhood park, 500,000 sq. ft. of office space, 6,000 housing units and retail businesses. This project will take 6 to 10 years to complete.

HIGHER EDUCATION

Several major universities and colleges are located within a 40-mile radius of the District. Among these universities are:

SERVICE EFFORTS AND ACCOMPLISHMENTS

Accountability Ratings

In August, 2008, the Texas Education Agency announced individual school ratings based on student performance on the most recent Texas Assessment of Knowledge and Skills (TAKS) tests, and the previous year's dropout and attendance rates. The state's accountability ratings for schools and districts are based on scores of all students and each student group of qualified size (African-American, Hispanic, White and Economically Disadvantaged) with the following indicators:

Requirements for Each Ratings Category

Base Indicators	Academically Ac	ceptable	Recognized	Exemplary
Spring 2008 TAKS	Meet passing stand	lard for	Meet 75% passing	Meet 90% passing
All students and each	each subject		standard for each	standard for each

	Tom Landry Elementary
	McCoy Elementary
	Neil Ray McLaughlin Elementary
	Kathryn S. McWhorter Elementary
	L.P. Montgomery Elementary
	Riverchase Elementary

The District will continue to tighten the structure of the curriculum—making sure that all teachers follow the same curriculum from school to school, as well as aligning the curriculum vertically from grade level to grade level. Vertical alignment means that teachers from different grades work together to ensure there are not gaps in instruction from, for example, grade one to grade two in math.

The District hopes that these changes, as well as increased assessment and monitoring and special programs will put C-FB on the road to exemplary status.

Texas Assessment of Knowledge and Skills (TAKS)

The Texas Assessment of Knowledge and Skills (TAKS) assess student mastery of the Texas Essential Knowledge and Skills (TEKS) in English/Language Arts, Mathematics, Social Studies, and Science. Students must demonstrate mastery on each section of the EXIT-Level examination to be eligible for a high school diploma. Students in grades 3 - 11 take the TAKS test annually.

The Results are Summed Across all Grades

The United States Department of Education has named eight of the District's schools as national Blue Ribbon Schools of Excellence, the highest distinction that a school can earn. Campuses complete a rigorous nomination process, including an extensive state review and a national review as well as on-site visitations.

Scholastic Achievement Test (SAT)

The SAT is administered by the College Board and is designed to measure the verbal and math aptitudes of high school students. The SAT takers are self-selected; that is, any student may opt to take the exam. The Campus Mean Scores for 2008 are listed in the chart below.

SAT Results for 2008						
Mean Scores						
<u>Campus</u>	Count	Percent	Critical <u>Reading</u>	Math	Writing	Combined

- For the seventh consecutive year, the District received funds from the Texas Workforce Commission to enhance tutoring at 15 elementary and middle schools in Dallas County. The District was awarded \$250,500 to provide additional learning opportunities for its students.
- The 2007-08 Budget Document, produced by the Finance Department, received two awards: the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) of the United States and Canada and the Meritorious Budget Award for excellence from the Association of School Business Officials (ASBO) International.

OTHER INFORMATION

Awards The District has been awarded the Certificate of Excellence in Financial Reporting by the Association of School Business Officials (ASBO) for thirty-one consecutive years. This award is for school districts whose comprehensive annual financial reports substantially conform to the recommended principles and standards of financial reporting adopted by that organization. We believe that our current report continues to conform to the Certificate of Excellence Program requirements, and we will again submit it to ASBO for review.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the year ended August 31, 2007. The District has achieved this prestigious award thirty consecutive years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we will submit it to the GFOA to determine its eligibility for another certificate.

In 1999, the 76th Texas Legislature approved legislation requiring the commissioner of education in consultation with the comptroller of public accounts to develop a rating system for school district financial accountability. The 77th Texas Legislature in 2001 subsequently adopted rules for the implementation and administration of the financial accountability rating system known as School FIRST, Financial Integrity Rating System of Texas. The financial accountability rating system benefits the public by having in place a system to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial management practices and achieve improved performance in the management of their financial resources. The Carrollton-Farmers Branch Independent School District has received a Superior Achievement rating since the implementation of the rating system in the 2002-03 fiscal year.

Carrollton-Farmers Branch Independent School District was a 2007-08 Texas Education Agency (TEA) Recognized District under the state's Accountability System. Only 287 of the 1,031 public schools districts in Texas earned a Recognized Rating, which is only 27.8 percent of the school districts in Texas.

Twenty-two of the District's campuses earned either an Exemplary or Recognized Rating through the state's Accountability System. Sixty-three percent of Carrollton-Farmers Branch schools are either Exemplary or Recognized while on the state level only fifty-four percent are Exemplary or Recognized.

The District received national recognition from the Integrated Pest Management Program for IPM Institute of North America.

The Carrollton-Farmers Branch ISD was named one of the 100 The Best Communities for Music Education through a nationwide survey sponsored by the National Association of Music Merchants (NAMM) Foundation, its American Music Conference (AMC) division and a partnership of leading national associations working to promote the benefits of active participation in music and music education. It is the third time that C-FB ISD made the list.

The R.L. Turner and DeWitt Perry Robotics teams competed in the International Botball Competition, which is held in conjunction with the National Conference on Educational Robotics. The DeWitt Perry team was ranked as the top middle school team at the conference and competed against high schools, college prep schools, vocational and technical schools and charter and magnet schools.

Acknowledgments The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the business office and tax office. Special thanks to Sara Gambrell, CTSBO-Director of Accounting; Stephanie Murphy, Accountant; Vicki Pippin, CPA-Accountant; Marcia Harbour, CTSBO-Special Revenue Funds Accountant; and Scott Roderick, CPA-Director of Financial Reporting; for their assistance in the preparation of this document. In addition, thanks to the Board of Trustees for their continued commitment to the students and staff of the District and for their excellent leadership.

Independent Auditor's Report

Board of Trustees Carrollton-Farmers Branch Independent School District Carrollton, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Carrollton-Farmers Branch Independent School District (the District), as of and for the year ended August 31, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2008, and the respective changes in financial position and the cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2008, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 5 through 16 and 59 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the District. The other supplementary information, excluding the Fund Balance and Cash Flow Calculation Worksheet — General Fund (Exhibit J-3) which is marked unaudited and on which we express no opinion, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

December 16 2008

This section of Carrollton-Farmers Branch Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2008. Please read it in conjunction with the District's transmittal letter at the front of this report and the financial statements, which follow this section beginning on page 19.

FINANCIAL HIGHLIGHTS

- The District's total combined net assets as presented on the government-wide Statement of Net Assets exceeded liabilities by \$146.5 million. The net assets of the District increased by \$11.5 million during the year ended August 31, 2008.
- The District's governmental funds financial statements reported combined ending fund balance of \$147.3 million. Of this amount, \$2.4 million is reserved in the General Fund and \$60.1 million is unreserved in the General Fund and is available for spending at the District's discretion. Fund balance of \$84.8 million is for use by the Debt Service Fund, Capital Projects Funds and Non-Major Funds.
- The District held a successful bond election to authorized \$300.165 million in general obligation bonds on October 25, 2003. The fifth bond sale related to this authorization took place on May 8, 2008 when the District issued \$30 million (par value) in new debt and \$28.5 million (par value) in Refunding Bonds. \$70.9 million of authorized debt remains unissued.
- Seven major construction projects were essentially completed this year and two new major projects started. Construction related to this bond program will continue through 2010. Technology projects will continue throughout the program.
- The general fund reported a fund balance this year of \$62.5 million, which is a decrease of \$2.5 million from the prior year fund balance of \$65.0 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and short-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
 - o The *governmental funds* statements tell how *general government* services were financed in the short term as well as what remains for future spending.
 - Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as selfinsurance.
 - o *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources shown belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. The federal

financial assistance (federal awards) section includes the schedule of expenditures of federal awards, the independent auditor's reports on internal control and compliance and other related reports and schedules. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-1. Required Components of the District's Annual Financial Report

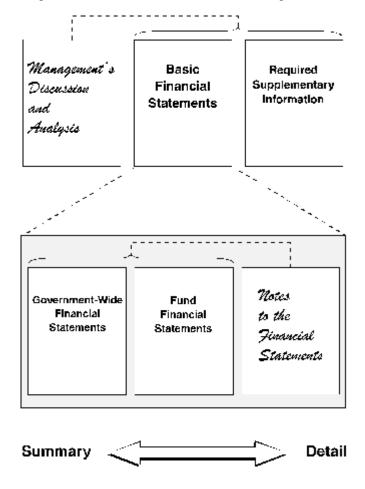

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2. Major Features of the District's Government-wide and Fund Financial Statements

Fund Statements Governmental Funds Type of Statement Government-wide **Proprietary Funds** Fiduciary Funds Entire Agency's government The activities of the district Activities the District Instances in which the (except fiduciary funds) that are not proprietary or operates similar to private district is the trustee or Scopeand the Agency's component fiduciary business: self insurance agent for someone else's esources * Statement of net assets * Statement of fiduciary Balance sheet Statement of net assets Required financial assets and liabilities statements Statement of activities Statement of revenues, Statement of revenues, expenditures & changes expenses and changes in n fund balances fund net assets Modified accrual Accounting basis Accrual accounting and Accrual accounting and Accrual accounting and and measurement economic resources focus accounting and current economic resources focus economic resources focus financial resources focus focus All assets and liabilities, All assets and liabilities, All assets and liabilities Only assets expected to both financial and capital, be used up and liabilities Type of both financial and capital, both short-term and longasset/liability short-term and long-term that come due during the and short-term and longterm; the Agency's funds do information year or soon thereafter, term not currently contain no capital assets included capital assets, although they can All revenues and Revenues for which cash All revenues and expenses during year, regardless of expenses during year, is received during or soon regardless of when cash after the end of the year, when cash is received or is received or paid expenditures when goods paid or services have been received and payment is due during the year or

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

soon thereafter

The two government-wide statements report the District's net assets and how they have changed. Net assets (the difference between the District's assets and liabilities) are one-way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the category: *Governmental activities*-Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities. Also included are business-type activities which include the District's after-school program.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*-not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has three kinds of funds:

- Governmental funds-Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information (reconciliations), that explain the relationship (or differences) between them.
- *Proprietary funds*-Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both longand short-term financial information.
 - We use *internal service funds* to report activities that provide supplies and services for the District's other programs and activities-such as the District's Self-Insurance Fund.
- *Fiduciary funds*-The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets. As noted earlier, net assets may serve over time as a useful indicator of the District's financial position. The District's combined net assets increased between fiscal years 2007 and 2008 – increasing by \$11.5 million or 8.52% to \$146.5 million at August 31, 2008 (see table A-1, Page 9).

Table A-1
The District's Net Assets
(in millions of dollars)

Invested in Capital Assets							
net of related debt	\$91.0	\$70.5	\$0.0	\$0.0		\$91.0	\$70.5
Restricted	\$9.5	\$15.5	\$0.0	\$0.0		\$9.5	\$15.5
Unrestricted	\$45.3	\$48.4	\$0.7	\$0.6		\$46.0	\$49.0
Total Net Assets	\$145.8	\$134.4	\$0.7	\$0.6	\$	146.5	\$135.0

A portion of the net assets are either restricted as to the purposes for which they can be used or they are invested in capital assets. Unrestricted net assets decreased by \$3.0 million. Unrestricted net assets may be used to fund District programs in the next fiscal year. However, this does not mean that the District has significant surplus resources available to pay its bills next year. Rather, it is the result of having *long-term commitments* that are less than currently available resources.

<u>Changes in net assets.</u> The District's total revenues were \$304.7 million representing an increase of \$0.6 million or 0.20%. The majority of this increase is attributed to State aid formula grants that are not restricted. Debt Service Property Tax revenues increased due to the higher property values in the District. The District was able to reduce the Debt Service tax rate due to a substantial increase in property values. Interest income decreased \$4.5 million due to lower interest rates during the year. A significant portion, 64.06%, of the District's revenue comes from taxes. (See Figure A-3, page 12.) Operating grants and contributions represent 10.27% while only 2.76% relates to charges for services.

The total cost of all programs and services was \$293.2 million; an increase over the previous year of \$13.9 million or 4.98%. Instructional and student services represent 70.77% of these costs. Chapter 41 recapture accounts for \$12.6 million, or 4.30% of the total expenditures. The decrease in the Chapter 41 recapture payment from 2007 to 2008 represents a decrease of \$15.2 million or 54.68%, which is directly related to the legislatively initiated State funding formula changes.

Governmental Activities

• The District's tax rate consists of two separate components, a General Fund rate and a Debt Service rate. Taxes are calculated by dividing the assessed property value (less exemptions, if applicable) by 100 and multiplying the result by the tax rate. The Dallas Central Appraisal District determines property value for the Carrollton-Farmers Branch ISD. The Debt Service rate is set to pay debt principal and interest for the fiscal year. The Debt Service rate decreased by \$0.0059 per \$100 assessed valuation. Property values increased 10.45%. However, due to the tax roll's loss in value from the time of certification to the end of the year (shrinkage), the District experienced a loss of \$3.6 million in tax revenue. This "shrinkage" factor is discussed further under the caption, General Fund Budgetary Highlights, page 13.

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what state revenues as well as local tax dollars funded.

- The cost of all District activities this year was \$293.2 million, an increase of \$13.9 million or 4.98% over the prior year. Some functional categories increased. Most notable, Instructional and Instructional related increased \$17.7 million due to staffing increases and raises. Debt service increased \$0.9 million due to the 2008 bond sale. Food Service increased \$1.4 million; Plant maintenance and security increased \$2.0 million. Other functional categories decreased. The functional category attributed to the wealth equalization (Chapter 41 payment) decreased \$15.2 million (due to the legislative initiated State funding formula changes).
- The amount that our taxpayers paid for these activities through property taxes was \$195.2 million.
- \$8.4 million or 2.76% of the cost was paid by those who directly benefited from the programs.
- Operating grants and contributions totaled \$31.3 million.

Table A-3

Financial Analysis of the District's Funds

Governmental Funds The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Financial Accountability System Resource Guide, Texas Education Agency, with the revenues being recorded when available and measurable to finance expenditures of the fiscal period. Expenditures are recorded when services or goods are received and the fund liabilities are incurred. The general governmental operations include the following major funds: General, Debt Service and the Capital Projects Fund.

- Revenues from general governmental functions totaled \$302.3 million, an increase of \$.4 million over the preceding year. Property taxes were the largest source of revenue received by the District. The District's total taxable values increased \$1.4 billion or 10.45%; however, the legislatively required reduction in the General Fund tax rate resulted in a property tax revenue decrease of \$28.5 million or 12.74%. Due to legislative directed State funding formula changes State aid formula grants increased \$26.3 million or 87.09%. Investment earnings decreased \$4.5 million or 37.82%.
- Expenditures for general governmental operations totaled \$353.0 million during fiscal year 2008. The total increase for expenditures was \$20.8 million. Increases are seen in most functional areas. The largest increases were in the following functional categories: Instruction, \$16.3 million; Facilities Acquisition and Construction, \$6.5 million; Debt Service, \$4.4 million; Tax Increment

Fund, \$4.6 million. Instruction increased due to the addition of thirty-one new positions. The District implemented a 3.5% raise for teachers, librarians, counselors and nurses as well as a state mandated \$425 increase. In addition to the District raise all employees received an additional \$500 for the state discontinued insurance supplement. Other employees received a 2.75% raise. Raises for all employees raised functional categories with payroll costs. Debt Service increased due to a bond sale but the District was able to avoid a tax rate increase due to appreciation in property values. The largest decreases were in the following functional categories: Chapter 41 (Wealth equalization) decreased \$15.0 million due to legislatively changed state funding formulas; Student Transportation decreased \$1.1 million due to a significant refund from a vendor that operates student transportation; and Curriculum and Instruction Staff Development decreased \$0.6 million.

- In fiscal year 2004 voters approved a bond authorization of \$300.165 million. Bonds totaling \$229.3 million have been issued during the 2004-2008 fiscal years. The \$4.4 million increase in bond principal and interest is a result of the additional debt issued.
- The governmental funds reported a combined fund balance of \$147.3 million, a decrease of \$22.4 million. The combined fund balance was comprised of fund balance decreases in the General Fund of \$2.5 million and in the Debt Service Fund of \$.1 million. The increased payroll costs associated with District pay raises and the addition of staff contributed to the decrease in the General fund balance. Also the downturn in the economy led to a significant decrease in investment earnings that negatively affected fund balances of both the General Fund and Debt Service Fund. The Capital Projects Fund balance also decreased \$12.5 million. The Capital Projects Fund completed several major projects during the 2007-2008 fiscal year while choosing to issue a smaller amount of bonds compared to previous periods. The combination of completed major projects and the initiation of smaller projects contributed to the decrease in the Capital Projects Fund balance. Out of the combined fund balances, \$60.0 million constitutes unreserved and undesignated fund balance available for the general operations of the District. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed to bond projects, debt service and other obligations of the district.
- State aid increased \$29.1 million due to new legislation that changed state funding formulas.

General Fund Budgetary Highlights

- Over the course of the year, the District revised its budget several times. Actual expenditures were \$8.5 million below final budget amounts. The most significant positive variance resulted from student transportation. The District received a significant refund for previously billed services while the cost of student transportation declined during the fiscal year. Staffing is budgeted for full employment throughout the full year. This staffing variance applies to all functional categories where we have employees.
- Function 11, Instruction, has the most employees, which results in the large positive budget to actual variance.
- Function 51, Maintenance, also experienced a large positive variance attributed to a mild, wet spring and summer, newly negotiated electricity contracts and E-rate grant telecommunications discounts.
- Revenues available were \$1.5 million below the final budget amount. The district has been experiencing "shrinkage" in the tax roll during the collection year as more property owners were protesting their taxes resulting in a lower net tax roll that tax could be collected. In addition to this loss of taxable value, other taxable values were lost due to a small number of corporations declaring bankruptcy or moving from the district. For fiscal year 2008, the rate of shrinkage was higher than anticipated. The district budgeted shrinkage at 2.0% based on prior history. The

actual shrinkage was higher, 2.35%. This resulted in less tax revenue. Investment earnings also were down during the fiscal year, the slowing economy contributed to a decreasing rate of return for the District's deposits and investments.

• Plant Maintenance actual expenditures were \$2.1 million below final budget amounts. The District negotiated a new electricity contract in January, 2005 that resulted in lower utility costs to the district. E-rate discounts lowered the cost of telecommunication to the District.

Capital Assets and Debt Administration

Capital Assets

At the end of 2008, the District had invested \$629.2 million in a broad range of capital assets, including land, equipment, and vehicles. (See Table A-4.) This amount represents a net increase (including additions and deductions) of \$50.1 million or 8.65% over last year. Most of this increase was related to an increase in buildings, building improvements or land improvements related to construction and remodeling of district facilities. Additional information regarding Capital Assets is available in the Notes to the Basic Financial Statements, page 46-47.

Table A-4
District's Capital Assets
(in millions of dollars)

	Governmental Activities		Total % Change
	2008	2007	
Land	\$52.3	\$52.3	0.00%

Debt Administration

Table A-5 District's Long Term Debt (in millions of dollars)

	Gove	rnmental	Total % Change
	2008	2007	
Bonds payable	\$411.3	\$406.0	1.31%
Other Long Term Debt payable	\$8.3	\$7.9	5.06%
Sub-Total	\$419.6	\$413.9	1.38%
Less Current Portion	(\$30.6)	(\$27.1)	12.92%
Total due in more than one year	\$389.0	\$386.8	0.57%

At year-end the District had \$419.6 million in bonds and notes outstanding. (See Table A-5.) During 2008, the District issued \$30.0 million (par value) in general obligation bonds to finance the construction of several projects. Also, the district issued \$28.5 million (par value) in refunding bonds to refund a portion of the District's outstanding bonds in order to lower the overall annual debt service requirements of the District. More detailed information about the District's debt is presented in the Notes to the Basic Financial Statements, pages 49-50.

In the State of Texas, Non-Chapter 41 school district bond sales are guaranteed by the Permanent School Fund (PSF). Chapter 41 school districts must purchase bond insurance independently if the state's permanent bond guarantee fund does not have the capacity to cover all issues. However, for fiscal year 2008, the state had enough capacity to guarantee the District's bond sale. Therefore, the district did not have to purchase bond insurance independently. The two ratings that the district received on the bond sale are: one with the state permanent guarantee and one without (called underlying). The District's underlying bond rating is shown on the graph below. The ratings are Aaa for Moody's Investors Service and AAA for Standard & Poor's Corporation.

Bond Ratings-Underlying

The District's bonds presently carry
Aa2 rating from Moody's Investors Services
AA from Standard & Poor's Corporation

Economic Factors and Next Year's Budgets and Rates

- Assessed values used for the 2009 budget preparation are up \$397.5 million or 2.68% from 2008.
- General operating fund spending per student in the 2009 budget increases from \$7,535 to \$7,824 (excluding the Chapter 41 and Tax Increment Financing payments). This is a 3.84% increase.
- The District's refined average daily attendance is 24,420, a slight decrease of 14.0 or 0.06% over 2007.
- The District's attendance rate decreased .10% from 96.00% for 2007 to 95.9% for 2008.

These indicators were taken into account when adopting the general fund budget for 2009. Significant new legislation passed in special session by the Legislature in 2006 is effective for fiscal year 2007 forward. House Bill 1 provided a reduction to 88.67% of the 2004-05 Maintenance & Operations tax rate for 2006-

07 and a reduction to 66.67% for 2007-08. The new legislation reduces local maintenance and operating property tax rates from \$1.50 to \$1.00 per taxable \$100 of values. Districts have local enrichment options up to \$0.17 with the first four cents requiring only school board approval, the remaining \$0.13 requiring voter approval. The District made the decision to exercise \$0.04 of the available local enrichment cents in previous fiscal years. The increase in property values allowed tax revenues budgeted to increase \$6.7 million more than actual collections for fiscal year 2008. The new legislation provides for State revenue to hold districts harmless for fiscal year 2009 using the best of three options to calculate the hold harmless amount. The District does not anticipate an increase in revenue growth due to limited student growth and the current State formula funding system. State revenue is budgeted at a \$.8 million decrease for fiscal year 2009.

General Fund expenditures are budgeted to rise 8.15% to \$238.6 million over the final 2008 expenditure amounts of \$220.6 million. The District implemented a 4.5% raise for teachers and a 3.5% raise for administrators for fiscal year 2009. Salaries and benefits increased \$8.1 million. Increased contracted services account for \$1.2 million. The Tax Increment Finance Zone increased \$4.2 million. The District's recapture payment increased \$4.8 million due to the higher property values and the restructuring of the state school finance funding formula contained in the new legislation. Due to financial concerns for fiscal year 2009, the District revised the schedule for secondary teachers of non-core classes to teach seven of eight periods. This change allowed a twenty teacher reduction. The District also added eight paraprofessional positions.

If these estimates are realized, the District's budgetary general fund balance is expected to decease by \$13.4 million by the close of the 2009 fiscal year.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Executive Director for Finance, Bonnie Halsey, at 1445 N. Perry Road, Carrollton, Texas 75011-5186, (972) 968-6112, e-mail halseyb@cfbisd.edu or the District's Director of Financial Reporting, Scott Roderick, (972) 968-6116, rodericks@cfbisd.edu.

CARROLLTON-FARMERS BRANCH ISD

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2008

Total Net Change in Fund Balances - Governmental Funds	\$ (22,399,101)
The District uses internal service funds to charge the costs of self-insurance to appropriate functions in other funds. The net effect of this consolidation is to increase net assets.	374,766
Current year capital asset additions are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. The net effect of removing the 2008 capital asset additions is to increase net assets.	50,464,857
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net assets.	(14,617,789)
Current year long-term debt principal payments on bonds payable are expenditures in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements.	23,667,961
Current year bond proceeds are other finance sources in the fund financial statements, but are shown as increase in the liabilities in the government-wide financial statements.	(57,435,000)
Current year payment to escrow agent for refunded debt are expenditures in the fund financials statements, but are shown as reductions in long-term debt in the government-wide financial statements.	28,913,368
Current year accretion on capital appreciation bonds is not reflected in the fund financial statements, but are shown as increases in accreted interest on the government-wide financial statements.	(138,623)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements an interest expenditures is reported when due.	926,019
Interest on capital appreciation bonds is recognized as an expense when incurred in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due.	3,522,039
Bond issuance costs are expenditures in the fund financial statements when debt is issued, but it is amortized over the term of the bond in the government-wide financial statements.	137,441

CARROLLTON-FARMERS BRANCHISD

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2008

Premium and discounts are recognized in the fund financial statements as other financing sources or uses, but they are amortized over the term of the bonds in the government-wide financial statements.	(1,017,705)
Amortization of deferred refunding amount is not recognized in the governmental funds. The effect of recording current years amortization is to decrease net assets.	(349,807)
Revenue from property taxes is deferred in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed net of an allowance for uncollectible accounts in the government-wide statements.	(626,289)
Change in Net Assets of Governmental Activities	\$ 11,422,137

Total Liabilities	\$ 502,716

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Carrollton-Farmers Branch Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in the Statement on Auditing Standards No. 69 of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Reporting Entity

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity," as amended by GASB 39 "Determining Whether Certain Organizations Are Component Units." There are no component units included within the reporting entity.

Government-Wide and Fund Financial Statements

The statement of net assets and the statement of activities are government-wide financial statements. They report information on all of the Carrollton-Farmers Branch Independent School District's nonfiduciary activities. Internal service fund activity is eliminated to avoid overstatement of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The statement of activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under Elementary and Secondary Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due from on the governmental fund balance sheet and proprietary fund statement of net assets. All interfund transactions between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental and fiduciary funds are included in the statement of net assets as receivable or payable to external parties (consistent with the nature of the fiduciary fund).

Government-Wide and Fund Financial Statements - continued

The fund financial statements provide information on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operation in a separate column.

Propriety funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connections with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of goods and services, such as materials and labor and direct overhead. All other expenses are nonoperating.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund activity has been eliminated from the government-wide financial statements. Agency funds also use the accrual basis of accounting however, they have no measurement focus.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grants funds are considered to be earned to the extent of expenditures make under the provisions of the grant. Accordingly, when such funds received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary Fund Types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

Fund Accounting

The District reports the following major governmental funds:

- 1. **The General Fund** The General fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
- Debt Service Fund The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund
- Capital Projects Fund The proceeds from long-term financing and revenues and expenditures
 related to authorized construction and other capital asset acquisitions are accounted for in a capital
 projects fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Nonmajor Special Revenue Funds** – The District accounts for resources restricted to, or designated for, a specific purpose by the District or a grantor in a special revenue fund. Federal, State, and Local financial assistance is accounted for in a Federal, State, or Local Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

- 2. **Enterprise Funds** Are utilized by the District to account for activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District's sole enterprise fund accounts for the After the Bell program.
- 3. **Internal Service Funds** Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's Internal Service Funds are the Health Insurance and Workers' Compensation Funds.

Fiduciary Funds:

4. **Agency Funds** – The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Fund.

Cash and Cash Equivalents

For purpose of the statement of cash flows for proprietary and similar fund-types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

Interfund Receivables and Payables

Activities between funds that are representative of lending or borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which they are imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year. The assessed value of the certified roll, upon which the levy for the 2008 fiscal year was based upon, was \$14,847,932,832.

Taxes are due on October 1 and become delinquent by February 1 following the October 1 levy date. Current tax collections for the year ended August 31, 2008 were 99.29% of the tax levy.

The tax rates assessed for the year ended August 31, 2008 to finance general fund operations and the payment of principal and interest on general obligation long-term debt were \$1.04 and \$0.327 per \$100 valuation, respectively, for a total of \$1.367 per \$100 valuation.

Investments

The District's general policy is to report money market investments and short-term participating interest-earning investments contracts at amortized cost and to report nonparticipating interest-earning contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments, which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

Inventories

Materials, supplies and food commodities are carried in an inventory account at average cost and are subsequently charged to expenditures when consumed. Inventories also include plant maintenance and operating supplies as well as instructional supplies.

Capital Assets

Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements with total project cost of \$100,000 or greater are capitalized as projects when constructed.

Land improvements, buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Land Improvements	20
Buildings	50
Buildings Improvements	20
Portable Classrooms	20
Vehicles	10
Furniture	10
Office Equipment	5
Computer Equipment	5
Music Equipment	10
Other Equipment	10

Liability for Compensated Absences

Employees are allowed to accrue five days of state personal leave and five days of local sick leave each year without limit. State personal leave and local sick leave do not vest under the District's policy and accordingly, employees can only utilize state personal and sick leave when sick, or state personal leave for personal reasons when approved by their supervisor. Since the employees' accumulating rights to receive compensation for future absences are contingent upon the absences being caused by future illnesses and such amounts cannot be reasonably estimated, a liability for unused sick leave is not recorded in the financial statements.

Teachers and administrative personnel do not receive paid vacations but are paid only for the number of days they are required to work each year (187 days for teachers and 230 days for administrative personnel).

Maintenance employees are granted vacation leave in varying amounts. In the event of termination an employee is reimbursed for unused accumulated leave. The District has no liability for unused vacation pay since all vacation is used or lost if not taken each year. Vacation pay is charged to operations when taken by the employees of the District.

Long-Term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using effective interest method. Gains or losses on refunding are deferred and amortized over the lesser of the remaining life of the old debt or the life of the new debt using the straight line method. Bonds payable are reported net of the applicable bond premium or discount and gain or loss on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures. Gains or losses on refunding are not recognized in these financial statements.

Net Assets and Fund Balance

Government-Wide Financial Statements

When the District incurs an expense for which it may use either restricted or unrestricted net assets, it uses restricted net assets first unless unrestricted net assets will have to be returned because they were not used. Net assets on the Statement of Net Assets include the following:

Investment in Capital Assets, Net of Related Debt – The component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Debt Service – The component of net assets that reports the difference between assets and liabilities with constraints placed on their use by the bond covenants.

Restricted for Food Service – The component of net assets that reports the difference between assets and liabilities of the Food Service Activities that consists of assets with constraints placed on their use by the Department of Agriculture.

Restricted for Tax Increment Zone – The component of net assets that reports the property taxes collected for the zone to pay for District projects identified in the project plan to be constructed in the zone for educational facilities and maintenance for operating such facilities.

Unrestricted – The difference between the assets and liabilities that is not reported in Net Assets Invested in Capital Assets, Net of Related Debt, Net Assets Restricted for Federal and State Programs, Net Assets Restricted for Food Service or Net Assets Restricted for Tax Increment Zone.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Governmental Fund Financial Statements

In the fund financial statements, governmental funds report fund balances as either a reserved fund balance or an unreserved fund balance.

Reserved Fund Balance – That portion of fund balance which is not available for appropriation or which has been legally segregated for a specific purpose.

Unreserved Fund Balance – Composed of designated and undesignated portions. The undesignated portion of the unreserved fund balance represents that portion of fund balance that is available for budgeting in future periods. Designated fund balances represent tentative plans for future use of financial resources.

Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas Law, appropriations lapse at August 31, and encumbrances outstanding at that time are to either canceled or appropriately provided for in the subsequent year's budget. Encumbrances are reported as a reservation of fund balances in the governmental fund financial statements. Encumbrances outstanding at August 31, 2008 that were in the subsequent year's budget are:

General Fund	\$ 1,477,505
Special Revenue Fund-Food Service	301,135
Capital Projects Fund	 16,645,571
Total	\$ 18,424,211

Data Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue estimates as of August 31, 2008 will change.

NOTE 2. CASH AND INVESTMENTS

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At August 31, 2008, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing saving accounts included in temporary investments) was \$5,551,251 and the bank balance was \$10,132,667. The District's cash deposits at August 31, 2008 and during the year ended August 31, 2008 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: Bank of America.
- The market value of securities pledged as of the date of the highest combined balance on deposit was \$65,170,984.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$64,787,546 and occurred during the month of December, 2007.
- d. Total amount of FDIC coverage at the time of the highest combined balance was \$300,000.

Legal and contractual provisions governing deposits and investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes and the District's investment policy authorized the District to invest in the following investments as summarized in the table below:

		Maximum	Maximum
Authorized	Maximum	Percentage	Investment
Investment Type	Maturity	of Portfolio	In One Issuer
U.S. Treasury Obligations	10 years	None	None
U.S. Agencies Securities	10 years	None	None
Letters of Credit	10 years	None	None
Certificates of Deposit	-	None	None
Repurchase agreements	90 days	None	None
Securities lending program	1 year	None	None
Banker's acceptance	270 days	None	None
Commercial paper	270 days	None	None
No-load money market mutual funds	90 days	None	None
No-load mutual funds	2 years	None	None
Guaranteed investment contracts	5 years	None	None
Investment pools	-	None	None

NOTE 2. CASH AND INVESTMENTS - CONTINUED

The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Cash and investments as of August 31, 2008 are classified in the accompanying financial statements as follows:

Statement of net assets:		
Cash and investments	\$	162,856,228
Fiduciary funds:		
Cash and investments		500,917
Total cash and investments	\$	163,357,145
Cash and investments as August 31, 2008 consist of the fo	ollow	ving:
-		
Cash on hand	\$	20,076
Savings and checking accounts		5,326,251
Certificates of deposit		225,000
Texpool		157,785,818
Total cash and investments	\$	163,357,145

Disclosure relating to interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District's investment policy has no specific maturity restrictions for certificates of deposit or public funds investment pools, however, the District manages its exposure to interest rate risk by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The District has no specific limitations with respect to this metric.

As of August 31, 2008, the District had the following investments:

Investment Type	Amount	Weighted Average Maturity
Certificates of deposit Texpool Total	\$ 225,000 157,785,818 \$ 158,010,818	67 days 42 days

As of August 31, 2008 the District did not invest in any securities which are highly sensitive to interest rate fluctuations.

NOTE 2. CASH AND INVESTMENTS - CONTINUED

Disclosure relating to credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

				Minimum	Rating
				Legal	of Year
Investment Type			Amount	Rating	End
Towns		¢	157 705 010	NT/A	A A A
Texpool	,	<u> </u>	157,785,818	N/A	AAAm
Total	;	\$	157,785,818		

Concentration of credit risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. As of August 31, 2008, other than external investment pools, the District did not have 5% or more of its investments with one issuer.

Custodial credit risk

Custodial credit risk for deposits it the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Public Funds Investment Act and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The Public Funds Investment Act requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least the bank balance less FDIC insurance at all times.

As of August 31, 2008, the District deposits with financial institutions in excess of federal depository insurance limits were fully collateralized.

The District is a voluntary participant in Texpool.

The State Comptroller of Public Accounts exercises responsibility over Texpool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in Texpool and other persons who do not have a business relationship with Texpool. Texpool operates in a manner consistent with the SEC's Rule2A7 of the Investment Company Act of 1940. Texpool uses amortized cost rather than the market value to report net assets to compute share prices. Accordingly, the fair value of the position in Texpool is the same as the value of Texpool shares.

NOTE 3. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

At August 31, 2008 the components of delinquent taxes receivables are as follows:

	General Fund	Debt Service Fund	Total
Delinquent taxes Related penalty and interest	\$ 3,823,770 1,896,028		\$ 4,669,108 2,242,622
Related penalty and interest	\$ 5,719,798		\$ 6,911,730

At August 31, 2008 an allowance for uncollectible taxes is provided for the following:

	General Fund			Debt Service Fund			Total		
Personal property Real property	\$	3,100,134 43,328		\$	974,754 13,408		\$	4,074,888 56,736	
1 1 7	\$	3,143,462		\$	988,162		\$	4,131,624	

NOTE 4. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2008, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments. Furthermore, there are times whenever overpayment is received from a State Agency and money may be due to other governments.

	General Fund		Other Funds		Total
State Entitlement	\$	16,537,928	\$	564,142	\$ 17,102,070
Federal Grants		11,423		240,173	251,596
Farmers Branch		47,431		-	47,431
City of Irving		11,374		-	11,374
Dallas County Schools		100,000		-	100,000
University of North Texas		-		45,983	45,983
	\$	16,708,156	\$	850,298	\$ 17,558,454

NOTE 5. OTHER RECEIVABLES

Other receivables as of August 31, 2008, for the District's individual major funds and nonmajor, and internal service in the aggregate are as follows:

	General Fund		Capital Project Funds		l	Non Major Funds	Internal Service Funds	Total	
NSF Checks	\$	6,079	\$	-	\$	7,741	\$ -	\$ 13,820	
Health Insurance Receivable		5,500		-		-	176,465	181,965	
Due from Employees		106,547		-		1,351	-	107,898	
Other Receivable		1,192		32,107		179	-	33,478	
	\$	119,318	\$	32,107	\$	9,271	\$ 176,465	\$ 337,161	

Due from employees represents payroll advances paid to instructional staff at the beginning of the school year. Amounts are expected to be collected through payroll deductions within four months after the District's fiscal year end.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund balances at August 31, 2008 consisted of the following individual fund receivables and payables:

	R	eceivables	Payables
Major Funds:		_	
General Fund	\$	517,388	\$ 1,483,490
Debt Service Fund		79,522	369,784
Capital Projects Fund		130,352	15,961
Non-Major Funds:			
Federal Funds		11,515	39,787
State Funds		2,862	134,874
Local Funds		-	27,747
Internal Service Funds		1,320,064	-
Enterprise Fund		9,940	
Total	\$	2,071,643	\$ 2,071,643

All amounts due are scheduled to be repaid within one year.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS - CONTINUED

Interfund transfers for the year ended August 31, 2008 were as follows:

Transfer In	Transfer Out	Amount	_
Dalat Camaian Famil	Conital Dunions Frond	¢ 100.500	T
Debt Service Fund	Capital Project Fund		Transfer to complete bond sale transaction
Health Insurance Fund	General Fund	1,700,000	Supplement Health Insurance Fund
Food Service Fund	General Fund	6,716	Transfer for furniture and fixtures
Ralph Ellis Donation Fund	General Fund	22,919	Match requirement for local grant
		\$ 1,830,195	_

NOTE 7. CAPITAL ASSET ACTIVITY

Capital asset activity for the District for the year ended August 31, 2008, was as follows:

Governmental Activities:	Primary Government								
		Beginning Balance		Additions	Retirements		Transfers	Ending Balance	-
Non-depreciable assets									
Land	\$	52,283,918	\$	51,980	\$	-	\$ -	\$ 52,335,898

Communities Foundation	-	-		243,989	243,989
City of Coppell	-	-		4,852	4,852
Ralph Ellis Donation	-	-		27,081	27,081
Washington Mutual		-		4,500	4,500
	\$ 2,182,288	\$ 141,117	\$	513,004	\$ 2,836,409

Governmental funds report deferred in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Government funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Tax revenue reported as deferred revenue in the governmental funds is recorded as revenue in the government-wide financial statements. Accordingly, unearned tax revenue is excluded in the government-wide financial statements.

NOTE 9. DEBT ISSUANCE AND DEFEASED DEBT

In 2008, the District issued \$57,435,000 (par value) in Unlimited Tax Building and Refunding Bonds to provide \$30,000,000 in construction funds and to advance refund \$28,490,000 (par value) of outstanding bonds. The net proceeds of \$58,547,288 (\$57,435,000 par amount of the bonds plus \$1,292,288 of premium paid on the bonds less \$180,000 of underwriting fees, insurance, and other issuance costs) were used to provide the construction funds and to purchase U.S. and State and Local Government Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result, those bonds were considered to be defeased and the liability for those bonds was removed from long-term debt.

The refunding was undertaken to reduce the District's total debt service payments by approximately \$1,377,101 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$1,199,980.

In prior years, the District has defeased other bond series in advance refunding transactions. On August 31, 2008, \$75,100,000 of defeased bonds remains outstanding.

NOTE 10. LONG-TERM DEBT

Unlimited Tax Bonds

The District issues unlimited tax bonds for the governmental activities to provide for the acquisition and construction of major capital facilities. Unlimited tax bonds are direct obligations and pledge the full faith and credit of the District. Bonded indebtedness of the District is reflected in the Statement of Net Assets. Current requirements for principal and interest expenditures are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District and interest earnings.

Unlimited tax bonds outstanding as of August 31, 2008 are as follows:

Purpose and	Interest		Amount Outstanding			Amount Outstanding
Lawful Authority	Rate	Amount	09/01/07	Issued	Retired	08/31/08
Unlimited Tax Refunding Bonds, Series 1993	0.00% to 5.38%	21,349,988	89,774	-	66,063	23,711
Unlimited Tax School Building and Refunding Bonds, Series 1998	1.65% to 5.00%	15,299,988	9,904,988	-	7,989,988	1,915,000

NOTE 13. DEFINED BENEFIT PENSION PLAN

Plan Description

The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. It is a cost-sharing public employee retirement system (PERS), with one exception: all risk and costs are not shared by the employer. By statute, the State of Texas contributes to the retirement system an amount equal to the current authorized rate times the aggregate annual compensation of all members of the retirement system during the fiscal year. For members of the retirement system entitled to the minimum salary for certain school personnel under § 21.402, Texas Education Code, and for members who would have been entitled to the minimum salary for certain school personnel under former § 16.056, Texas Education Code, as that section existed on January 1, 1995, the employing district shall pay the state's contribution on the portion of the member's salary that exceeds the statutory minimum or former statutory minimum as applicable. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 100 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Types of Employees Covered

All employees of public, state-supported educational institutes in Texas who are employed for $\frac{1}{2}$ or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Subtitle C § 822.002 are covered by TRS membership.

NOTE 13. DEFINED BENEFIT PENSION PLAN - CONTINUED

Benefit Provisions

The Teacher Retirement System of Texas administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school system of Texas. It operates primarily under the provisions of Texas Constitution, Article XVI, §67 and Texas Government Code, Title 8, Subtitle C. The system also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapter 803 and Chapter 805, respectively.

Service Retirement:

1) Normal-Age Service Retirement:

If you became a member of TRS prior to September 1, 2007 and maintain your membership until retirement, you will meet the age and service requirements for normal-age service retirement when:

- a) Age 65 with 5 years of service
- b) Any combination of age plus years of service which equals 80 and with at least 5 years of service

If you first became a member of TRS or returned to membership on or after September 1, 2007, you will meet the age and service requirements for normal-age service retirement when:

- a) Age 65 with 5 years of service
- b) Age 60 and any combination of age plus years of service which equals 80 with at least 5 years of service

2) Early-Age Service Retirement Reductions:

If you became a member of TRS prior to September 1, 2007, and you maintain your membership until retirement, you are entitled to early-age service retirement when the total of your age and service credit is less than 80 and one of the following conditions is met:

- a) Age 55 with at least 5 years of service
- b) Any age below 50 with 30 years of service

If you became a member of TRS or returned to membership on or after September 1, 2007, you are entitled to early-age service retirement when one of the following conditions is met:

- a) Age 55 with at least 5 years of service
- b) Age and years of service total 80 but age is less than 60
- c) At least 30 years of service but age is less than 60

Members who establish at least five years of membership service credit are eligible to retire at a future date and receive a lifetime monthly annuity.

NOTE 13. DEFINED BENEFIT PENSION PLAN - CONTINUED

Funding Policy

State law provides for fiscal year 2008 a state contribution of 6.58% and 6.00% for fiscal years 2007 and 2006. State law further provides a member contribution rate of 6.4% for fiscal years 2008, 2007 and 2006. In certain instances the reporting district is required to make all or a portion of the state's 6.58% contribution for fiscal year 2008 and 6.0% for fiscal years 2007 and 2006. Contribution requirements are not actuarially determined but are legally established each biennium pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation of all members of the system during the year; (2) A statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. The District's employees' contribution to the System for the years ended August 31, 2008, 2007 and 2006 were \$9,691,957, \$9,083,924, and \$8,274,376 respectively, equal to required contributions for each year. State contributions to TRS made on behalf of the District's employees for the years ended August 31, 2008, 2007 and 2006 were \$8,848,493, \$7,190,625, and \$7,150,238, respectively. The District paid additional state required contributions for the years ended August 31, 2008, 2007 and 2006 in the amount of \$2,336,310, \$1,480,900, and \$1,808,166, respectively, on the portion of the employees' salaries that exceeded the state statutory minimum and for salaries paid from federal grants. The State "On-Behalf" contributions have been recognized as both revenues and expenditures by the District in the financial statements.

NOTE 14. SCHOOL DISTRICT RETIREE HEALTH PLAN

Plan Description

The Carrollton-Farmers Branch contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set a 0.55% for fiscal years 2008, 2007 and 2006. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For years ended August 31, 2008, 2007, and 2006, the State's contributions to TRS-Care were \$1,514,368, \$1,419,363, and \$1,292,871, respectively, the active member contributions were \$984,339, \$922,586, and \$840,366, respectively, and the school district's contributions were \$832,903, \$780,650, and \$711,079, respectively, which equaled the required contributions each year.

NOTE 14. SCHOOL DISTRICT RETIREE HEALTH PLAN-CONTINUED

Medicare Part D - On-Behalf Payments

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf of \$346,476 recognized for the year ended August 31, 2008 as equal revenues and expenditures.

NOTE 15. RISK MANAGEMENT

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Health Care Coverage

During the year ended August 31, 2008, employees of the District were covered by the District's medical self-insurance Plan (the "Plan"). The District contributed approximately \$262 per month per employee to the Plan and employees, at their option, authorized payroll withholdings to pay contributions for dependents for increased coverage. Claims paid by a third party administrator acting on behalf of the District.

The administrative contract between the District and the third party administrator is renewable annually. Administrative fees and stop-loss premiums are included in the contractual provisions with separate entities. In accordance with statute, the District was protected against unanticipated catastrophic individual or aggregate loss by stop-loss coverage carried through Fidelity Security Life Insurance Co., a commercial insurer licensed and eligible to do business in Texas in accordance with the Texas Insurance code. Stop loss coverage was in effect for individual claims exceeding \$175,000 and for aggregate loss, which is based on a factor determined monthly by Fidelity Security Life Insurance Co. The aggregate stop-loss coverage for the month of August was \$1,673,331. Latest financial statements for Fidelity Security Life Insurance Co. are available for the year ended December 31, 2007, are filed with the Texas State Board of Insurance, Austin, Texas and are public records.

Workers' Compensation Coverage

Beginning September 1, 1993, the District established a self-insurance plan for workers' compensation benefits. Prior to this time, the District was a member of the Texas Association of School Boards Workers' Compensation Self-Insurance Fund ("Fund"). The Fund will continue to be liable for all claims before September 1, 1993.

Claims are paid by a third party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through Safety National Casualty Corporation, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code.

Coverage was in effect for specific occurrences exceeding \$500,000 and aggregate retention at \$1,000,000.

NOTE 15. RISK MANAGEMENT-CONTINUED

The costs associated with these self-insurance plans are reported as interfund transaction to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Funds and operating expenditures of the General Fund and the Special Revenue Funds. The liabilities of the medical and workers' compensation self-insurance plans (\$1,778,329 and \$2,391,378, respectively) include incurred but not reported claims. These liabilities reported in the Funds at August 31, 2008 are based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Workers' compensation liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time were computed by an actuary and are reported at their present value using expected future investment yield assumption of 5%. Changes in the medical workers' compensation claims liability amounts in fiscal 2008 and 2007 were:

]	Beginning		Claims		
		of Fiscal		and		Balance
		Year		Changes	Claim	at Fiscal
Self-Insurance Liability		Liability	i	n Estimates	Payments	Year-End
2007- medical	\$	2,748,717	\$	14,503,350	\$ 14,021,867	\$ 2,267,234
2008- medical	\$	2,267,234	\$	15,960,492	\$ 15,471,587	\$ 1,778,329
2007-workers' compensation	\$	2,125,520	\$	1,246,909	\$ 1,428,476	\$ 2,307,087
2008-workers' compensation	\$	2,307,087	\$	1,320,347	\$ 1,404,638	\$ 2,391,378

NOTE 16. COMMITMENTS AND CONTINGENCIES

Litigation

The District is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of the administration, the outcome of these lawsuits will not have a materially adverse effect on the accompanying combined financial statements and accordingly, no provision for losses has been recorded.

Grants Programs

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable at August 31, 2008 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 16. COMMITMENTS AND CONTINGENCIES-CONTINUED

Future Construction

The funds in the Capital Projects Fund will be used for future school construction and renovation. Commitments on outstanding construction contracts for future school and renovations totaled approximately \$17 million at August 31, 2008.

Arbitrage Rebate Liability

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment for each issue every five years. Arbitrage liability for tax-exempt debt subject to the Tax Reform Act issued through August 31, 2008, amounted to \$582,364. The estimated liability is updated annually for any tax-exempt issuances or changes in yields until such time payment of the calculated liability is due.

NOTE 17. EXCESS OF EXPENDITURES OVER APPROPIATIONS BY FUNCTION

The Texas Education Agency requires the budgets for certain Governmental fund types to be filed with the Texas Education Agency. The budget should not be exceeded in any functional category under TEA requirements. Expenditures exceeded appropriations in one functional category in the Food Service Fund for the year ended August 31, 2008.

NOTE 18. SUBSEQUENT EVENT

Effective on January 1, 2009, the District will convert to fully insured plans from self funded medical and dental indemnity insurance plans. The medical insurance plans are offered by the State of Texas through TRS-ActiveCare and both network and indemnity dental benefits are through United Healthcare and QCD of America. The election to convert to the TRS-ActiveCare plan is irrevocable. Management of the District determined that in light of the increasing costs of health care claims, it would be more cost effective to convert to TRS-ActiveCare.

NOTE 1. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

The Board of Education adopts an "appropriated budget" on a basis consistent with GAAP for the General Fund, Debt Service Fund and the Food Service Fund, a component of the Federal Special Revenue Fund. This District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds/components.

The following procedures are followed in establishing the budgetary data:

- 1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board of Education is then called for the purpose of adopting the proposed budget after ten days public notice of the meeting has been given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board of Education. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. Significant amendments were made to the following functional areas:

Function	Incre	ase (Decrease)
Instruction	\$	5,513,598
Instructional Leadership		(783,290)
General Administration		(742,404)
Plant Maintenance and Operations		1,736,882
Contracted Instructional Services		(1,792,418)
Other Intergovernmental Charges		959,488

- 4. Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board of Education. All budget appropriations lapse at year-end.
- 5. The Texas Education Agency requires these budgets to be filed with the Texas Education Agency on a designated date through the Public Education Information Management System ("PEIMS"). The budget should not exceed in any functional expenditure category under the TEA requirements. The original and final amended versions of these budgets are used in this report.

STATISTICAL SECTION

This part of the Carrollton-Farmers Branch Independent School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the government's overall financial health.

Contents	' age
Financial Trends	
These schedules contain trend information to help understand how the government's financial performance and well-being have changed over time.	02
Revenue Capacity	
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	.07
Debt Capacity	
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	.12
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	.19
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	21

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Carrollton-Farmers Branch Independent School District Carrollton, Texas

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Carrollton-Farmers Branch Independent School District (the "District") as of and for the year ended August 31, 2008, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 16, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Trustees, the audit committee, others within the District, the Texas Education Agency, and appropriate federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Trustees Carrollton-Farmers Branch Independent School District Carrollton, Texas

Compliance

We have audited the compliance of Carrollton-Farmers Branch Independent School District (the "District") with the types of compliance requirements described in the *U.S. Office of Management* and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended August 31, 2008. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended August 31, 2008.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal

control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that a noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the District's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, the audit committee, others within the District, the Texas Education Agency, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

^{*}Clustered Programs as required by Compliance Supplement March, 2008

- NOTE 1. For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- NOTE 2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these fund present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

- NOTE 3. The period of availability for federal grant fund for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, OMB Circular A-133 Compliance Statement Provisional 6/97.
- NOTE 4. School Health and Related Services-NHIC reimbursements of \$192,202, which are recorded as federal revenue in the general fund, are not considered federal awards for purpose of this schedule.
