

## **Mexico the Beautiful**

*by Itzel Ramirez*

Mexico is a beautiful place.  
There's lots of space and delicious foods to taste.  
People and kids enjoying this magical place.  
Lots of caves to explore these days.  
There are lots of plants wherever you go.  
Cacti, agave, and orchids all grow.  
Orchids are beautiful flowers that bloom.  
So beautiful just like the moon.
