

A blue water bottle with a dark blue cap is centered in the background. The bottle is a simple 3D model with a cylindrical body and a slightly tapered neck. It has a dark blue cap. The bottle is filled with a light blue liquid, and there is a white horizontal line across the middle of the bottle. The bottle is casting a soft shadow on the white background.

What is your invention or innovation?

My innovation is a water bottle holder with a straw that goes to your mouth.

What problem does it solve?

It solve the problem is that you have to carry my water bottle.

Who does your product or idea help?

My innovation helps runners and walker.

Why is your product or idea better than what already exists?

It has a long straw so you do not have to grab it.

Why should the judges vote for your product or idea?

They should vote for it because if it successful a lot of people will use it.
