Supporting our Students

District families,

As we near the end of the school year we are part of a greater metropolitan community that is grieving a senseless loss of life. The death of Mr. George Floyd and the ensuing protests and unrest have impacted our school community.

Providing support to students who are struggling is never more important than when something happens in our society that triggers immeasurable anger and confusion. Coupled with the ongoing pandemic, our students are bearing a great deal and we want to offer all of our students the support they need in whatever ways we can.

Our administrators, teachers and staff are here to listen, learn and support. Staff members will reach out to students to ask them how they are doing. Your student's principal will contact you about ways they can support your family and create opportunities to process this week's events.

There is great hope with each generation of children. As a district, we are committed to embracing all cultures with humility and respect. We unite to support our students to learn and grow into the young adults who will undoubtedly change the world.

Sincerely,

Wayne A. Kazmierczak, Ph.D.

Superintendent
