

ATHLETICS

The middle school athletics program for 5th through 8th grade includes volleyball, soccer, cross country, basketball, swimming, track & field, tennis, golf, and baseball. This athletics program requires an additional fee for participation. Look for more information this summer about registering for athletics online!

We have a no-cut policy for athletics, and we encourage all interested middle school students to participate. St. Mark's competes in the Greater Houston Athletic Conference.

Students and families are invited to show their support by attending our home and away games.

PARENT TEACHER CONFERENCES

We host formal parent teacher conferences each year. Primary school and lower school will open the year with introductory conferences. Middle school conferences are held with the student's advisor and led by the middle schooler.

If a parent teacher conference is necessary at some point during the year in addition to the school's scheduled conferences, parents may request a meeting time with their child's teacher at any time.
