

VOCATIONAL AND CAREER EDUCATION
JUNE 1ST – JUNE 5TH 2020

This is a general Health Assisting activity. Please make sure you are checking your BPS e-mail and Microsoft TEAMS for updates from your teachers. They will be sending you other activities that are specifically designed for your class.

Infection Control

While we are all at home and learning how to stop the spread of infection, it is important that we be vigilant in monitoring the spread of any type of infection.

For this week's assignment, please click on the three links below and watch the videos on the Chain of Infection, Hand Hygiene, and Donning & Doffing PPE. When you have finished watching the videos, write a brief reflection about what you learned from the videos and explain how you plan to help spread this knowledge to others.

[Chain of Infection](#)

[Hand Hygiene](#)

[Donning & Doffing PPE](#)

When you are finished with your reflection, save it to your Office365 OneDrive and then share it with your teacher.
