#### General Description of the District

#### **Orange Unified School District Boundary Map**

Orange Unified School District is located in the central portion of Orange County. Founded in 1953, the District encompasses nearly 108 square miles, including the cities of Orange, Villa Park, and portions of Santa Ana, Anaheim, and Garden Grove.

Starting from an original school building in 1872, the District has grown to 26 elementary schools (K-6), one Magnet School (K-8), three middle schools (7-8), two Charter Schools (7-8), four high schools (9-12), a school for students with special needs, a community day school, and one continuation high school. A Career Education Center houses the District's Regional Occupational Program and Child Development Center. The District educates approximately 30,000 students in the Cities of Orange, Villa Park, Anaheim, Garden Grove, Santa Ana and county areas.

District schools have "partnered" with more than 100 local businesses, service clubs, local universities, and other organizations to provide funding for special projects. Special Projects include community speakers, career days/fairs, and scholarship programs.

The District office is located at 1401 North Handy Street in the City of Orange, California.

#### **Mission Statement**

"The Orange Unified School District being committed to planning for continual improvement, will offer a learning environment of excellence, with high expectations, to provide each student with the opportunity to be able to compete in the global economy."

#### **Purpose of the Budget**

The purpose of the Budget is to serve as a guideline for the utilization of resources to meet the needs of students attending the Orange Unified School District.

The District's Budget is an expression in dollars of the education program. It is the intent and philosophical belief of the Board of Education to expend the resources of the District so that as many dollars as possible directly benefit students in the classroom.

More specifically, the budget serves as an outline for the estimated revenue and expenses for the fiscal year as well as its intent to serve a variety of additional purposes:

- ♣ A reflection of educational philosophy
- A statement of District priorities
- ♣ A description of the education plan and resources to support the plan
- ♣ A financial plan outlining proposed District actions
- An accountability tool
- ♣ A public information document

The District receives its allocated monies based upon several criteria. The State requires the establishment of various funds for the accounting of the revenues and expenditures. The type of fund is very important because the fund type determines how the money may be spent.

#### General Fund (01)

The General Fund is the chief operating fund for all Local Education Agencies (LEAs), including school district, county offices of education, and joint powers agreements/agencies.

The General Fund is used to account for the ordinary operations of the LEA. All transactions except those required or permitted by law to be in another fund are accounted for in this fund.

Within the General Fund, restricted projects or activities must be identified and separated from unrestricted activities.

#### **Charter Schools (09)**

The Charter Schools Special/Revenue Fund may be used by authorizing LEAs to account separately for the activities of LEA-operated charter schools that report to CDE as part of the LEA (Education Code 47600).

The principal revenue accounts in this fund are:

- LCFF Sources
- Transfers from Sponsoring LEAs to Charter Schools in Lieu of Property Taxes
- Lottery
- Interest
- All Other Local Revenue

## Budgetary Building Blocks

#### **Budget Criteria**

The Board of Education has the final responsibility for the budget. The Board's primary budget development tasks include establishing budget criteria and assumptions, directing, reviewing, and approving the budget.

The District's Budget Development Process starts in late January after the Governor announces the Proposed State Budget to fund K-12 Education for the following fiscal year. Consequently, this Budget Book does not incorporate the proposed reductions recently announced by Governor Newsom during the State Budget May Revision to address the \$54 billion state budget shortfall due to the COVID 19 Pandemic impact to the state, national, and world economies. At the June 4, 2020 Board Meeting, the Assistant Superintendent of Business Services will present a comprehensive budget. It is recognized that, if necessary, the school district plans to implement ongoing budget reductions to maintain fiscal solvency.

 The Orange Unified School District's K-12 enrollment (excluding Charter schools) for 2020/21 is projected to decline by 760 to 24,216.

#### **Beginning Fund Balance Assumption**

2. The total beginning General Fund balance is \$68,671,268. This is based upon the assumption that all revenues will be received and all appropriations expended as reflected in the current June 30, 2020 projections. The beginning balance will be adjusted to the actual ending June 30, 2020 fund balance after the 2019/20 ledgers are closed. All adjustments will be submitted to the Board of Education for approval.

#### **Ending Fund Balance Assumptions**

- 3. The 2020/21 ending General Fund balance is projected to be \$57,165,717 reflecting a net change of (\$11,505,551).
- 4. Components of the ending General Fund Balance include non-spendable amounts of \$150,000 for stores inventory and \$100,000 for revolving cash.
- 5. In accordance with Education Code Section 42130 and the provisions of AB 1200, components of the ending General Fund balance include reserves for economic uncertainties. In accordance with this objective, reserves for economic uncertainties are projected to be \$9,315,060 or 3% of the total General Fund expenditures and transfers out.
- 6. School site/program carryover balances totaled \$1,255,111. This represents unspent school site/program donations that are carried forward to the subsequent budget year. The actual amounts remaining for each site/program are reallocated back to their program budgets by September 15.

7. After excluding all amounts for non-spendable, legally restricted, committed, assigned and reserved for economic uncertainties, unrestricted General Fund unassigned/unappropriated amounts are projected to be \$36,600,459.

#### **Revenue Assumptions**

8. The total budgeted attendance of 23,255.28 (not including District charter schools, county special education, county community schools and SB1446 declining enrollment protection) reflects a decline of 583.43 in District ADA. Average daily attendance is used for purposes of calculating the Local Control Funding Formula (LCFF) Apportionment.

14. Expenditures associated with State and Federal categorical programs are projected not-to-exceed program revenues, except Special Education Master Plan and Mental Health Counselors funded by the Low Performing Block Grant. State funds for Special

Education are inadequate to provide services necessary to meet the needs of the students served. In addition, the Routine Restricted Maintenance (RRM) Program requires an unrestricted General Fund contribution. The unrestricted General Fund contribution to these categorical programs is projected to be The components include: Special Education \$41,695,126. \$33,867,747; Low Performing Block Grant \$165,715; RRM \$9,318,702, offset by Community Redevelopment Funds of The minimum match for Routine Restricted \$1,657,038. Maintenance per Education Code Section 17070.75 is 3% of the total general fund expenditures including transfers out and other financing uses. Additionally, unrestricted state funds provided through the LCFF for Transportation are inadequate to meet the needs of students served and is supplemented by \$9,036,745.

- 15. Certificated salaries are projected to be \$126,099,371, an increase of \$527,324 or .4% from 2019/20.

Eligibility for retiree health benefits and the District's financial contribution varies by employee group and when an employee was hired. Newly hired classified employees are not eligible for retiree benefits. Newly hired Certificated and Leadership employees are only eligible for a District contribution through age 65 at the single employee rate for HMO, dental and vision coverage. The retiree health benefits are projected to be \$5,905,899 and are budgeted in the Retiree Benefit Fund 71.

18. Statutory benefits are projected to be as follows:

STRS	18.40%
PERS	22.68%

- 21. Capital outlay is projected to be \$1,120,868 reflecting the approved biennial bus replacement plan.
- 22. Other Outgo is projected to be \$6,752,000 primarily due to the debt service payment from the issuance and sale of Index Rate Taxable Retirement Health Benefits Funding Bonds, Series A. This amount also includes other capital leases, transfers to the Orange County Department of Education (OCDE) for ADA revenue generated by students placed in county education programs and the related Special Education excess and transportation costs. - 23. Interfund Transfers out are projected to be \$3,670,400.
- 24. All prior-year, one-time expenditures (and applicable revenues) have been eliminated from the 2020/21 budget. All other expenditures (not identified above) are projected to remain flat, with no inflation increases.

#### **Enrollment**

Projecting enrollment is important because the District's enrollment establishes the basis of state revenue, staffing needs, and planning for facilities. Enrollment history, excluding Non-Public and Community Day Schools, is as follows:

2010/11	28,058	0.36%
2011/12	27,860	-0.71%
2012/13	27,525	-1.20%

2019/20	24,914	-1.35%
2020/21 (Estimated)	24,154	-3.05%

#### **Enrollment vs. Average Daily Attendance (ADA)**

Enrollment represents the number of students actually enrolled in a District school on any given date. For the purposes of predicting and comparing historical enrollment, the measurement date used is the "P2" period of apportionment.

ADA is the measure of attendance activity that represents the actual count of students present. ADA reporting to the State is measured on three dates:

December 30 The First Period "P1" Report
 April 15 The Second Period "P2" Report
 End of School The Annual ADA Report

The ratio between ADA and enrollment in California Public Schools is approximately 95%. The ratio history between ADA and enrollment in Orange Unified is as follows:

2012/13	96.4%
2013/14	96.6%
2014/15	96.2%
2015/16	96.1%
2016/17	96.2%
2017/18	95.9%
2018/19	95.7%
2019/20	95.4%
2020/21 (Estimated)	96.0%

Based on P2 Enrollment versus ADA

#### Annual Average Daily Attendance (end of school year)

Lottery Revenues (uses prior year's annual ADA) LCFF Apportionment for Non-Public School and Community Day School

#### **Staffing Composition**

#### Full-time Equivalents (FTEs)

Staffing units are reflected as full-time equivalents (FTEs). Oftentimes, FTEs are shown as fractions. For example, teacher FTEs are related to teaching periods (0.2 FTE = 1 period, 1.0 FTE = 5 periods, etc.). Non-teaching FTEs are related to hours worked (0.375 FTE = 3 hours, 1.0 FTE = 8 hours, etc.).

#### **School Staffing - Certificated Personnel**

The District's staffing for teachers is computed in terms of student enrollment with student/teacher ratios of 30:1 for grades TK-6, and 32:1 for grades 7-12.

#### **School Staffing - Classified Personnel**

The District's clerical staffing for classified personnel assigned to school sites is computed in terms of the instructional levels (elementary, intermediate, and high school) associated to the school site.

#### **Elementary Schools:**

- Regular enrollment x 1.75 minutes plus Special Education enrollment x 2.0 minutes
- Divide the sum by 60 minutes and round to the nearest half hour
- Minimum staffing is 11½ hours
- LMT is included in formula
- Health formula is .00282 x enrollment

#### **Intermediate Schools:**

- Regular enrollment x 2.825 minutes plus Special Education enrollment x 3.25 minutes
- Divide the sum by 60 minutes and round to the nearest half hour
- Minimum staffing is 35½ hours
- Health Clerk of 6.5 hours is not included in formula; Secondary LMT is included.

#### **High Schools:**

Same as intermediate schools, except that minimum staffing is 80 hours

To determine custodial staffing, the District uses staffing formulas that are based on projected enrollments by school site, school building square footage, number of teachers assigned to a site, and number of rooms.

#### **Special Project Personnel**

Certificated and classified personnel are allocated to special projects based on Federal and State categorical program plans. The program and not the District's unrestricted General Fund pay for personnel assigned to a categorical program.

#### Substitutes

Substitutes serving in District-funded programs are typically utilized for one of three reasons: (1) illness or leave of absence provisions, (2) inservices, or (3) short-term resource. Each of these categories is centrally budgeted based on the prior-year expense and current-year needs defined by each program manager. For categorical programs, all substitute expenses are charged to the applicable program.

#### **Non-School Site Staffing**

Non-school site staffing (i.e. central office support services, management personnel, etc.) is based on available unrestricted General Fund resources with attention given to District priorities.

#### **School Resource Allocations**

#### Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

### Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

#### **Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

#### Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

#### Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

#### **CRITERION: LCFF Revenue**

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)1 and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA1 and its economic recovery target payment, plus or minus one percent.

Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

### S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.

# Glossary of Common School Finance Terms

# **Glossary of Common School Finance Terms**

ADA—Average daily attendance. There are several kinds of attendance, and these are counted in different ways. For regular attendance, ADA is equal to the average number of pupils actually attending classes who are enrolled for at least the minimum school day. Ever since 1998-99, excused absences no longer count toward ADA. Attendance is counted every day of the school year and is reported to the California Department of Education three times a year (see Attendance Reports).

Ad valorem Taxes—Taxes that are based on the value of property, such as the standard property tax. The only new taxes based on the value of property that are allowed today are those imposed by voter approval for capital facilities bonded indebtedness, with a vote requirement of either 55% for a Proposition 39 bond or a two-thirds requirement for other bonds.

Apportionment—State aid given to a school district or county office of education. Apportionments for the Local Control Funding Formula (LCFF) and special education are calculated four times for each school year: (1) the Advance Apportionment, which is based on an agency's prior year's state aid, is certified in July, (2) the First Principal Apportionment (P-1) is certified February 20 of the school year corresponding to the P-1 ADA (see Attendance Reports), (3) the Second Principal Apportionment (P-2) is certified by July 2 corresponding to the P-2 ADA, and (4) the annual recalculation of the apportionment is certified in February following the school year (at the same time as the P-1 Apportionment) and is based on P-2 ADA, except for programs where the annual count of ADA is used.

**Appropriation Bill**—A bill before the Legislature authorizing the expenditure of public money and stipulating the amount, manner, and purpose for the expenditure items.

Assembly Bill (AB) 1200—Reference to AB 1200 (Chapter

1213/1991) that imposed major fiscal accountability controls on school districts and county offices of education, by establishing minimum reserve levels and other requirements for agency budgets and fiscal practices. See especially Education Code Sections 1240 et seq. and 42131 et seq.

Assessed Valuation (also, assessed value)—The total value of property within a school district as determined by state and county assessors. The "AV" of a school district will influence the total property tax income of a school district. The percentage growth in statewide AV from one year to the next is an important ingredient in determining appropriations levels required from the state for fully funding district and county LCFF entitlements, as well as for Proposition 98 calculations. Ever since Proposition 13, assessed value is reset to be the true market value only at the time of property transfer or new construction.

Attendance Reports—Each school district reports its attendance three times during a school year. The First Principal Apportionment ADA, called the P-1 ADA or the P-1 count, is counted from July 1 through the last school month ending on or before December 31 of a school year. The Second Principal Apportionment ADA, called the P-2 ADA, is counted from July 1 through the last school month ending on or before April 15 of a school year. Fiscal or annual ADA is based on the count from July 1 through June 30. The final recalculation of the apportionment is based on the P-2 ADA except for nonpublic school, community day school, extended year, and nonpublic school funding, all of which use the annual count of ADA. In addition, under certain circumstances when a district has a very large influx of migrant students in the spring, a district may request the use of annual ADA in lieu of P-2 ADA.

Base Grant—The base grant (along with the supplemental and concentration grants) replaces previously existing K-12 revenue

limits and approximately 40 state-funded categorical funding streams. The base grant varies based on grade span (K-3, 4-6, 7-8, 9-12).

Basic Aid—The California Constitution guarantees that each school district will receive a minimum amount of state aid, called "basic aid," equal to \$120 per ADA or \$2,400 per district, whichever is greater. Per a change in state law, effective 2003-04, state categorical aid is counted first toward meeting the minimum allocation of basic aid (ref. Education Code Section 41975). "Basic aid school districts" are districts where property taxes exceed the computed LCFF entitlement; such districts receive no state aid from the LCFF.

Categorical Aid—Funds from the state or federal government granted to qualifying school agencies for specialized programs regulated and controlled by federal or state law or regulation. Examples include programs for children with special needs, such as special education or special programs, such as child nutrition. Expenditure of most categorical aid is restricted to its particular purpose. The funds are granted to districts in addition to their LCFF entitlement.

CALPADS—The California Longitudinal Pupil Achievement Data System, which is used to maintain individual-level data including student demographics, course data, discipline, assessments, staff assignments, and other data for state and federal reporting.

CalPERS—California Public Employees' Retirement System. State law requires that classified employees and their employer contribute to this retirement fund.

CalSTRS—California State Teachers' Retirement System. State law requires that certificated employees, their employer, and the state contribute to this pension fund.

CBEDS—California Basic Education Data System. The statewide system of collecting classified staffing, graduation requirements, and technology data from all school districts on an "Information Day" each October.

Certificated Personnel—School employees who hold positions for which a credential is required by the state—teachers, librarians, counselors, and most administrators.

Classified Personnel—School employees who hold positions that do not require a credential, like instructional aides, custodians, clerical support, cafeteria workers, bus drivers, etc.

Class Size Penalties—The penalties imposed on school districts that have classes in excess of certain maximum sizes. (Class size penalties result in a reduction in ADA that, in turn, results in a loss in revenue limit income.) See Education Code Sections 41376 and 41378.

Concentration Grant—The concentration grant (along with the supplemental and base grants) replaces previously existing K-12 funding streams. For targeted students (English learners, free and reduced-price meal recipients, or foster youth unduplicated counts) exceeding 55% of a local educational agency's enrollment, the concentration grant will provide 50% of the adjusted base grant.

Consumer Price Index (CPI)—A measure of the cost-of-living compiled by the United States Bureau of Labor Statistics. Separate indices of inflation are calculated regularly for the United States, California, some regions within California, and selected cities. The CPI is one of several measures of inflation.

Contribution—The expenditure of general purpose funds in support of a categorical program, i.e., the categorical expense requires a contribution from the district's General Fund for support. This occurs in most districts and county offices that provide special education and transportation. Contributions to other programs may be caused by deficit factors or local decisions to allocate general-purpose funds to special purpose programs.

Cost-of-Living Adjustment (COLA)—An increase in funding for government programs, including the LCFF target calculation and categorical programs. Current law ties the COLA percentage for most education programs to the annual percentage change in the "Implicit Price Deflator" for State and Local Governments—a government price index. See Education Code Section 42238.1.

Criteria and Standards—Local district budgets must meet state-adopted provisions of "criteria and standards." These provisions establish minimum fiscal standards that school districts, county offices of education and the State use to monitor district fiscal solvency and accountability. See Education Code Sections 33127 et seq.

Declining Enrollment Adjustment—A formula that cushions the drop in income in a district with a declining student population. Under current law, districts are funded for the greater of current year or prior year ADA. See Education Code Section 42238.5.

**Deficit Factor**—When an appropriation to the State School Fund for any specific program is insufficient to pay all claims for state aid, a deficit factor is applied to reduce the allocation of state aid to the amount appropriated.

Education Protection Account (EPA)—The EPA was created by Proposition 30 of 2012, which increased sales and income taxes on a temporary basis. Funds collected from the increased taxes are deposited into the EPA, which is then issued to local educational agencies as a replacement for the state aid portion of the LCFF.

**Education Revenue Augmentation Fund (ERAF)**—The fund used to collect the property taxes that are shifted from cities, the county and special districts within each county, prior to their distribution to K-14 school agencies.

Educator Effectiveness Grant—In 2015-16, the State Budget provided funding for Educator Effectiveness to school districts, county offices of education, charter schools, and state special schools with certificated staff. The funds may be used to support the professional development of certificated teachers, administrators, and

paraprofessional educators. A plan must be developed and approved by the Board and all expenditures must be completed by June 30, 2018.

Excess Cost—Costs in excess of the average annual per-student expenditure (all resources) in a local educational agency during the preceding school year for an elementary or secondary school student and is computed after deducting (Title 34 Code of Federal Regulations 300.16 and 300.202):

- Amounts received under Part B of the Elementary and Secondary Education Act (ESEA)
- Amounts received under Part A of Title I of the ESEA
- Amounts received under Parts A and B of Title III of the ESEA
- Any state or local funds expended for programs that qualify under this subsection, but excluding any amounts for capital outlay and debt service
- ✓ Each must be calculated separately

Forest Reserve Funds—25% of funds received by a county from the United States Government from rentals of forest reserve lands are apportioned among the various districts in the county according to scholastic population.

Full-Time Equivalent (FTE)—The ratio of time expended in a parttime position to that of a full-time position.

Gann Limit—A limit on the appropriation of tax revenues of all levels of California government—the state, cities, counties, school agencies, and special districts imposed by Proposition 4, an initiative passed in November 1979 (ref. Article XIIIB of the California Constitution). Using 1978-79 as a base year, subsequent years' limits have been adjusted for: (1) an inflation increase, which is currently equal to the annual change in California per capita personal income, and (2) the change in population, which for school agencies is the change in ADA. Although officially called "Appropriation Limits," these limits are

commonly called "Gann Limits" after Paul Gann, the author of Proposition 4.

**Gap Funding**—The amount of funding provided in the annual State Budget Act to move local agencies toward their LCFF target for each year of the estimated eight-year implementation period.

Grade Span Adjustments (GSA)—Added to the base grants in the LCFF calculation. There is a 10.4% GSA for reducing class sizes in grades TK-3 and a 2.6% GSA for career-technical education that applies to grades 9-12.

Hold Harmless—A formula providing a guarantee of no loss in funding for an agency when a change in law or data would otherwise require a loss in funding.

Implicit Price Deflator—See Cost-of-Living Adjustment.

Individuals with Disabilities Education Act of 2004 (Formerly PL94-142)—States must develop and implement policies that assure a free appropriate public education to all children with disabilities. The state plans must be consistent with the federal statute, Title 20 United States Code Section 1400 et seq.

Local Control Funding Formula (LCFF)—The LCFF, which replaced revenue limits and most categorical programs starting in 2013-14. A district or charter school can collect the amount annually from local property taxes and state aid. It is comprised of a base grant by grade span multiplied per unit of ADA, with grade span adjustments for class-size reduction in grades TK-3 and for career-technical education at the high school level. Supplemental and concentration grants are added based upon the percentage of the student population that is free and reduced-price meal (FRPM) eligible, English learners, and foster youth, unduplicated.

Local Control and Accountability Plan (LCAP)—Under the new LCFF, districts, county offices of education, and charter schools are required to create a three-year LCAP, which will describe how annual

goals will be met and address state and local priorities identified in Education Code Section 52060(d). The State Board of Education is required to create evaluation standards to assist with analyzing strengths, weaknesses, areas of improvement, technical assistance, and identify intervention needs.

Mandate Block Grant (MBG)—In 2012-13, the MBG program was established for local educational agencies (LEAs) (county offices of education, school districts, and charter schools [both direct and locally funded]) that elect to participate to receive reimbursement for 42 mandated activities (specified in Government Code Section 17581.6[e]). LEAs make an annual choice to receive funds for mandated activities either through the MBG or through the traditional claim reimbursement process, for with reimbursements have been suspended indefinitely. The MBG funds are unrestricted and allocated on a per-average daily attendance rate.

Mandated Costs—School district expenses that occur because of federal or state laws, decisions of state or federal courts, federal or state administrative regulations. See Senate Bill (SB) 90, 1977, and Proposition 4, 1979.

Maintenance Factor—See Proposition 98.

**Miscellaneous Funds**—Local revenues received from mineral royalties or bonuses and other payments in lieu of taxes. Fifty percent of such revenues are used as an offset to state aid in the LCFF.

**Necessary Small School (NSS)**—An elementary school with 96 or fewer or high school with 286 or fewer ADA that meets the standards of being "necessary." See Education Code Sections 42280 et seq.

Parcel Tax—A special tax that is a flat amount per parcel and not ad valorem based (i.e., not based on the assessed value of the property). Parcel taxes must be approved by a two-thirds vote of the electorate. See Government Code Section 50079, et al.

Permissive Override Tax—Prior to Proposition 13, any of a number of local tax levies that were for specific purposes and that required only the permission of a school board to be levied. School agencies are no longer allowed to levy such taxes.

PL81-874—A federal program of "Impact Aid" that provides funds to school agencies that educate children whose families live and/or work on federal property, such as military bases. Also called "PL874."

**Prior Year's Taxes**—Tax revenues that had been delinquent in a prior year and that are received in the current fiscal year. These revenues offset state aid in the current year in the LCFF.

Proposition 13—An initiative amendment passed in June 1978 adding Article XIII A to the California Constitution. Under Proposition 13, the maximum total property tax rate for all government operations—including school agencies, cities, counties, and special districts—is 1% of assessed value and additional property tax levies may only be made

- "Test 2" provides that K-14 school agencies shall receive at least the same amount of combined state aid and local tax dollars as was received in the prior year, adjusted for the statewide growth in K-12 ADA and an inflation factor equal to the annual percentage change in per capita personal income.
- "Test 3" only applies in years in which the annual percentage change in per capita state General Fund tax revenues plus 1/2% is lower than the "Test 2" inflation factor (i.e., the change in per capita personal income), in which case the inflation factor is reduced to the annual percentage change in per capita state General Fund tax revenues plus 1/2%.

One of the provisions of Proposition 98 (as amended by Proposition 111/1990) applies only if the minimum funding level is reduced due either to "Test 3" or the suspension of the minimum funding level by the Legislature and Governor. In such a situation, a "maintenance factor" is initially set equal to the amount of that year's funding reduction due to "Test 3" or suspension, and this amount grows each year by

for voter-approved debt. Proposition 13 also defined assessed value and required a two-thirds vote to levy any special purpose tax.

Proposition 98—An initiative adopted in 1988 and then amended by Proposition 111 in 1990. Proposition 98 contains three major provisions: (1) a minimum level of state funding for K-14 school agencies (unless suspended by the Legislature); (2) a formula for allocating any state tax revenues in excess of the state's Gann Limit; and, (3) the requirement that a School Accountability Report Card be prepared for every school. The minimum funding base is set equal to the greater of the amount of state aid determined by two formulas, commonly called "Test 1" and "Test 2" unless an alternative formula, known as "Test 3," applies.

• "Test 1" originally provided that K-14 school agencies shall receive at least 39.5% of state General Fund tax revenues in each year, the same percentage as was appropriated for K- 14 school agencies in 1986-87.

statewide ADA growth and the "Test 2" inflation factor. In subsequent years when state taxes per capita grow faster than personal income per capita, this "maintenance factor" is restored by increasing the Proposition 98 minimum funding level until the funding base is fully restored. This restoration process is applied prospectively only, and there is no requirement that the revenue loss in the year or years prior to the maintenance factor being fully restored be made up.

**Reserves**—Funds set aside in a school agency budget to provide for economic uncertainties, future expenditures, working capital, or other purposes.

ROC/P—Regional Occupational Center or Program.is a vocational educational program for high school students and adults. An ROC/P may be operated by a single district, by a consortium of districts under a joint powers agreement (JPA), or by a county office of education for the districts within the county.

# Senate Bill (SB) 90—Reference to either:

- 1. SB 90/1972, which established the revenue limit system for funding school districts. The first revenue limit amount was determined by dividing the district's 1972-73 state and property tax income by that year's ADA. This original per-ADA amount became the historical base for all subsequent revenue limit calculations.
- 2. SB 90/1977, which required that the state reimburse state-imposed mandates on local governments.

SB 813—Reference to Senate Bill 813/1983 that provided a series of education "reforms" in funding calculations. Longer day, longer year, mentor teachers, and beginning teacher salary adjustments are a few of the programs implemented by this 1983 legislation.

**Secured Roll**—That portion of the assessed value that is stationary, i.e., land and buildings. See also *Unsecured Roll*. The secured roll averages about 90% of the taxable property in a district.

Serrano Decision—In 1974, the California Superior Court in Los Angeles County ruled in the Serrano v. Priest case that school district revenues in California depended so heavily on local property taxes that students in districts with a low assessed value per pupil were denied an equal educational opportunity in violation of the "Equal Protection" clause of the California Constitution. This ruling established certain standards under which the school finance system would be constitutional and was upheld by the California Supreme Court in 1976. In 1983, the California Superior Court in Los Angeles County ruled that the system of school finance in effect at that time complied with the earlier Court order. After several appeals, in March 1989, all of the plaintiffs in the case agreed to dismiss their legal challenges, thereby settling Serrano as a legal issue.

**State School Fund**—Each year the state appropriates money to this fund, which is then used to make state aid payments to school agencies. Section A of the State School Fund is for K-12 education and Section B is for community college education.

**Subventions**—The term used to describe assistance or financial support, usually from higher governmental units to local governments or school agencies. State aid to school agencies is a state subvention.

Sunset—The termination of a categorical program. A schedule is in current law for the Legislature to consider the "sunset" of most state categorical programs. If a program sunsets under this schedule, the funding for the program shall continue for the general purposes of the program, but the specific laws and regulations shall no longer apply.

**Supplemental Grant**—Created under the Local Control Funding Formula, the supplemental grant (along with the concentration and base grants) replaces previously existing K-12 funding steams. The supplemental grant equals 20% of the adjusted base grant for targeted disadvantaged students (English learners, free and reduced-price meal recipients, or foster youth unduplicated counts).

**Supplemental Roll**—An additional property tax assessment for properties that are sold or newly constructed that reflect a higher market value than on their prior lien date. By taxing this increase in assessed value immediately—rather than waiting until the next lien date—additional property taxes are generated.

Test 1/Test 2/Test 3—See Proposition 98.

**Transitional Kindergarten (TK)**—A developmentally appropriate program offered to children (at ages 4 or 5) that are too young to start Kindergarten in that year. Essentially, California offers a two-year Kindergarten program.

**Unsecured Roll**—That portion of assessed property that is movable, such as boats, planes, etc.

Waivers—Permission from the State Board of Education—or, in some cases, from the Superintendent of Public Instruction—to set aside the requirements of an Education Code provision upon the request of a school district. See Education Code Section 33050.
