WINONA AREA PUBLIC SCHOOLS ENROLLMENT PROJECTIONS ASSUMPTION STATEMENTS

1. The “Cohort Survival Ratio” * method used in projecting enrollments for Winona Area Public Schools by analyzing enrollment trends will continue to be a very accurate methodology.
2. Moderate fluctuations in the local economy will result in minimum impact upon student enrollment projections.
3. Open enrollment will have moderate impact upon projections.
4. Nonpublic and charter school’s enrollments will have a moderate impact on projections.
5. The communities comprising the Winona Area Public Schools will have minimal growth over the next five to ten years.

*Mathematical technique which uses past enrollment trends to project future trends. The Winona Area Public Schools uses the projection model recommended by the Minnesota Department of Education.

WINONA AREA PUBLIC SCHOOLS PRE-SCHOOL CENSUS DATA COLLECTION

The Information Systems (IS) Department of the school district receives information on pre-school students in the following ways:

1. Minnesota Department of Health sends a birth list each month of babies born to parents with residences in the following areas; City of Winona, Dakota, Minnesota City, Rollingstone, Minnetonka and Stockton. The list includes the date of birth, gender, parent/guardian name and residence.
2. Parents completing student registration forms for their children are asked to include information on siblings in the household, including preschooler's.
3. New information received at Early Childhood Screenings is submitted to IS.
4. Early Childhood Family Education (ECFE) programs submit information to IS regarding parents of pre-schoolers who participate in classes or have received hospital visits for newborns.
5. A census form requesting information on pre-schoolers in the district is mailed out each fall to each district household.
6. Area newspapers are scanned for birth information.

Note: The Winona Area Public School district is one of three districts in Winona County. The district also borders the state of Wisconsin. There are two Wisconsin hospitals within 30 miles of our district that provide obstetrics care. Due to data privacy laws, Wisconsin does not share specific information regarding births of Winona County residents that occur in Wisconsin. The district is able to get a number of the total births of Winona county residents that occur annually in LaCrosse, but not the place of residence. Thus, it is difficult to determine which school district the resident is in.

ENROLLMENT INFORMATION & DEFINITIONS

All enrollment contained in these documents was obtained from the Minnesota Department of Education (MDE) Data Center (<http://education.state.mn.us>). The Data Center was created to provide a repository of information about Minnesota schools. Several years of data have been compiled describing general characteristics of each school district.

In most cases, data files for the current year are available and some extend back to the 1989/1990 school year.

The Department finalizes student and staff data in March or April of each year. Periodically, data files are updated with minor revisions to some districts. The date which appears next to each file (on the website) indicates either its initial posting date or its last revision date.

Student enrollment data in these documents is reported in two formats: Average Daily Membership (ADM) and Headcount.

ADM: Average Daily Membership (ADM) is calculated based on the year-end data reported by school districts via the Minnesota Automated Reporting Student System (MARSS). ADM represents the portion of the year that a student is enrolled in the district; it includes time that the student is scheduled to attend school but was absent.

Headcount: the number of students enrolled on October 1. This number is updated periodically throughout the year as more accurate data becomes available.

Pupil Units: Pupil Units (PUN, also called weighted ADM or WADM) are calculated based on the year-end data reported by school districts via MARSS. The weightings used for pupil units are specified in statute and are dependent on the student's grade level.

Data Source:

For non-exempt employees one FTE is equal to 8 hours. FTE does not include substitutes, coaches, or other position hired sporadically.

Educational Assistants, Office Professionals, School Nutrition (Inc. Head Cooks) Maintenance, includes members of their bargaining groups.

Crossing Guards/Supervisors includes only those employed to provide just this service.

Non Affiliated includes employees not affiliated with any other group, including Miller Mentoring, interpreters & LPN's. Key Kids staff are excluded from this count.

District Administration

District Administration includes the superintendent, members of the administrator's group, minus ELOSA, members of cabinet and the activities director. In previous demographic books the director of buildings and grounds was not included in this listing. The FTE has been adjusted and now includes that position for each year.

In 2010-11 the Director of academic affairs position and assistant principal at the WSHS were eliminated.

In 2011-12 the 1.0 fte special education director was transferred from HVED to the district. Additionally, the WALC/Charter School Liaison was allocated a half time principal.

In 2012-13 the ELOSA with WSU was terminated and the administrator returned full time to the district, adding the "Birth to Grade Three" initiative.
