

# 4 WEEKS, 4 DIFFERENT THEMES!

4 SETTIMANE, 4 DIVERSI TEMI  
COINVOLGENTI!!!

## WHAT A WONDERFUL WORLD

Our precious planet needs some attention! What can we do to reduce our impact and recycle what we use? We will learn more about our environment, explore the ecosystems and biodiversity on campus, and create some projects with used materials!

## LET'S CELEBRATE!

Our concluding week will be all about celebrating! We will explore different festivities from around the world. From the north pole to the equator and then heading south. What do people celebrate and how? Music, food, games and more!

## LAND, SEA, AND SKY

Getting ready to embark on our summer camp adventure together? Also looking at ways people travel?

## WATER, WATER EVERYWHERE!

A week focused on all things water based. With water games and experiments, learning about the ocean, the creatures who live in it, the water cycle and more! Time to cool off from the heat and get wet!
