### June 15 Morning Sessions 10:00-Noon

**Princess Party** - This is one fairytale, magical camp! Each day we will host our favorite princesses at camp! We will explore classic and new princess stories and will enjoy songs, games, crafts, and activities all linked to celebrating the princess in each and every one of us. Our camp experience will culminate with a princess tea party! Fancy dress is welcome!

**Ukulele Studio** -What better way to fill your summer than learning a new instrument or improving the skills you already have with your favorite music teacher Mrs. Lettan! This camp experience includes a brand new ukulele for each camper to design and learn from! All campers will learn the basics of playing ukulele: how to hold it, tuning, strumming, chords, songs, and more. We will learn to play individually and as a group- a challenge for sure online. Friday we will hold a "live" showing for friends and family. \* This camp includes the cost of your own Ukulele\*

**Paper Mache** - Join us this week to learn the art of papier-mache! Prepare to get messy as your creative brain gets working. Ms. Gugliotta will walk you through the steps of creating new and amazing sculptures. Each day will be filled with new challenges and chances to learn and gain skills. Campers will work to create large and small sculptures connected to food, animals, and everyday objects. Materials needed: newspaper, masking tape, liquid glue, paint, brushes

**June 15 1:00- 3:00**

**Needle Felting** - Looking for a new craft to learn during your time at home? Join Ms. Mueller every afternoon as you learn the art of needle felting! Each day campers will meet together online, learn about a new technique and then spend time mastering and creating together. Each day will bring a new technique to help with our projects.

We will create animals, people, landscapes, or any wild creation that comes to mind while experimenting with different colors, textures, and shapes, as we navigate our new felting skills together apart. \*150 PC needle felting kit included in the cost

**Video Game Design** - Calling all gamers! Now is the perfect time to hone your programming skills! Have you ever wished you could play a game with a giant taco running through the woods? ... Probably not, but, let your imagination run wild as you create the game of your dreams. Campers will work through the gaming process as they design their storyline, build characters, and have them

come to life on the screen. The best part? Campers will have a game that they can continue to develop throughout the summer and beyond! \*Campers will need access to a computer- not a tablet for this program

---

## JUNE 22 10:00-NOON

**STEAM @ Home-** Join us this week ONLINE for a STEAM @ Home extravaganza! You will need some simple household materials and a mason jar! Each day young scientists will come together, put on their scientist hats and get to work. We will create everything from tornados, rubber eggs, kaleidoscopes, edible treats and MORE!

**Fractured Fairy Tales-** Was the Big Bad Wolf really trying to hurt the Three Little Pigs? How did the Step-Sisters remember Cinderella's night at the ball? What do you think Jack would discover at the top of the Beanstalk in 2020? This week we will be exploring some well-known fairy tales and exploring new ways to reimagining them in a whole new setting. Or we will come up with our own new tales of adventure and magic. Come ready to write your own update of one of these tales. Campers will share their new adventures on Friday

with a "live" publishing party!

**Clay Studio** - Join us this week for clay creations with Ms. Gugliotta. We will learn many clay building techniques... in our own homes! We will practice making bowls though pinching and coiling. We will make animals and our own zany creations and make ceramic flowers to "plant" in WT's garden!

**\*\*We will coordinate a contactless drop-off and pick up\*\***

**\*Material costs included in camp\***

## JUNE 22 1:00-3:00

**Gone for a RUN-** Join Ms. H for a week of cardio exercise challenges! Each afternoon will begin with coming together, learning some healthy tips, tricks, and race training strategies from the marathon expert herself! Campers will learn the basics of healthy eating, participate in stretches and warm-up exercises, and then be given a step-challenge goal for that day on their very own WT Summer Camp pedometer. Our goal will be to log a half marathon by the end of the week (13.1 miles)!

**Rube Goldberg-** Join Mr. T for a week of wacky invention, creativity, and imagination as you work to create your very own Rube Goldberg Machine. A complex machine designed to do a hilariously simple task. Each day campers will learn about a new skill they can add to their machine using household items! We will learn about levers, pulleys, force and motion, and how to get creative with what we have. Start your brainstorming NOW!

## June 29 10:00-Noon

**Dance Party Extravaganza-** Has your bedroom turned into your very own performance stage during quarantine? Do you catch yourself dancing down the street? Come join us for an epic week of dance instruction with Ms. H who has been teaching dance for over 15 years. Each day dancers will come together to learn about dance, talk to their fellow campers, warm up and learn new dances linked to ballet,

tap, jazz to help choreograph our performance. Friday will end in a "live" show featuring our very own dance and a dance party for friends and family. All abilities welcome

## WT SUMMER CAMP GAZETTE

### Calligraphy Creations

By Nathan and Rayann

**Tuesday, July 16<sup>th</sup>** - This morning in the music room, students were hard at work writing in calligraphy. When asked what calligraphy was, students surprisingly gave differing answers. One boy explained that calligraphy was simply, "Fancy writing."

A girl, however, gave a more in-depth answer, saying that calligraphy was a type of writing where you used a special marker (called a double-headed chisel tip marker) to write letters using strokes.

So far, according to a student, they have learned how to write

calligraphy and are practicing to become better. This week campers will learn about different types of calligraphy and how to write them. They will also write full sentences, inspiring quotes, and make a fun case for their tools at the end.

**Wednesday, July 17<sup>th</sup>** - When we asked a student why calligraphy was useful, a girl said that using calligraphy, you can write letters in each other. The students gave this camp 4.5 out of 5 stars and 3 students were asked if school or camp is better. The majority said they like both equally.

All the students write great calligraphy and the WT Camp Gazette can't wait to see their finished artwork!

### Reporting at Camp Gazette

By Bianca

In Camp Gazette you gather up information to make a newspaper to share with your family and friends. Through the past week, you can go around the camp and interview campers about the camp that they're in to get information, and once you are finished writing, you get to take pictures for your document. I would recommend this camp because the counselors are nice, and it is fun.

Briana and Alisa working together for a story.

**WT Pandemic Gazette** - Campers, if there was ever a time to record our lives it is NOW! We are living right in the middle of a historical event that will forever be linked to the summer of 2020. Join the Summer Camp Gazette to help record this slice of history! As journalists, campers will learn about the importance of primary sources, learn and apply interview techniques, and document what is happening in the world around them. This camp will culminate with a digital newspaper. This camp is for anyone interested in reporting the facts, recording history, writing, telling stories, and more. Campers will need easy access to GoogleDocs

**Power Sculptures-** Want to make a REAL magic wand? How about a sculpture of your dog? Run to the art supply store and fill your basket with this and that? NO WAY! Look under YOUR BED! Collect a party favor from your best friend's birthday, a pebble from a trip to the beach, the foil wrapper, a piece of tinsel leftover from new years eve...Then combine with care and attention, this wand will be truly magical. This kind of sculpture is

---

called bricolage. We will learn all about it as we create our own artworks out of found materials.

Required Materials:

Glue sticks, String, Tape, materials.

Suggested Materials:

Recycling--objects and paper, Stapler, Any craft supplies you already have, Wire

**JUNE 29 1:00-3:00**

**Jedi Knight Training-** A long time ago in a galaxy far, far away... we were all able to be together in person. This summer we wanted to be sure to bring the Jedi Knights to your living room. Join Jedi Master Cooper as he works to train padawan apprentices. Days will be filled with problem-solving challenges, movie trivia, character research, age-old debates about the films, and physical training drills that support the Jedi Code toward a peaceful and cooperative galactic society. Will the Jedi Counsel find you fit to become a

Jedi? Time will predict if, succeed, you will.

**3D Printing Studio-** Join us this week as Ms. Farrand takes us through the ins and outs of 3D printing and design! Campers will learn how to use 3d printing to solve problems, create inventions, and design new and innovative tools. Each day they will work on projects and learn how to make designs in Tinkercad. At the end of the week, the campers will work on one design to print and have it mailed to your house! Take advantage of this time to learn an amazing new skill! Campers will need the use of a computer- not a tablet or phone

---

**JULY 6 10:00-NOON**

**BEADDAZZLE-** What better way to spend summer afternoons than making beaded creations. This week come together with some of your favorite crafters and the wonderful Ms. Friedman to work on beading, braiding, knotting, and MORE! Campers will have a chance to work on their fine motor skills and explore the art of making necklaces, rings, keychains, friendship bracelets, and other beaded magic. Some we will keep forever and others we will hold as

memories as we feel the joy in gifting our handmade pieces. If you enjoy making, wearing, or sharing jewelry, this class is for you!

**Outdoor Adventure-** It is no secret that Mr. Cooper loves Star Wars but, did you know he is ALSO an outdoor expert!? Use this time to explore and engage with your natural environment. Whether you live in the city or in the country, become one with your natural world...online. Mr. Cooper will guide you through interactive videos, educational projects, environmental crafts, and discussions on our outdoor habitat. Campers will also learn about trip planning and safe travel in the outdoors. It's time to start planning that camping trip!

**Zine Studio-** Join WT's visiting artist from the 2019-2020 school year and WTa3 teacher Mr. Koch as you spend the week working on creating, designing, and unique-ifying your zine. A zine can be a messy hodgepodge of personal thoughts, a series of stories written by you about your favorite book, movie, or video game, or a "how-to" guide on a subject of your choice --anything you want! Each day will be filled with developing works of art, learning new techniques and skills that campers can practice with daily!

**JULY 6 1:00-3:00**

**Acting Up!-** Join Ms. Boone and Ms. Eliot who have over 30 years combined acting and stage experience for an epic week of drama, action, laughs, and adventure as campers explore what makes a good script and examine what makes an actor memorable on stage. Get ready to create your own character, write your own skits, design costumes, and perform a group musical number by the end of the week!

**LEGO LAB -** Do you have boxes and bins of LEGOS at home? Maybe just a few lying around? Know that you love to build with them but are feeling uninspired? This week we are going to take our love of LEGO and creation to the next level. Each day will come with a new challenge as we make everything from self-portraits, to lego games, mazes and MORE. We will see where our imaginations can take us as we create together, apart. Come create, wreck, and repeat with us. Friday we will host a "live" LEGO showcase giving campers the chance to share with friends and family that they have created.

## July 13 10:00-Noon

**Bling 101-** Magpies are birds that are said to love anything SHINY and to fill their nests with treasures from silver watch chains to candy wrappers. This summer we will all become magpies by focusing in on the bling all around us from the crown jewels to the recycling bin. We will work with the ordinary household materials that we have to create beautiful objects which glitter, glimmer, and gleam.

Required Materials: Tin foil, Glue sticks, String, Tape

**Home Gym Fitness-** Join Mr. Cooper as he helps you turn your home into a personal fitness gym. No membership required. Get fit and have fun staying active in the comfort of your own home. Explore creative ways to exercise through fun activities and games with friends and family members. From ballet to bodybuilding, swing sets to swimming pools, campers will develop their own individualized exercise program through a series of fun interactive videos and online discussions.

**Stop Motion Animation-** Create your own stop motion animation! In this class we will learn about character development, storyboarding, and setting up scenes and editing tools. Students will need to have access to a tablet or phone where a free animation app can be uploaded.

## JULY 13 1:00-3:00

**Doodle of the Day -** Grab your sketchbook and get to doodling! We will learn how to doodle animals, people, and designs in your sketchbook. We will also try our hand at taking doodle notes while listening to stories and practicing writing fancy letters. Materials needed: sketchbook, colored pencils, thin sharpies, & blank sticker sheets.

---

**SCRATCH got Talent** - Join us this week as we learn the ins and outs of SCRATCH! Each day Ms. Farrand will teach campers new skills and providing fun challenges and helpful tips and tricks. Campers will work in small groups and alone to come up with their scratch talent show article. On Friday we will showcase "LIVE" the winner of WT Summer Camp Scratch's Got Talent Season 1.

---

## JULY 20 10:00-NOON

**Adventures in Unicorn Land-** Grab your most magical stuffy and join Ms.Haluszczak on a magically mystical adventure. This week is going to be filled with glitter, rainbows, stories, crafts and MORE! There is no end to the magic that we will create in this camp as we go over the rainbow and these young artists let their imaginations soar. These unicorn lovers will spend their camp time creating, coloring, and designing their way through the week. Campers will come together each day for story sharing, learning, and fun!

**Jedi Knight Training-** A long time ago in a galaxy far, far away... we were all able to be together in person. This summer we wanted to be sure to bring the Jedi Knights to your living room. Join Jedi Master Cooper as he works to train padawan apprentices. Days will be filled with problem-solving challenges, movie trivia, character research, age-old debates about the films, and physical training drills that support the Jedi Code toward a peaceful and cooperative galactic society. Will the Jedi Counsel find you fit to become a Jedi? Time will predict if, succeed, you will.

**Architect Design Studio-** Calling all architects! Join us this week as you take a deep dive into designing and creating new structures with materials you have at home! Ms. Gugliotta will take each day to talk about design elements, help campers with ideas, learn new techniques and get creative with our everyday materials around the house. Join us this week and let your imagination fly!

## July 20 1:00-3:00

**Storytelling with a Twist-** Join Mrs. Lettan this week as we dive into the theatre art of Foley- or in other words- adding sound effects into a production. Did you know that they use coconut shells to make horse noises in cartoons? Or that some people are paid to make alien sound effects for movies?

This week we will learn all about sound effects, how to create them, where they come from, and try out different sounds in our own favorite stories! Campers will work in small groups to create their own narrated stories full of sound effects. At the end of the week we will share our stories in a live performance! Campers will need nothing other than their computers and found items around the house.

**Game Show Showdown** - For years, Minute to Win It has been the hottest game show of WT Summer Camp. Now, that title is in serious Jeopardy. Mr. T is offering you a chance to experience the Game of Games. The Countdown is on, The Price is Right, and the timing couldn't be better. You can Shop 'Til You Drop and you won't find another offer this good. So I ask you... Deal, or No Deal?

## JULY 27 10:00-NOON

**Recycled Engineer-** This week we will become online engineers! However we will not be working in a fancy lab with the latest materials, we will be working from home using the most sustainable materials we can find... recycled ones! With the help of engineering expert Ms. Farrand, you will learn all about different ways to make machines and experiments. Start saving those toilet paper rolls!

---

**Fiber Arts** - Weaving, looming, finger knitting, and more! Join Ms. Gugliotta as we try our artistic skills on in fiber arts! Each day will be filled with new techniques linked to different kinds of soft arts. Campers will learn to make their own yarn out of old t-shirts, design their own loom, create wall tapestries, and make a felted bowl!

\*Kits of your basic fiber needs will be provided via contactless pick-up\*

**Invest for Success** - Is it a bear or bull market? This week campers will come together and learn all about the stock market! Ms. Cunningham will cover the basics of the rise and fall of the market. Then campers will use their knowledge to begin creating and managing their own portfolio.

**JULY 27 1:00-3:00**

**Zip, Zap, Zop Improv Studio** - We could all use a good laugh right about now! Join Mrs. Lettan this week for some hilarious jokes, costume contests, character building, stage skills, and improv games. Campers need nothing but themselves and the everyday items lying around their houses.

**Build It-** Legos, magnatiles, plus-plus blocks, cardboard, couch pillows, and more! One thing is for sure our homes are filled with things for us to build with! Each day campers will come together discuss building strategies, learn design thinking, and be given a challenge for the day. Campers can choose to keep their screen on while they venture off to build and troubleshoot with small groups and come back together to share their amazing new creations! Get ready to design, build, and repeat!
