

Interior Design 1

Course Description

This course explores the field of interior design through engaging learning activities. Identification and use of the elements and principles of design are emphasized. Other topics are furniture arrangement, floor plan evaluation, space planning and design related careers. Skills learned can be applied to current living environments and future career options.

Priority Standards / CTE Strands

- Investigate common design styles.
- Demonstrate professional design presentation techniques.
- Identify the two basic types of design.
- Identify and explain the basic elements of design or “tools” used to create a design: line, shape, form, space, texture, pattern, light and color.
- Identify the terms associated with the color wheel and the major color schemes.
- Identify and explain the basic principles of design or “rules”/guidelines of design: scale, proportion, balance, rhythm, emphasis/focal point and harmony.
- Explain the design and function of interior space.

Performance Skills

- Complete FCCLA Step One
- Complete a project representing the design styles.
- Demonstrate proficiency in professional lettering and mounting techniques by hand as well as digitality.
- Present visual examples of the elements & principles of design and explain each concept.
- Present visual examples of the use of color schemes.
- Label a residential floor plan with the three living zones and indicate the functions of each zone.
- Identify and label common floor plan symbols.
- Present furniture arrangement in a living room, family room, and bedroom considering the basic guidelines in each space.
- Create a space plan and presentation for an ensuite (bed/bath combo) using the elements and principles of design, color schemes, and furniture arrangement. Integrate CTSO FCCLA into the course.
- Integrate CTSO FCCLA into the course.
- Develop professional and interpersonal skills needed for success in the industry.
