

## Interior Design 2

### **Course Description**

*This course provides students the opportunity to develop skills in applying the elements and principles of design to interiors. Projects are integrated throughout the course to provide applications as the students study: architecture, furniture styles and constructions, surface treatments and backgrounds, design and function of space and lighting.*

### **Priority Standards / CTE Strands**

- Review the elements and principles of design.
- Identify architectural features and styles.
- Understand components of construction documents -a set of plans that a builder uses.
- Identify and explain various textiles
- Distinguish features of selected furniture styles and characteristics of quality furniture. Furniture styles combined like housing.
- Identify and explain various interior surface treatments, backgrounds and lighting.
- Understand the elements of an appropriate visual presentation.

### **Performance Skills**

- Complete a project related to architectural styles and features.
- Draw or draft a portion of a floor plan by hand or digital. Use a minimum of 3 attached rooms. (Can be commercial, residential, or use the FCCLA scenario.)
- Complete a project related to furniture styles and features.
- Design a presentation board and description for one or more rooms.
- Integrate CTSO FCCLA into the course.
- Develop professional and interpersonal skills needed for success in the industry.
