

DISCOVER ARCHITECTURE OKLAHOMA STATE UNIVERSITY

The Discover Architecture Summer Workshop introduces the fields of Architecture and Architectural Engineering to potential university students through academic projects that are designed to stimulate creativity.

Dates

There are two opportunities to attend the week long workshop:

June 22-26, 2020 , or

July 6-10, 2020

Students should choose which of the two sessions they wish to attend.

The workshop will be held virtually, in interactive zoom meetings. We will begin at 1:30pm with a project introduction, allow time for students to work on the projects at home, and then reconvene to review and discuss the participant's work. We will conclude by 5:30pm each afternoon.

Eligibility

Students who are at least 15 years old are eligible to attend.

Participation Fee

There is a \$50 fee for participants to attend the virtual workshop. This fee covers instruction by award winning OSU faculty during the workshop. The workshop is sponsored by OSU and several architecture firms from OKC and Tulsa, which allows the program to be offered at such a low cost to participants. General supplies will be needed during the workshop - paper, scissors, tape, etc. A supply list will be provided before the workshop.
