Faribault, Minnesota

Educational Program  
Series 600

**FIELD TRIPS AND EXCURSIONS**  
Code No. 603.3

The Board of Education recognizes that a properly planned, well-conducted, and carefully supervised field trip is a vital part of the curriculum of any classroom. Such student trips of significant value are to be encouraged.

Guidelines:

1. All field trips must be approved by the building principal.
2. School transportation vehicles, chartered buses, or other approved transportation will be furnished for all trips sponsored within the spirit of the above statement.
3. The district may require each pupil participating in the field trip to present a permission slip signed by the parent or legal guardian to the teacher in charge, granting the pupil permission to make the trip.
4. All reasonable necessary charges relating directly to a regular field trip will be paid for by the school district.
5. An evaluative report may be requested by the building principal from the participating teacher, or teachers, following an educational field trip.
