

# Welcome to D3 My Way!

Dear Parents and Students:

Welcome to D3 My Way! Widefield School District #3 continues to foster a blended learning program designed to provide students with an alternative to the traditional learning environment. Over the years, students have appreciated the flexibility and personalized instruction they experience in the program. In addition, our staff members work hard to maintain a positive culture and climate to ensure that students feel connected to the D3 My Way community.

The teachers at D3 My Way use a comprehensive curriculum connected to the Colorado Academic Standards and deliver instruction using the most up to date virtual tools. In addition, they monitor and adjust our blended learning model to ensure we are maximizing the levels of engagement for all learners. One of the most impactful components of the program are Connection Days. On these days, students have the opportunity to receive face-to-face instruction and support. Furthermore, highly qualified teachers build positive relationships with students, guide them through rigorous curriculum, and help them stay actively engaged in the learning process by holding workshops designed for students to learn specific skills. Our staff also provides students with timely and descriptive feedback to help improve their performance and increase the likelihood of success in the program.

As with any educational institution, we want our students to leave D3 My Way with the academic and social skills they need to thrive in our society. We also want our students to leave the program with the ability to work through any challenges they might face later on in life. Please take the time to read the expectations outlined in our handbook. We want all of our students to understand what it takes to be successful at D3 My Way. Best of luck!

Sincerely,

Shane Skalla, Principal
