

Yearly Medical Regulations

Delbarton uses **Magnus Health** for online student healthcare records. Parents will receive an email in the spring, requesting that they complete the following information before July 1 of **every** school year:

1. Student's medical history and emergency contact information
2. Immunization record in compliance with New Jersey Administrative Code, including the Hepatitis B series and meningococcal vaccine, varicella vaccine (or laboratory evidence of immunity) and Tdap.
3. Yearly physical (Pre-participation Physical Evaluation) must be dated between February 1 and July 1, 2020.
4. Medication Request Form (includes any and all over-the-counter medications such as acetaminophen or ibuprofen). Permission form must be signed by physician and by parent.
5. Information on Eye Protection in Sports must be read.
6. Students trying out for a sport must have the following forms submitted **before** the first practice:
 - Current physical (the Pre-participation Physical Evaluation) completed between February 1 and July 1, 2020 and uploaded to Magnus.
 - Health History Update must be completed 90 days before first practice.
 - NJSIAA Concussion Testing Information and Consent Form
 - NJSIAA Steroid Consent Form
 - Sudden Cardiac Death Information Brochure and Form
 - Use and Misuse of Opioid Drug Fact Sheet

Daily Medical Regulations:

Students are not permitted to carry any medication during the school day unless it is for emergency purposes. (Epipens and inhalers can be carried by the student when the written order from the doctor and permission of the parent is on file with the nurse.) A *Medication Request Form* (# 4 above) must be on file before the nurse is allowed to give any medications.

If your son is going on a field trip or staying on campus for an evening or weekend event, **please notify the faculty in charge of any specific health needs**. This includes asthma, diabetes, seizure disorder, and allergic conditions and dietary needs which may require the use of an Epipen. (Students with inhalers and/or Epipens should carry their own with them at all times.)

Any student who needs to leave school during the day due to illness must be seen first by the School Nurse.

All injuries must be reported to the School Nurse. All excuses for gym/sports must be given to the nurse. The School has accident insurance coverage through Christian Brothers Insurance Company. Notify the nurse if you wish to file a claim. Claims must be filed within 90 days of the date of injury.

All infectious diseases (i.e., mononucleosis, strep throat, impetigo, mrsa, conjunctivitis) are to be reported to the nurse. Please keep your son home when they are ill with fever, vomiting or have contagious diseases and notify the nurse at ext-3080 of extended illness of 3 days or longer, surgery and/or other special needs. **We require a doctor's note to return after these absences.**
