At Earth's Care, offering exceptional personal care products means the world to us. Our health and beauty products set a high standard for quality, and we use ingredients predominantly sourced from nature. We believe it's better for our bodies and our planet to embrace the bounty of pure and natural ingredients found right here on Earth—essential and carrier oils, botanicals, beeswax, flowers and more. We utilize these nutrient-rich ingredients in all of our health and beauty products in proprietary

blends and formulas that are proven to soothe, heal and rejuvenate the body. Many of our ingredients have been used in natural medicines for centuries. None of our formulas contains artificial colors or fragrances, petrolatum, sulfates, parabens or phthalates. We do not test any of our products on animals. Crafted by experts, Earth's Care health and beauty products are formulated to bring relief for a variety of conditions including dry and damaged skin, joint and muscle pain, bruising, and many more. Most of our formulated products have been allergy tested. In addition, we sell a wide range of natural oils and butters. We are committed to give back to the earth. Earth's Care is a member of the organization 1% for the Planet. All of our containers are recyclable. Our boxes are printed using wind energy credits, and we are now installing a solar array on our roof which will produce enough energy to power our entire manufacturing plant.

We gladly process online orders.

Angeles, CA

www.togethercalifornia.com

We are a sustainable clothing company that I founded. I am the print designer, incorporating the photography skills I studied with Doug Morgan throughout middle and

high school. Our locally made face masks feature my photography and are more wearable/stylish and less “apocalyptic” than other masks.

We are making face masks locally out of recycled water bottle fabric that is upcycled. We lost all of our wholesale orders just a couple of weeks from delivery (Saks 5th, Free People) and were set to release a sustainable collection on Earth Day to launch our BBC Earth partnership (confidential)...So the masks help ensure that we can pay our local seamstresses and offer them employment so we have a team once this horrible time is over. Ordering from www.TogetherCalifornia.com will directly help Los Angeleno families, every dollar. Plus we are shipping within a day or two, which is weeks faster than many masks advertised on social media.

HAMMEREYE identifies, recruits, and delivers tenacious sales talent to strengthen the revenue generation side of your business. Most of our clients are emerging tech companies throughout Southern California.

Appreciative of any referrals to company leadership (CEO, CRO, CMO, VP of Sales / Marketing, Head of HR) that would partner with a headhunter to fill their open positions. The coronavirus situation has of course caused many companies to do layoffs / furloughs / hiring- freezes. Thus, searching for those companies still open to adding strong talent during this challenging time.

Common Space Brewery is a brewery, taproom and venue located in Hawthorne, CA. We make a wide variety of craft beers with a focus on refreshing lagers and well-balanced hoppy beers.

Within 24 hours of our taproom being closed to the public, we built and launched a delivery service bringing beer right to your doorstep. You can online for next day delivery or to pick up beer from our taproom at www.commonspace.la/beer-to-go. If you've already ordered beer for yourself, order some for your friends or co-workers that are also stuck at home! The taproom is also open to pick up beers every day from 12-8pm. Thank you for the support and cheers!

Heritage Sports Broadcasting Network

Online www.HSRN.com

While millions support the Historically Black Colleges and Universities (HBCUs), no broadcast voice has consistently reached them. HBCU supporters lead many communities from Texas through Pennsylvania, but their efforts to drive positive change is hamstrung by communication hurdles. After serving the community for 15 years, Heritage Sports Broadcasting Network (HSRN.com) expands programming to 24/7 in May. HSRN will engage audiences with best-of HBCU athletics and the human stories behind the games. Programming will also feature discussion critical to the future of Black College communities, including the history, reality— and solutions—to today's wellness and economic challenges. (I'm writing on behalf of a client; I help businesses earn more, meaningful profit by solving society's problems.)

If any Chadwick alum is willing to brainstorm for 15 minutes how HSRN can best leverage its unique communication-position to deliver results, or knows anyone who would value reaching out to the Historically Black College community, please contact me: Rod@RodWallacePhD.com

I'm making face masks! In normal times I'd be doing custom work for celebrity clients, creating and modifying the costumes you've seen them wearing on stage, in music videos, and at award shows. But these are not normal times! Instead I am making 100% cotton masks with filter pockets and twisted copper nose wires, crafted to the same level of quality my usual clients would expect.

You can order online at the website. Each and every mask is made (by me, alone in my studio) to your specifications after the order is placed. New fabric options are being added all the time, so check back in if you don't see what you're looking for the first time, or contact me with special requests!

Vizer is an app that rewards exercise. Users can donate a meal to those in need (distributed by Revolution Foods and Jose Andres' World Central Kitchen) by elevating their heart rate for 30 minutes a day, reaching 10,000 steps, or taking a class at a partnered studio/gym. Each meal donated is redeemable for rewards points that can be used towards free items from local restaurants and retailers (Ex. True Food Kitchen, Tocaya Organica, Mendocino Farms, and more).

Download the app and exercise!
