

IB Chemistry Summer Assignment 2020 – Internal Assessment Part 2 (Mrs. Serrano-Beattie)

Part 1 : Research Question / Personal Engagement / Background **is now completed** and was submitted to me on **Monday 8th June 2020**.

→ **What?**

- ◆ Your summer assignment is to complete **Part 2 : Material List / Method / Safety / Data Collection Tables (empty ready for data collection upon our return to ASF)**.
- ◆ Don't forget to use these useful docs to help you complete this assignment
 - [IB Chemistry IA Guide](#)
 - [Chemistry IA Template](#)
 - [Chemistry IA Rubric](#)
- ◆ This should not take longer than a few hours to complete as you already have the materials list and experimental method that you are going to use outlined in your research plan.

→ **When?**

- ◆ This assignment is due **the first day back in IB Chem class** (whether that is online or at ASF), although I am sure most of you will complete this before then and share with me over the summer.
- ◆ Please place your completed **Part 2 : Material List / Method / Safety / Data Collection Tables** in the IA section of your shared online Chemistry folders.

→ **Grade?**

- ◆ This will be your first grade of the 2020-2021 school year so please make sure you complete the work on time.
- ◆ **1 day late = @80% / 2 days late = @ 50% /zero credit after this**
