Speech Activity of the Week: Beach Ball Speech

Take your therapy outside and have fun with a beach ball! To target language, place the beach ball in various locations on the playground. Before your child can pick it up, they have to make a sentence about the beach ball such as "The beach ball is on the steps."
To target articulation skills, have your child say a speech target 5 times when they catch the ball. For fluency, make a smooth sentence to describe who has the ball or where it is located.
