

INTERNATIONAL STUDENTS

2020 Schedule of fees and charges

Throughout its long history Shelford has enjoyed an enviable reputation for outstanding academic achievement and the breadth of opportunities to participate in extracurricular activities.

Shelford's great strength is its size. There are approximately 500 primary and secondary students attending the School and class sizes are relatively small. Students are given individual attention by talented teachers and all girls progress to tertiary courses of their choice.

Students in the Junior School study the Key Learning Areas as determined by the AusVELS. Flexible groupings, including vertical grouping, allows us to cater for individual differences.

Students in Years 10, 11 and 12 study the Victorian Certificate of Education (VCE) which is administered by the Victorian Curriculum and Assessment Authority (VCAA). Many students study at least one VCE unit and commence specialist studies in Year 11. Very able students are encouraged to combine Year 11 and 12 studies.

Students in the past have entered courses such as Medicine, Law, Arts, Engineering, Science, Business and Commerce, Technology, the Visual and Performing Arts, Hospitality and Tourism, and Management. VCE results are used by the universities as a means of selecting students into courses. The VCE is recognised by universities internationally. Shelford is proud of its close links with Monash University and The University of Melbourne.

Students wishing to enrol at Shelford will be selected according to academic performance and attitude.

Shelford requires that all students sit an AEAS test before their application to this school will be considered. The student's academic results and an English language result of 75% or more for the certificate of graduation will not generally be acceptable on their own.

Students can register for **AEAS testing** at www.aeas.com.au. A Chinese language brochure is available on this website which explains the AEAS testing process and where testing is available. The AEAS assessment report will be considered by the school and should be attached to the student's visa application to demonstrate English proficiency. Shelford will provide a written statement in support of the waiver with the confirmation of enrolment if the student is applying directly or through an agent who does not currently have approval on our behalf to access the waiver.

School reports may be required and all students seeking enrolment will be interviewed. At all times during the school year students are required to reside with a parent (until the age of 14) or in a school approved homestay.

The School uses **Australian Homestay Network** for students aged 15 years or above. They can be contacted via their website www.homestaynetwork.org. A change in Homestay can only occur if approval by the School is granted.

For further information please contact **Marie De Sousa, Registrar**.
