WORK EXPERIENCE 1985 - Present

Mr. Berta has over twenty-five years of experience serving in the environmental health and safety (EHS) industry. His duties have included setting up and directing NIOSH PAT phase contrast microscopy (PCM) laboratory for asbestos analysis. Mr. Berta is currently responsible for planning and implementation of a variety of environmental health & safety compliance audits and remediation services. These include asbestos project management (performing surveys/inspections, bulk sampling and air sampling), indoor air quality building assessments (designing appropriate sampling methods, interpreting data results and preparing response actions), OSHA/NJPE-OSHA building hazard and risk assessments, right to know hazard communication surveys. Mr. Berta creates and maintains client respiratory, laboratory chemical hygiene, lockout/tagout, bloodborne pathogen, hazard communication, and facility emergency response plans. Mr. Berta conducts hazard communication/RTK, bloodborne pathogens, lockout/tagout, respirator protection, asbestos awareness, confined space and other OSHA compliance education and training programs.

Dear Mr. Berta:

Based on our review of your personal qualifications, we are pleased to notify you that you have been granted provisional certification as an individual Right to Know consultant. This means that as of October 31, 1991 you may conduct an approved Right to Know education and training program to New Jersey public employees. Your provisional certification status will remain in effect until such time as permanent certification is granted or your provisional status is revoked.

Now that you are provisionally certified, you are required to provide the Right to Know Program, New Jersey Department of Health, with a schedule of RTK training sessions. When reporting your training please include the: name of consulting agency whose program you will present, name of the public employer and the name of the employer contact, date of the training, exact time(s) of the training, type of training (initial or annual), and the exact location of the training class (address, town, and county). Also if a training is cancelled, be sure to notify me.

To insure that quality training is being provided to New Jersey public employees, representatives from our Program will be making unannounced visits to sit in on selected training sessions to determine if permanent certification should be granted. Once permanent certification is granted it must be renewed every two years.

Please note you are provisionally certified to present provisionally and fully certified programs which we have approved. If you assist any consultant with their program, please make sure their program has been approved.

Thank you for your cooperation and patience in this certification process. Congratulations on your provisional certification!

Sincerely,

Nancy Savage
