Any employee whose conduct is judged unfit by District shall not be permitted to work on the project. Contractor agrees to comply with and abide by all rules, regulations and policies of the District relating to access to and conduct upon District Premises.

Contractor employees accessing school grounds are required to have in their possession identification issued by the District. All such persons must check in with the school main office to receive a visitor's identification at which time the individual must present a government issued photo identification which will be used to verify the individual's name appears on the Certified Cleared Employee List. The District may from time to time and at multiple times in their discretion and without notice check the identification of all persons accessing school grounds by or through the Contractor to assure such persons appear on the certification list and have in their possession a valid District issued identification. Contractor warrants that it shall immediately notify the District if a certified cleared employee is convicted of an enumerated offense or their name appears on any of the noted Databases. A violation of this section is a material breach of contract.

- 43. COMPLIANCE WITH FREEDOM OF INFORMATION ACT.** The District is required by law to comply with the provisions of the Freedom of Information Act, 5ILCS 140/1 et seq., as amended from time to time ("Act"). The Act requires the District to provide, if requested to do so by any person, copies of documents that maybe in your possession and related to this contract. All such documents shall be delivered to the District's Legal Department NO LATER THAN five (5) working days after the date of the District's direction to provide such documents. Failure of the Contractor to provide documents within said five (5) working days as provided above shall result in the assessment of any and all penalties, damages, and/or costs incurred by the District to the Contractor which shall be paid immediately by the Contractor upon demand of the same by the District.

44. RECORDS, RETENTION, AUDIT

The Contractor shall have or upon award of bid establish and maintain a reasonable accounting system that enables the District to readily identify Contractor's assets, expenses, costs of goods and use of funds related to the Project (the Records). Such Records shall include, but not limited to, accounting records,

written policies and procedures; subcontractor files (including proposals of successful and unsuccessful bidders, bid recaps, etc.); all paid vouchers, including those for out-of-pocket expenses, other reimbursement supported by invoices; ledgers; cancelled checks; deposit slips, bank statements; journals; original estimates; estimating work sheets; contract amendments and change order files; backcharge logs and supporting documentation; insurance documents, payroll documents; timesheets; memoranda; and correspondence.

- b.** Retention. The Contractor shall, at all times during its performance of the Project and for a period of seven years after the completion of the Project, maintain Records, together with all supporting or underlying documents and materials. The Contractor shall upon written request by the District at any time or times, whether during or after completion of the Project, and at the Contractor's expense, produce the Records for inspection, copying and audit (including copies and extracts of records as required) by the District. The Records shall be made available to the District, upon three-day written notice, during normal business hours at Contractor's principal office if located in Rockford, Illinois or at such other location specified by the District including the District offices. Upon expiration of the retention period specified in this paragraph 44b, prior to destruction of the Records, Contractor shall provide not less than 30 days written notice of its intent to destroy any part or all of the Records, specifying the nature, character and extent of Records to be destroyed and the District may at its discretion and expense obtain all Records or copies of Records intended to be destroyed. The Contractor shall ensure the District's right to access and audit the Records in the possession, created or maintained by Contractor's agents, assigns, successors, and subcontractors. Contractor shall notify in writing its agents, assigns, successors and subcontractors of the requirements of records, retention and audit as set forth in this paragraph 44. Any and all contracts or agreements between Contractor and any other party related to the Project shall expressly include the records, retention and audit provisions of this paragraph 44.

The District and its authorized representatives shall have the right to audit, to examine, and to make copies of or extracts from all Records (in whatever form they may be kept, whether written, electronic, or other), including, but not limited to, those kept by the Contractor, its agents, assigns, successors, and subcontractors.

Cost of any examination or audit of Records conducted by the District will be borne by the District (excluding any cost to produce Records under paragraph 44b), except where the examination or audit identifies overpricing or overcharges (of any nature) by the Contractor to the District in excess of one-half of one percent (0.5%) of the total contract billings in which event the entire cost of the examination or audit shall be Contractor's cost and Contractor shall reimburse the District for the total cost of the examination or audit. If the examination or audit reveals substantive findings of fraud, misrepresentation, or non-performance by Contractor, its employees, agents, representatives, assigns, successors or subcontractors, the Contractor shall pay all costs of the examination or audit; and if paid by the District, reimburse the District for all such costs. In the event Contractor fails to pay such costs within 30 days of demand by the District, District may offset any such costs unpaid by Contractor from any balance due Contractor by the District or at the election of the District proceed to collect such costs by any available means including litigation in which event the costs of collection including reasonable attorney's fees shall also be paid by Contractor.

REQUEST FOR PROPOSAL MANAGED PRINT ANALYSIS

GENERAL INFORMATION

Rockford Public Schools, District #205, located in northern Illinois, is one of the state's largest school districts. The School District covers approximately 165 square miles and serves 29,000 students with three early childhood centers, 27 elementary schools, six middle schools, five high schools, six alternative schools, one adult education school, and three administrative buildings.

It is one of the largest school districts in Illinois and the second-largest employer in the Rockford region. The district focuses on Readiness Rocks, five initiatives aimed at improving student achievement, making best use of resources and making RPS 205 a desirable and successful school district. Those initiatives are: College and Career Readiness, Seven periods to Success, 21st Century Learning Environments, Preschool for All and College for All. In addition to zone-based schools, there are also specialized schools and a year-round program.

OBJECTIVE

The purpose of this document is to provide interested parties with sufficient information to enable them to prepare and submit a proposal for providing managed print services solutions for the entire school district. Rockford Public Schools is seeking a vendor that will provide a managed print solution that will increase productivity and efficiency as well as reduce overall costs and provide continuous process improvements for all areas of the District.

The District's current state includes:

- Decentralized acquisition of Copiers, Printers, Etc.
- Multiple Devices (Copiers, Printers, Fax Machines, Risograph, Scanners)
- High Costs for Ink/Toner, and, Paper from multiple vendors
- Multiple representation of manufacturers
- Multiple Lease Cycles
- Inefficiencies/Number of copiers, printers, fax machines in one area
- A need to streamline the overall process

A managed print program would help the District monitor and manage the print infrastructure. This would make it easier to monitor and lower printing costs, as well as improve the functionality of document generation and use. We are looking for a company with the demonstrated expertise, technology, resources and commitment to perform the optimization and management of our printing and imaging devices such as printers, fax machines, copiers and multifunction devices by consolidating as many functions as possible. The ultimate goal is to produce output quicker, more efficiently, and at less cost to the District. In meeting this objective, the District is seeking vendor responses that will clearly:

- Ensure that District employees are continually satisfied with the printing/copying environment provided.
- Control, monitor, manage and reduce overall print costs for the District.
- Decrease our overall print output services operational costs.
- Provide the ability to monitor print volumes by device and create incentives for staff to reduce print volumes.

SCOPE OF WORK

Rockford Public Schools has various locations throughout the District that have multiple copying capabilities. The District's current copies per quarter are 9.6 million copies totaling an estimated 38.4 million copies annually and these numbers do not include the number of copies made on each printer throughout the District. The vendor shall provide recommendations for changes to current printing practices and/or infrastructure improvements; proposals for on-going optimization of hard copy devices; plan for life cycle management of printing and multi-functional hardware, implementation plan including description of how support is provided for change management and training, as well as allow the District to consider future document management solutions going forward which will include:

- Having an available, accurate detailed list of all devices and locations throughout the District.
- The ability for the District to see and manage the cost of printing throughout the department with usage reports for auditing (who is printing what and how much did it cost.)
- The ability to expand or contract the overall size of our document output fleet.
- District-wide year end cost analysis that provides a detailed report with total cost, department costs, and performance review along with recommendations to improve operations and reduce costs further.
- Conduct a district wide analysis of each building within the District. This will include an assessment of current environment in order to identify potential areas for performance improvement, operational efficiencies, and cost reduction. Assessment will also include recommendations related to redeploying, retiring, or replacing existing equipment and a device mapping of current environment.

Provide the District with recommendation by location, of the specification of equipment that is needed to suit their needs. No brand specific equipment. Rockford Public Schools currently has approximately 147 copiers and an estimated 1137 desktop printers throughout the District. As part of this bid, information will be provided to the successful Bidder to work with each department to transition away from the local printer to the copier where practical to do so. This will lower overall cost and reduce equipment requirements. The District's goal is to have fewer devices in use and still meet business needs.

Attached is a list of the current copiers in place throughout the District with the department, type of machine and usage as well as an estimated listing of printers with the department and type of machine. All equipment is black and white copies unless noted as a colored copier.

REQUIREMENTS/DELIVERABLES

1. Device map pf the current environment by location.
2. One hard copy bound report by building with recommendations and maps of equipment that should be redeployed and where to, retired, and specifications of replacement equipment. Cannot include brand names or models.
3. Executive summary of estimated savings by location if recommendations are fully implemented.
4. Information also to be provided on a flash drive.

ADMINISTRATIVE ISSUES

Bidders must provide detailed information on the personnel who will be assigned to the District's account. The District will require one specific account representative that will handle any issues, problems or concerns during the process. Bidders must provide a resume of the individual assigned, where they are located, and response time. This does not mean a response time for machine servicing.

Rockford Public Schools will not reimburse vendors for any costs associated with preparing and responding to this RFP.

RIGHT TO REJECT & EVALUATION CRITERIA

This RFP does not commit the Rockford School District to award a contract or to reimburse the bidder for costs incurred in submitting in response to this Request. The Rockford School District reserves the right to reject any or all proposals received as a result of the Request, to negotiate with any bidder, to extend the submission deadline, or to amend or cancel in part or entirety this RFP, if it is in the best interest of the Rockford School District.

The evaluation criteria for this RFP reflect a wide range of considerations. While pricing is important, the primary objective of this RFP is to select a reliable, experienced vendor who will provide the comprehensive, responsive services required by the Rockford School District. Consequently, the apparently successful vendor may not necessarily be the vendor offering what appears to be the lowest cost.

The vendor who meets all of the RFP requirements and receives the highest number of total points will be declared the apparently successful vendor.
