

The KCPS offers a program for students with significant medical concerns at Wheatley Elementary and East High School. A full time Registered Nurse provides needed medical services at each site. A continuum of services ranging from the co-teaching model to a functional / life skills curriculum is available for the students. Assistive technology, transportation, Adaptive PE, speech / language, occupational, and physical therapy services are available at each site. For additional information contact the Exceptional Education Department at 816-418-8941.
