# Sea Serpent Search

Old sailors were the first to see many amazing things, like whales and giant squid. They didn't know how to describe them, so they simply said they'd seen a sea serpent. You can catch sight of a sea serpent this summer by reading a fantasy book. To earn one piece of treasure, write the title and author of your fantasy book here!

## Captain's Log

Ship captains keep a log as a record of the details of their voyage. Long ago, before we had maps of the whole world, a detailed captain's log had the only clues that other captains could use to get to a location that had been newly discovered.

Help others follow your journey on the S.S. Summer Reading by keeping your Captain's Log of reading adventures up-to-date. Keep your log in a convenient place so you can easily record your path through the ocean of books available to you!

To earn treasure, read, read out loud, or listen to reading at least 4 times per week for at least 10 minutes each time. Record the date and number of minutes you read. And, like a good ship's captain, observe the weather at that time and record your observation using words or pictures. For each completed week, add one piece of treasure to your chests for a maximum of 12 pieces of treasure.

# Where Will the Current Take YOU?

The S.S. Summer Reading will take you around the world. Read some non-fiction to learn about a country, continent, or place that you could visit. Then, draw an **X** to mark that spot on the map! To earn one piece of treasure, use the lines to write a short message on the postcard based on what you learned about that place. Don't forget to also draw a picture and design the stamp! Write the title and author of the book you read here.

## Message in a Bottle

Imagine finding a bottle on a beach or bobbing in the waves. Where might it have come from? How long did it take to float to you? When you're lost at sea, there's no post office to send your post cards. You have to try your luck by sending a message in a bottle!

While finding a message in a bottle may be a mysterious, exciting event, these days we spend more time pulling trash out of the sea than mysterious messages. Knowledge is power, so if we hope to solve problems like pollution, we need to educate ourselves. Read about one of the many environmental issues we are encountering on Planet Earth these days, or about one of the people trying to solve these problems. Visit the OPAC and look at our Visual Search tab for some ideas of what you can read, or check out new ebooks on Sora. Earn one piece of treasure for reading a book about environmental issues or the people who solve them.

## Sail the Seas of History

You may not be able to board the Titanic or cross the Atlantic on the Mayflower, but with historical fiction, you can feel like you were there when history was made. Historical fiction tells about a real event in history through the eyes of a fictional (made up) character.

Read a historical fiction book and label the map with a  for the setting of the story to earn one piece of treasure for your chest! Don't forget to write the title and author of the book in Antarctica.
