

## *Make a Tabletop Soccer Game*

### *Materials:*

- *Cereal box*
- *Paper*
- *Hole punch*
- *Cardboard*
- *Drinking straws*
- *Stapler*
- *Cardstock*
- *Aluminum foil*

## *Process:*

- 1. Measure 3 inches from the side of a cereal box and cut off the entire side. Using cut paper, decorate the inside to look like a soccer field.*
- 2. Cut two goals by trimming the flaps at each end. Three inches from each goal, punch one hole in each side.*
- 3. Cut two 1-inch-by-9-inch strips of cardboard. Fold them in half. Place a drinking straw in the center of each and staple the straw in place.*
- 4. Draw soccer players on cardstock and glue them onto the cardboard. Slide the straws through the holes on the sides of the field.*
- 5. Make a soccer ball from aluminum foil.*

## *How to Play*

*With a friend, spin the straws to make the players kick and block the ball. Try to get your soccer player to kick the ball into the opposite goal.*
