

## *Butterfly Haven*

*It is Summer time! Welcome butterflies to your yard!*

### *What You'll Need*

- *shallow dish (such as a pie pan or a saucer from a plant)*
- *rich soil*
- *flat rocks (light- and dark-colored)*
- *sponges*
- *scissors*
- *water*

### *What You'll Do*

1. *Spread a thin layer of soil in the dish.*
2. *Arrange the rocks in the dish.*
3. *Cut the sponge into shapes, then place them between the rocks.*
4. *Pour water on the sponges so that some of the water seeps into the soil below. Add just enough so that there's no standing water.*
5. *Place your butterfly puddle in a sunny area near flowers. Try to keep it out of the wind. Make sure it stays moist.*
