# Make 100

| Tens | Ones |
|:----:|:----:|
| 2 | 4 |
| 5 | 6 |
| 1 | 9 |

**Materials:** numeral cards (0-9), Tens and Ones boards

_____

1. Work with a partner.  Shuffle the numeral cards and place them facedown in a pile.

2. Take turns to flip over a numeral card and decide where to place it on your Tens and Ones board.  Your goal is to build three 2-digit numbers that have a sum close to 100.  Once you place a card on your board it cannot be moved.

3. Continue until you both have three 2-digit numbers on your board.

4. Add your three numbers.  The player who has the sum closest to 100 scores one point for the round.

5. The first player to score five points wins the game.
