

Directions: Race to the Top

Materials: Deck of Cards, Recording Sheet, Calculator

Addition and Subtraction Facts

Multiplication and Division Facts

1. Choose two cards. Face cards have a value of 10.
2. Use these cards to make a fact family. Record your equations starting on the first floor. Discard your cards.
3. For each floor, choose two cards and make a fact family.
4. When you are all done, check your work with a calculator.
5. If you got all your fact families correct, you made it to the top!!!

Massachusetts Frameworks: 2.OA.2: Fluently add and subtract within 20.

Massachusetts Frameworks: 3.OA.7: Fluently multiply and divide within 100, using strategies such as the relationship between multiplication and division.

Race to the Top Recording Sheet

A vertical recording sheet shaped like a house. It has a triangular roof at the top and ten horizontal rows for writing below. The lines are evenly spaced, creating a ladder-like structure. The entire sheet is outlined in black.
