

Play a Game

Start  Get 20 red squares.

Put  in a  .

Materials Number tiles 1–5, a bag for the tiles, 20 red squares

Oral Directions **TRY** Give 10 red squares to one player. Give 10 red squares to the other player. Choose a game board. Each player picks a number tile from the bag. Put your tile in the file space next to your game board. Put that many red squares on your game board. The player who has the greater number of squares on a game board keeps all the red squares. Remove the tiles and each player takes another turn. The player who collects the most red squares wins.

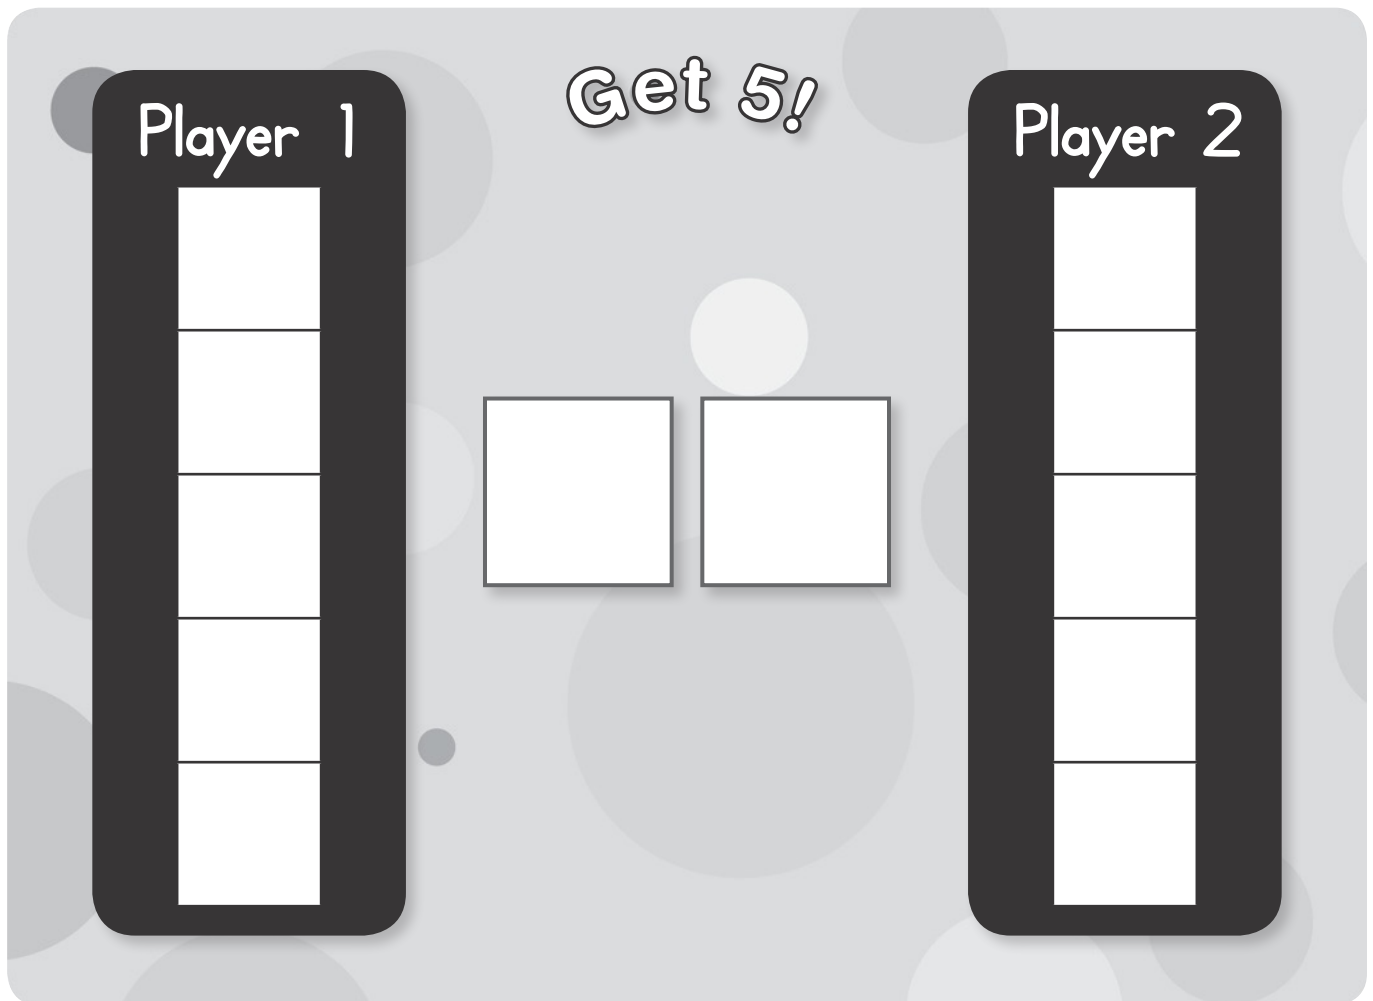

TRY AGAIN If you have time, play again!

Play a Game

Start  Get 10 red squares.

Put  in a .

Materials Number tiles 1–5, a bag for the tiles, 10 red squares

Oral Directions **TRY** Give 1 game board to each player. Each player picks a tile from the bag. Put your tile in the tile space next to your game board. If you have the greater number, explain why. Put a square on your game board. Put the tiles back in the bag and play again. The first player to get 5 squares wins.
