

Student of the Month

MAI AKAD

Mai apologised last week for asking me an unrelated question ... any student that starts off with 'I've been reading a book by a man called Stephen Hawking, I think it's called 'A Brief History of Time' ... is that we would do in A level Physics?' ... and she is in Israel! if she'd been in the room we wouldn't have got to break!

Brilliant student ...bright, positive, curious, independent-minded and humble enough to know when to ask for help! Sh-mazing!

Mr Watts

She just has the balance right...
A wonderful friend to those close to her but friendly with everyone. Extremely driven to be the best student she can be but still gives everyone else in the class a chance to answer or speak. Always demonstrates academic humility in front of her teacher and her peers. Mai seeks me out for extra work to ensure she is able to hit the highest GCSE grades... did this after not being happy with a Grade 8 in the Easter report! Since lockdown, she is the first to log on to all Teams lessons...at least 5minutes early and never leaves the session without saying 'Thank you'.

Mr Martyn

Mai is one of those pupils who you can always count on to not only do things properly but to do it with a smile and with passion. Her can do attitude and approachability will serve her very well in the years to come. She will make an excellent house captain and we look forward to seeing her leadership skills develop further come September.

Mr Azopardi (Head of House)

I cannot think of a more deserving student to receive this! Mai has adapted with resilience, commitment & pure dedication to her studies over the last few weeks.

I receive positive e-mails from her teachers almost daily, Mai is an exemplary student in every way, and I know her hard work will pay off when the time comes.

In addition, Mai is a compassionate member of my tutor; she has supported younger students and has offers sound learning advice to others during remote learning. Well done Mai!

Mrs Oxley (Tutor)
