# Questions

# **The NEW Summer School Experience**

September 17, 2014

# Purpose

- The purpose of KCPS Summer School was to offer extensive summer learning opportunities for all students throughout KCPS.
- Improve reading and math skills
- Get a jump start on classes
- Ease the transition from one grade to the next

# Research

- Studies have shown that “nearly all children lose about three months of math computation skills over the summer.”
- Reading skills can also be affected, as well as listening skills and following directions. However, the same research has also shown that doing at least twenty minutes of brain engaging work every day can minimize that learning loss.

(Cooper, 1996)

# Research

## 2011 Rand Corporation Study

- Lower Income Students experience the greatest impact of the Summer Slide
- Losses are cumulative & build up over time

## After School Alliance Study

- 80% of the survey supported public funding
- Summer School Acceleration is essential for School Improvement

# Research

## Johns Hopkins University Study

- Achievement Gap narrows between Fall & Spring and then widens during the summer months
- 2/3 of the achievement gap between rich and poor 9<sup>th</sup> graders could be attributed to inequities of access to summer opportunities

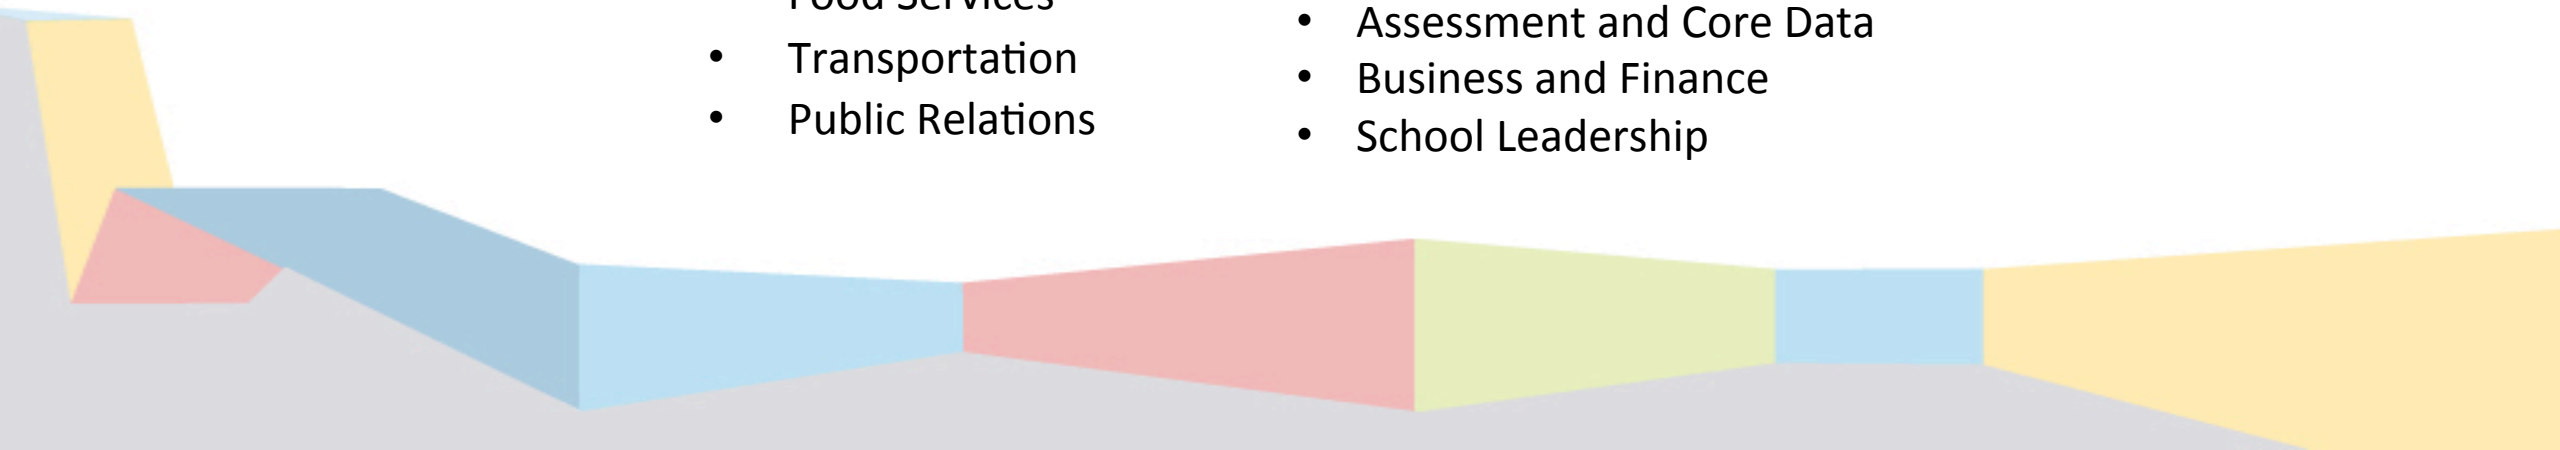

# A Bold Initiative

It takes Collaboration!

# KCPS Partner In-service

*This in-service has been great! KCPS has really impressed us with the way this was organized. Everything was done professionally and the information was extremely valuable. Everything we needed is already laid out. Another organization was our LEA on last year and we did not have any of this information that was presented today. We had to do everything on our own.*

# Math

## Pre/Post Test Data

# Reading

## Pre/Post Test Data

# Lessons Learned

- Started planning early in the year
- Consider increasing district sponsored program to 5-6 weeks
- Increase the rigor of program at all sites
- Ensure that partners use our Tyler System

# Looking to the Future

Maintain:

- Orientation for Partners
- Keep Individual and Post Program Conferences with partners
- Keep Monitoring System with improvements
- Keep Attendance Checks
- Full Day Program

# The Future

- Planning for Summer School 2015 will begin as early as September 2014
- Analyze data and feedback to offer an even greater summer school experience
