

## CONSTRUCTION NOTICE

### Water Main Installation

#### (Drury Lane Area, West Hartford)

Beginning the week of **July 13<sup>th</sup>**, the **Metropolitan District (MDC)** and their contractor, **Paganelli Construction**, will be starting work to install a new water main in the Drury Lane area of West Hartford. Work will take place on Drury Lane, Sheep Hill Drive and Hyde Road. Construction activities may also include, but are not limited to, road saw-cutting, replacing service laterals, hydrants, and private property curb stops (shut-offs), pavement and landscape restoration.

*\*Preliminary work, such as saw cutting, may begin as early as July 6<sup>th</sup>.*

During construction, parking along both sides of the street will be restricted during working hours. Construction equipment may be left on site to expedite the work. Driveway access to your property will be maintained. The public right-of-way, located from the edge of the road to your property line may be disturbed as work is performed on your service lateral. Please be aware that this will be temporarily restored during construction, but the contractor will be back in the spring to perform the final permanent restoration to any lawn, curb, sidewalk and driveway aprons.

We do not anticipate any interruption to water service during construction. Notices would be provided in advance of any planned service interruption.

The project is expected to take approximately 2-4 weeks to complete. Work hours are generally between 7:00 AM and 4:00 PM Monday through Friday.

*For your safety, please obey all posted traffic and construction area signage.*

Schedules are subject to change based on weather conditions and unforeseen construction activities. MDC Staff, Contractors and Consultants must be properly identified and show ID upon request.
