## Unity in the Community 8

- Unity in the Community 8 is a healing, wellness, therapeutic, & artistic community center to express & highlight people's unique individual talents!
- Unity focuses on using positive approaches with children, teens, & adults to develop intrinsic motivation. Our programs aim to develop social-emotional competence through many techniques.
- We have connected with local school districts, daycare centers & special needs/behavioral/emotional/autistic support services to implement the social emotional program.
- The programs are differentiated for individual age cohorts & developmental needs that are adaptable & easily modified for each individual person.
- These services are offered to children, young adults, adults, seniors, & special need individuals to support creativity, well-being, and holistic approaches. All proceeds are used to support our program offerings, supplies, & individual support. **↓ CHECK OUT WHAT WE OFFER BELOW ↓**

Local resources,  
opportunities,  
and support for the
