FOR IMMEDIATE RELEASE

## **Two of Northshore School District's 2018 Bond-Funded Projects Are Nearly Complete**

Bothell, Wash. – Ruby Bridges Elementary is in its final months of construction, as it is set to open for the 2020-21 school year. In June, the school received a temporary certificate of occupancy. The full certificate of occupancy is projected to be received at the end of July.

During June, the first set of furniture was delivered, as was custodial equipment. Commissioning continues to be ongoing for the school's HVAC system. Additionally, the kitchen hood permit was approved and the fully accessible playground was completed.

Also, the punch list for the Washington State Department of Transportation was completed, which included adding striping to the roundabout and sidewalk improvements. The construction team continues to work through the remainder of the school's punch list.

The Skyview & Canyon Creek Expansion Project will be complete by mid-July. The new sign at Skyview Middle School was installed and the landscaping is finished. Over the next couple weeks the final sealing of the asphalt in Canyon Creek's parking lots will be completed.

The unprecedented health crisis postponed the project's grand opening, originally scheduled in March. Once it is safe to gather, a new date will be set and shared with the community to celebrate this project.

These projects were made possible by the generous support of Northshore voters who approved the 2018 bond.
