# GUIDE TO GOOD EATING®

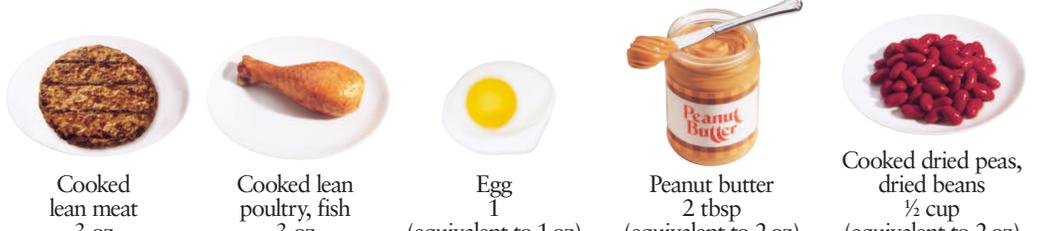

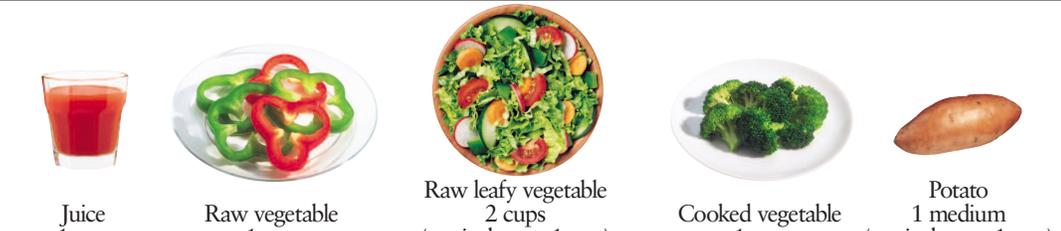

Anyone can eat for good health.  
Just follow these simple steps:

1. **Eat foods from all Five Food Groups every day.**  
Foods in the Five Food Groups are nutrient rich. Each group provides different nutrients.

2. **Eat *different* foods from each food group every day.**  
Some foods in a food group are better sources of a nutrient than others. By eating several foods from each food group, you increase your chance of getting all the nutrients you need.
3. **Select lean or low-fat foods more often.**

*Every day eat:*

*Suggested Serving Sizes*

 <p><b>MILK</b> Group for calcium  3 cups</p>	 <p>Milk 1 cup</p> <p>Yogurt 1 cup</p> <p>Cheese 1/2 oz or 1/3 cup shredded (equivalent to 1 cup)</p> <p>Cottage cheese 1/2 cup (equivalent to 1/4 cup)</p> <p>Frozen yogurt, pudding 1/2 cup</p>
