It is the material we covered for this unit so I would encourage you to review it before we start next year. It will be updated later this summer with some additional HL material. (See Managebac for Chapter22_print.pdf).</p> <p>At some time in the fall we will be doing the work for the physics IA (just how remains to be seen). It's a good idea to do some casting around during the summer so that you will be prepared with a topic. Try to do some reading on that topic if you can (that's what the internet is for – not watching cat videos). Here is an overview of the IA process for you read:</p> <p style="text-align: center;">Overview of a Physics IA.docx</p>

<p>ATHLETICS Get in some workouts this summer or be ambitious and keep up a regular schedule. Try for at least a minimum of 3 workouts a week, of course more is okay. What about 6 days a week for just 15 minutes a day? Lots of options on the Meadowridge Athletic Hub, https://www.meadowridge.bc.ca/home-learning/athletics There are a wide variety, I especially like under '30 Day Workout' the 'Good Morning Workout'. Try for 3 sets a day. You'll love the results. Thank me later :) .</p>	<p>Counselling US Applicants: draft Common Application Essay, work on Common Application activities list, begging working on university-specific supplements once they are available UK Applicants: draft of Personal Statement, register and prepare for any necessary standardized testing</p>
