

Electronic Devices – Quick List for Daily School Use

*For a complete overview of digital policies for CCS, please see the *CCS Acceptable Use Policy*.

Please note that bringing a personal electronic device to campus for 6th-8th grade students is recommended for the 2020-2021 school year. There will be devices on site provided by the school; however, student-owned devices will better prepare them for use in high school when it is required. Please have online accessibility at home.

If your student plans to bring his/her own device to school, please note the following:

Device Requirements:

- Physical keyboard
- Browser either Firefox or Chrome
- Min 4GB of RAM (memory)
- Min 120 GB of hard drive space available (256 recommended)

It is expected that all Capital Christian 6-8 students will...

- come to school each and every day with devices fully charged if they bring one.
- bring a pair of earbuds every day.
- clear all open apps/close all windows at the beginning of every class.
- **only** open apps and windows they are given permission to use during each class.
- keep their devices on their desks (not in their laps) or put away during the class period.

Capital Christian 6-8 students may not...

- record audio or video and/or take pictures of teachers, staff, administrators, or students during the school day without receiving prior permission from the teacher.
- open/use devices in the school locker room or any school restrooms.
- share passcode or passwords with any other students.
- use another student's device without permission.
- use apps or websites connected to gaming, social media, music, etc. during class unless permission has been given (between 7:30am-3:05pm).

Before/after school, break, and lunch:

- Students may use their devices appropriately for academic purposes while being supervised by a teacher or staff member.
- School staff maintain the right to check the devices to see what students are doing at any time during the school day.
